RECORD BROKEN FOR RECEIPTS AT STOCK YARDS

Big Drop in Price Follows Month of Unusually Heavy Receipts of Cattle and Hogs.

Monday of the last week broke the day record for receipts, and the total receipts of the week also established a new record. Monday and the week receipts of cattle were broken. Month and week receipts of sheep during August established a new mark and the yard record was approached.

Prices on all live stock fell off greatly during the week. Hogs closed \$3.35 lower at the end of the week, the biggest drop in the history of the yards. Fat lambs were \$2.50 under a week ago, and beef \$1@1.50 lower.

The new high mark for cattle receipts established this month is 181,548. The new week record is 61,000 head and the new Monday peak is 27,197 head. The record for the month is 24,000 above the yard record and for the week is 9,000 ahead. The single day mark was beaten by 2,000 head.

A Closed Car Just as Popular As the Touring Model You Know

Given the Essex Sedan

A car-loving public "found" the Essex touring car and quickly made it known in almost every town and hamlet.

The same thing is happening now to the Essex Sedan. Of course, there are good reasons for those expressions of real affection one hears of every day for the Essex. Time has revealed the fact that qualities which appeal are retained even after the hardest service.

Come and take a ride in this luxurious closed model people are talking about.

What They Say Is a Safe Guide The touring model is the introductory "brand" of Essex enjoying a distinctive career.

Now comes this closed model as a representative of our ideas in liveliness and luxury. People talk about both with equal pride. Be guided by what they say.

Notice how those beautiful square lines distinguish the Essex Sedan. Its exclusive finish gives it a select and popular ownership. Plenty of room inside those wide opening doors for such a small and handy car. Deft execution of ideas in upholstery art makes it cozy, too. The liberal allotment of spacious comfort would surprise you were you to take a ride.

Rich appearance stamps the Sedan as worthy of the road. It glides along smoothly as a model unit of compactness. Note yourself how it attracts attention on the highways. Hear what people are saying about its performance. Merits of the Sedan Should Please You Essex wide range of qualities brings out interesting discussions and comparisons. Owners boast of their good judgment in choosing the Essex because of the appreciable economic maintenance features in its favor. Moderate in first cost, there is in the Essex that exclusive degree of elegance which has given it prestige. Noticeable freedom from jolts over rough roads is due to the rigid Essex chassis and substantial assembly. Perfect acceleration gives the driver a winning confidence when desirous of heading heavy city motor traffic. Just you notice how the Essex takes the lead. It "gets away." Essex "grip" finds right-of-way anywhere. Another general comment about it is that it matches up with those expensive and powerful cars—the best on the road. It is making history in speed, hill-climbing and useful performances. It keeps on "speaking for itself" under all sorts of road conditions. Close to one thousand Sedans have been sold. There is a big demand. Orders are keeping far ahead of production, the factory tells us. It is advisable, therefore, to place your order without delay. GUY L.
