Eight Years' Trial Shows Electric Light and Power' Plants Are Practical for Homes.

questioned, that every piece of moving machinery must be tested by owners in every kind of circumstances before its absolute reliability is assured. The best engineers, with the biggest reputation, with millions of dollars behind them. may design what appears to be a wonderfully fine piece of machinery, on paper, but when the ultimate consumer gets hold ot it, he brings out the "bugs" in a manner the skilled engineer never thought

This is one of the reasons why Lalley Wilson Electrical company, distributers for Nebraska, South Dakota and western Iowa, experience no difficulty these days in selling them to progressive farmers and dealers. The farmers of this section are discriminating, judges of quality and they know that among the thousands of Lalley light plants in daily use, many of them have been oper ated from four to eight years and are giving as good, or better service today than they did when in-

Not only in the United States are Lalley light plants used—they are installed by the hundreds in Australia, New Zealand, South Africa, in every country of South America. in Europe and even in far northern Iceland. And they have stood the test in all these countries.

It certainly pays, when purchasing an electric light and power ried out for many years, and is riving satisfactory use in so many different kinds of climates, all over the world, that there can be no nuestion about its serviceability.

Cheese Eight Feet High to Be Shown

Chicago, Aug. 30.-A cheese feet high, 101/2 feet in diameter and weighing 31,964 pounds, recently has been completed for Armour & Co. to be exhibited at the national door," and that of securing adedairy show here October 6 to 12. quate rights of way properly lo-It is said to be not only the largest cated. cheese in the world but the largest

Details of the big cheese are impressive. It is stated 357,500 pounds milk, 800 pounds of salt and 1,251 ounces of rennet were used in creased property values will more its making. The milk was taken from 12,000 cows on 1,800 farms, 59 state. factories furnishing the curds and 73 cheesemakers and helpers coin the making. Three "handage cloths" were used, each 33 teet long and 16 feet wide.

The process of manufacture was filmed" by two motion picture concerns and the pictures are to be shown throughout the world.

Indiana Sportsmen Ask Bait Industry Quiz

Muncie, Ind., Aug. 30. - After paying the high prices charged for live bait at Indiana lake resorts, ers of Douglas county. The roads Muncie sportsmen are loud in their to be paved at this time are those demands that an investigation of outlined in the agreement of the the bait industry be included along commissioners before the election. with the high cost of living.

One dealer in angle worms, who, at the beginning of the season 35 cents a hundred and then tacked and the military road out of Florou another 5 cents explained the second raise by saying he has to pay a 5 cent war tax.

At most of the Indiana lakes last | tions. season fishing worms could be bought for 15 cents a hundred; now they are 35 and 40 cents a hundred. Crickets that formerly sold for 35 cents a hundred are now being doled out to the sportsmen at 10 cents a dozen.

The dealers say they can make so much more money at other work that they have to charge the higher prices for bait or quit the business. One bait dealer at Webster lake confided to friends the other day

that he had sold 20,000 worms since the season_opened and had cleaned up a nice profit. It is said the wise bait dealers dig their worms early in the spring and place them in a coffee grounds bed and with frequent watering and feeding on coffee grounds the worms multiply

But the sportsmen assert that the blue gills don't bite any beter on 40cent worms than they did on the 15 cents kind.

Women Aid Police in

State Roads Appropriation Now Totals Over \$9,550,000 quest for a hearing was filed, which was very unsatisfactory in a dry

Many Counties in Nebraska Have Voted for Paved Country Highways in Past Few Months-Douglas | ter of the irrigation district, and

of the construction of all state and ment. federal aid roads, the design of all

have laid out a system of roads connecting all the county seats in the state, and the last legislature designated these roads as a state highway system by statute and provided that after January 1, 1920, threefourths of all the motor vehicle taxes should be used under the direction of the department of public works for the maintenance of this

Much Federal Aid.

The federal government has apropriated \$5,800,000 for road construction in the state of Nebraska, and the state has appropriated \$3,-750,000 to be expended under the direction of the department of pubc works.

During the last four months, we have awarded road contracts aggregating \$2,500,000 and have \$800,000 worth of work to let the last week n September.

