This, above all—to thine own self be true: And it must follow, as the night the day, Thou canst not then be false to any man. —Shakespeare.

## War-Camper Explains Few Things You Have Never Thought of Before

By a WAR-CAMPER.  
Suppose that "The-Little-Tin-God-of-Things-As-They-Shouldn't-Be" turned his wheel of fate with a cynical laugh and set you down in Italy. Suppose that the "Little-Tin-God" placed you in a fairly large manufacturing community where your children, as soon as they were past the school age, hastened into the manufacturing plants in eager search of money.

And suppose that you had to do all your trading, shopping and traveling in a strange land, through a strange language, not one word of which you understood. If you lived in that community for many years the customs of your native neighbors, how would you feel, I wonder.

Just such people are living in our midst—living in Omaha but not of it.

Omaha is a rapidly growing city and perhaps the rapidity of its growth is the reason for the neglect of one of its most pressing problems. The problem is that of the foreigner. Let's not call it Americanization any longer, just call it Omaha Citizenship.

Leave the "Little-Tin-God" now and go with the Friendly Visitor and her interpreter to that part of South Sixth street which is populated by Italians.

We climb a flight of narrow stairs and are met by a slyly smiling woman whose eyes plainly ask us by what right we have climbed her stairs. The interpreter and the woman start a rapid conversation that may be translated as follows: "Hello—would you like to go to an American school?"

"No. (Most decidedly.)

"Why?"

"Oh, look—I have four little children and have to stay at home and take care of them. I have no time for school. I would like very much to learn, but I have no time. No, I cannot go to your school."

"But we will have the school in your house. Won't that make it easier?"

"How can you have a school in my house? A house is not a school—who ever heard of that?"

"Well, we will call in some of your friends and neighbors and the teacher will come to you and teach you American ways and language. Will you come to that school?"

"Wait—I will see what Philomena says."

So Philomena is called and she raises the same objections to school. Finally, after much smiling, nodding and talking with neighbors, she says:

"Yes, I am glad to go to such a school. It is very hard for me to go shopping and harder still when I ride on the cars because I do not know the American language. Let me tell the other women in this house about it."

So the news spreads from yard to yard—the news of a school that is possible for busy mothers and housekeepers to attend.

But here is an elderly woman who says to the friendly visitor, "Oh, what nonsense you are talking. I cannot learn. I never have learned in the old country even."

"That doesn't make any difference," says the interpreter, while the Friendly Visitor wishes that she understood a little bit of what was going on about her.

"Yes, ma, yes! I'll help you. You can learn English, then you will be like all the other women who talk English. Go on, ma, go on!"

So "ma" shrugs her shoulders and with a doubting smile says: "Well, I will try, but I know I can't learn. I'm too old."

So down on South Sixth street is a group of 30 Italian women eager and ready to learn, and whose only request is that the teacher shall come every day that they may learn more quickly. Disappointment is plainly seen in the dark brown eyes as the Friendly Visitor explains that she cannot come every day, but the eyes soon smile again, for their owners are eager to learn even a little.

Let Omaha take heed, and disappoint them not, for a city's growth to be valuable must mean an enlarging of her citizenship from her highest to her lowest.

## How Lack of Iron Weakens the Blood

### Saps the Vitality and Strength and Makes Physical and Mental Weaklings

### Nuxated Iron The Red Blood Food

By Helping to Supply the Iron Deficiency in the Blood Often Increases the Strength and Endurance of Weak, Nervous, Run-Down Folks in Two Weeks' Time.

To every man and woman who lacks physical strength and energy there comes a longing at times to possess the power and endurance of an athlete, yet they go on struggling through life weak, nervous and run-down simply because they fail to realize that their trouble is nothing more than lack of sufficient iron in the blood. Once the needed iron is supplied to enrich the blood and create new red blood cells, signs of weakness disappear and the body quickly gains in strength and vigor. If people would only keep their blood filled with strength-giving iron by taking a true blood food like Nuxated Iron, they would not be weak, nervous and generally "out of sorts" they might readily still renew energy and endurance into the whole system is the opinion of Dr. Ferdinand King, New York Physician and Medical Author, who says: "Many a man and woman who ought still to be young in feeling is losing the old-time vim and energy that make life worth living simply because their blood is starving for iron. Iron is absolutely essential to enable the blood to change food into muscular, nerve and brain tissue. Without iron you don't get the strength out of your food. Your blood becomes weak, thin and pale and as a consequence you feel irritable, run-down and constantly worn-out."

"Nuxated Iron by enriching the blood and creating new blood cells, strengthens the nerves, rebuilds the weakened tissues, and helps to instill renewed energy in the whole system whether the patient be young or old. I have used Nuxated Iron widely in my own practice in severely aggravated cases with the most successful results. I have induced many other physicians to give it a trial, all of whom have made very gratifying reports in regard to its great power as a health and strength-builder."

If you are not well or strong you owe it to yourself to make the following test: See how long you can work, or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit.

Manufacturer's note: Nuxated Iron which is recommended above is not a secret remedy, but one which is well known to druggists everywhere. Unlike the other iron products it is easily assimilated and does not irritate the teeth, make them black nor upset the stomach. The manufacturer guarantees successful and entirely satisfactory results to every purchaser or they will refund your money. It is distributed in this city by Sherman & McConnell 5 stores and other druggists.
