FORESIGHT IS RETTER

THAN HINDSIGHT.

Sensational developments in the MidContinent and Texas oil fields are causing intense excitement among small and
large investors, eager to profit by the
greatest oil boom that has ever been
witnessed in this country. While fortunes are being made daily in these
fields it is well to sound a warning of
the dangers of making unwise investments. Vain regrets will come unless
you keep posted. It is better to have a
little foresight now than hindsight later.
Each issue of the Oil Press is brimful
of late and authentic information of
stores of companies, some good, and
others questionable, that are selling
stock to the public. Analytic reports.
The latest issue may be had free, together with "The Market" containing
latest quotations for all listed and unlisted, active and inactive oil stocks.
Send for both issues now. Address Oil

Are you able to judge an extra good proposition when you see it? If you are and have \$10,000 or over, a well established manufacturing company can show you where its "trade mark" alone will be worth \$1,000,000 with three years of hustle and push besides the annual income. The high cost of living has created a demand for our goods. Every man, woman, child and baby is a user. The human race is the only limit to the field to be worked. We have the manufacturing facilities and material on hand for \$400,000 retail business. This proposition will stand the most rigid investigation. Can be handled by a silent or active partner. This is our harvest time and requires action, so do not answer this unless you have the money and mean business. Address box M-99, Bee.