In addition to the above mentioned projects, we expect to have work started in each country of the state by April 1, 1920. While organizing for the con-

struction of 4,500 miles of road, it is only natural that we would have a large number of difficult problems to work out. The greatest obstacle that we have had to deal with is the shortage of contractors and in order to carry out the work, plant, to get one that has been it has been necessary to organize construction crews in several counties as contractors were not available. Another difficulty we frequently have is whenever-plans for a new road are announced, it is human nature for those who live along the way, either to bring pressure to bear to have the thoroughfare constructed in front of their door, or else to force the highway department to make detours in order at Armour Exhibit to save cutting through a piece of

Perhaps no single feature of road work has caused the state highway department as much trouble as those two problems-that of wanting the highway to "pass along my

Such a policy always reacts ever attempted and is valued at against the owner in the long run, since the more direct the road and the better located, the greater the travel will be and the less the cost of maintenance. It follows, that inthan offset concessions made to the

> our main roads are usually full of kinks and offsets.

> Impairs Road's Usefulness. Not only does it impair the usefulness of the road, but it adds considerably to the factor of danger. for frequent abrupt curves are made

necessary by these detours-Several bond issues have been voted. The largest is Douglas county where preparations have started for paving 115 miles of roads recently ordered by the vot-Probably not more than \$1,000,000

will be raised this year, and most of this is to be spent on the paving imped his price from 15 cents to of the Lincoln Highway, the O. L. D. ence. It is probable that the paving will be of brick or concrete, and, according to standard state specifica-

> As other counties adjacent have promised that work done on the main highways leading into those counties will be pushed immediately, and since Dodge county has promised to carry on the paving of the Lincoln Highway from the border of Douglas county to a point seven miles west of Fremont, the result will be a continuous paved connected road in the eastern half of the state within a short time.

Three Miles Paved Roads.

At the present time, Douglas ounty has three miles of payed road n good condition. Twenty-nine and one-half miles will be repaved under the \$3,000,000-bond issue, while 82 miles are laid out to be surfaced. Douglas county's apportionment of state and federal aid will be used with the \$3,000,000-bond fund and all of the work will be done under the direction of the department of public works.

In order to facilitate the work, the department of public works has divided the state in five divisions The first division includes the counties in the southeastern part of the state. The total appropriation of this entire area amounts to \$3,346,-

666.99 The second division includes all the counties east of Cherry, turning at Antelope, Madison and Platte counties, and thence east on the Missouri river. M. F. Black is the \$2,714,524.03 to expend for road purposes under the five-year appor-

tionment. Division three is located in the southwestern portion of the state, gineer, maintains his office at Hast-ings. Division three has a total ap-propriation of \$1,656,902.08.

In State's Center.

Division four is located in the center of the state; \$2,055,227.92 is the division. R. L. Cochran is division

engineer at North Platte. Division five is located in the extreme western quarter of the state, running as far east as Sheridan, Grant, Arthur and Keith counties. J. C. McLean maintains his division office at Scottsbluff. This division has \$1,372.886.73 for road construc-

Closing of A GREAT OFFER--Only a Few More Days Left and Your Chance May Be Gone Forever

Will You Let \$10 Stand Between You and A Good Chance to Make Hundreds?

Read:—Here's a Chance to Make Big Money On a \$10 Investment—Or to Lose But \$10—You Can't Lose Much If You Do Lose-You May Make Hundreds-Or Even Thousands. Get the Facts:-Verify Them-See What the Press Says-Note the Men Back of This Enterprise-THEN DECIDE YOURSELF.

Great Fortunes Are Made When Oil Is Struck

All the oil enterprises that are today pouring forth such vast riches were at the start speculative. This is speculative. If this were not speculative—if oil were actually spouting from wells on this property today-you wouldn't have this opportunity-your money wouldn't be needed or accepted.

It has been proven, many times, where one has lost a few dollars in ce of these speculations that same person invested in another that made thousands.

Our chances for a big strike are as good as any and better than most. We all expect to strike it rich here. While there is every reason to believe your investment will yield enormous profits, we do not make any specific promises or guarantee to that effect, except we do guarantee every stockholder a good clean run for his money.

The men back of this enterprise are perfectly frank with you-not only because of the moral consideration but because they believe it pays. Already the wisdom of this course has been amply demonstrated.

MAP SHOWS LOCATION OF OUR PROPERTIES

MAP SHOWS LOCATION OF OUR PROPERTIES

This clear cut simple map shows the locality of the Great North Central Texas Oil area and the properties of the Buffalo-Texas Oil Company, a common law company that does business through a Board of Trustees elected by the shareholders. You will note by the square black blocks that we are located in known oil bearing centers—It's not acres you want but "locations."

Property "A"—Fisher County—317 acres northeast of Roby. Our leases here are well within the area of new wells and a gusher here would mean thousands perhaps millions to our stockholders.

Property "A"—Fisher County—3317 acres northeast of Roby. Our leases cres and two 30 acres each. Many experienced oil men and eminent geologists believe that the oil sands are directly connected with the immense producing ands of the wonderful Burkburnett and North West Burkburnett Extension pool districts, and predict that this is a continuation of one or both of these pools with enormous production.

Property "C"—Where We Are Now Drilling—25 acres in Wichita County,

pools with enormous production.

Property "C"—Where We Are Now Drilling—25 acres in Wichita County, south of the town of Electra 700 feet from Good wells. The world now knows of this county as being one of the Giant producing counties in which is situated the Burkburnett original development. Everybody interested in oil knows this district to be a phenomenal producer. Will you be one of those who will have a real interest in the way of money returns?

Note—You probably know the close proximity of these properties to the various locations where other wells are now drilling and many spouting oil—where hundreds of wells have been brought in including Gushers shooting up thousands of barrels a day (See press reports here quoted—You probably are hearing of these big giants that go over the derricks frequently now).

Struggle of Petroleum Giants for

the leadership manifested in im-

mense Operations in North Central

New York, Aug. 4.—The oil business is now leading in the investment and speculative field. Standard Oil of New Jersey will issue \$100,000,000 7 per cent, preferred stock; the new Transcontinental Oil is quoted about \$100,000,000; the Sinclair Oil corporations are planning to spend \$100,000,000; the Doheny oil interests are in the \$100,000,000 class and more than \$100,000,000 has been bid for Texas Pacific Coal & Oil Co.

Make Your Money Earn Money

The man who tells you it is unwise to put money in a savings bank to earn only 4 per cent is dead wrong—AND HE KNOWS IT TOO. It is the safest place in the world to put your money because you know where it is and can get it at any time. Nevertheless a man should speculate with some part of his savings or earnings and he must do this if he wants to make greater profits and more money with his money.

A man with a hundred thousand to a million dollars can afford to invest in four or five per cent interest bearing stocks and bonds—there is scarcely any risk in that plan, although they may decline in market value. He is satisfied with the income derived and usually doesn't have to worry very much—but he certainly didn't make his pile by saving small sums, which only earned small rates of interest.

The Men Behind

This Company.

You are invited to "look up" this Company through any channel you may choose. The officers and directors whose names follow, are all men of integrity and reliability. They are putting their own money; their time and faith in this enterprise with a determination to make it a bit success.

A Wonderful Chance To Win Big or Lose Little

So far you will admit this proposition is different from the usual stock offer. It is clean, legitimate, fair and square where all investors are treated alike-where we all win together-or, lose together-where there is a better than usual chance of making big money.

The Company's methods are open to the closest scrutiny. Its organization, its directors and officers may be thoroughly investigated. You may have whatever information you desire before you part with your \$10. After remitting you will be given ten days in which to make any inquiry you like. Then, if you are not fully satisfied you have invested your money wisely, you can have your money back by asking for it,

The men behind this Company have put their capital into this enterprise. They are risking thousands-You are asked to risk \$10.

Savings Multiply Through Investments

Mr. George M. Reynolds, president of Continental and Commercial Bank, Chicago, Continental and Commercial Bank, Chicago, says truly:

"Nobody can make a fortune by saving money from a salary or from wages. I think I have never accomplished anything big in my life that my friends have not urged me to take a different course."

We get a start by saving—but we can multiply our savings only through investments.

restments.

Fortune knocks once at everybody's door. Those who grasp the opportnuity when it is offered, prosper. Those who haven't the foresight and courage to act when Fortune comes knocking, are classed as "Failures."

A TYPICAL "TEXAS GUSHER"

Here Are A Few Vital Facts About This Wonderful Texas Oil Field

Texas, the World's Greatest Oil Pool.

Texas is today attracting the attention of oil men and investors in every part of the United States. Hundreds of wells are producing oil—hundreds more are being drilled. Every week new wells extend the proven fields. Every day new production is being brought in. Undreamed fortunes are being made.

Land that was worth \$1.25 an acre for grazing two years ago commands from \$1,000 to \$25,000 an acre.—(The Oil Detrick).—Denver, Colo.

Church Gets \$200,000 a Year From Oil Wells in Its Yard—Spurns \$1.000,000 for Cemetery.

Fort Worth, Texas.—The Merriman Baptist Church, in the town of Ranger, which already has acquired an income of \$200,000 a year, through oil wells sunk in its church yard has refused \$1,00,000 for the right to develop wells in the graveyard, which adjoins the

Texas Farmer Refuses \$5,000,000 For His Oil Interest in 400 Acres.

Graham, Texas .- 13,000-barrel gusher on land of J. T. Carey stuns him with sudden wealth; when completed the well looked good for 30 to 40 barrels, but when shot, a solid column of oil shot above the derrick. Carey's royalty amounts to \$3,000 a day. Leases in demand .- (Denver Financial Record.)

\$25,000 Per Acre is Reported Paid For Block 58 Lease.

(Special to the Star Telegram.)
Wichita Falls—A quarter of a million dollars is reported the price paid for a 10-acre tract out of block 58, Red River Valley Lands, between the Humble well, which is reported making 2,000 barrels daily, and the Hammond-Art well, now standardizing. The price per acre will approximate \$25,000.

10 Cents A Share Now and Money Back In 10 Days If You Want I

To enable the Company properly to finance drilling and to pay necessary overhead costs, this popular subscription plan has been adopted, and this most unusual offer is made to those who will act at once. If you will remit promptly you will pay but ten cents per share.

\$10 will buy 100 shares—now. Send your money any convenient way—money order, check, bank draft or currency by registered letter—then look up the Company or directors or property, and if not perfectly satisfied, ask return of your money within 10 days, and it will be forwarded to you at once.

Facts concerning this proposition have been told you in brief, without elaboration. What do you think about the prospects of making your \$10 in this venture grow many fold? As good as it looks, you have not been told anywhere near all the favorable things about this immense project.

If you want 100 shares at the ground floor price—fill out the Subscription Coupon (or send letter) without delay and send it with your \$10—before the price goes up.

Buy Now-After Drilling Proceeds Further You'll Have To Pay More for This Stock

Please Note—The time to Act if you act at all is At Once. We don't say this to hurry you—we simply state a Fact. The drilling is started—a short time now should strike the oil sands then your chance may be gone forever. Only enough subscriptions accepted to finance the work. Up to September 10th number of shares to one person not limited to 100 shares.

Courage, initiative, ability to see and grasp opportunities—that's what makes, your money make money for you. Make the most of your opportunities. This is within your reach, Decide now.

SUBSCRIPTION COUPON

Our leases are fully paid for and ample funds now in Texas banks for work in hand and our leases ofter choice locations for upwards of 60 wells. Our chances of striking a gusher are equal to any and better than most.

The Company's land shows all the surface indications of oil that these other fields ever had. Producing wells are being brought in nearer to our properties every day—wells are now drilling to the north, east and south of us.

Many new locations are being made near our leases—drilling rigs are being rapidly moved in and constructed to begin operations at once. The activity in this section is increasing daily and development is being rushed on a large scale. Any day word may reach us of the bringing in of these wells—a pusher—would mean thousands or perhaps millions of dollars in increased values of our leases and the stock of this Company.

These are some of the reasons—without going into geological or technical details—why the officers and directors of the Company have such faith in this property. Buffalo-Texas Oil Co., Dept. 23, 706 Brisbane Bidg., Buffalo, N. Y. (O. B.)
Gentlemen:—I enclose \$10 for 100 shares of Treasury stock (full paid and non-assessable) of your company. If I desire the return of my money within 10 days, you are to forward same to me upon request, without question.
