Have Seen Destruction.

They had seen their lands dev by an enemy that devoted not only to the effort of vicbut to the effort of terror, seeking to terrify the people whom they fought, and I wish to testify that they exercised restraint in the terms of this treaty. They did not wish to overwhelm any great nation and they had no purpose in overwhelming the German people, but hey did think that it ought to be burned into the consciousness of men forever that no people ought to permit its government to do what the German government did.

"In the last analysis, my fellow would be the first to claim a people are responsible for the acts of their government, if their government purposes things that are wrong, they ought to take measures and see to it that that purpose is not

Austria Admits Crime. "When the Austrian delegates

came before the peace conference, they, in so many words, spoke of the origination of the war as a crime, and admitted in our pres ence that it was a thing intolerable o contemplate. They knew in their hearts that it had done them the deepest conceivable wrong; that it had put their people and the people of Germany at the judgment seat of mankind and throughout this treaty every term that was applied to Germany was meant, not to humiliate Germany, but to rectify the wrong that she had done. And if you wil look even into the severe terms of reparation, for there was no indemnity-no indemnity of any sort was claimed-merely reparation, merely paying for the destruction done, merely making good the merely making good the losses, so far as the losses could be made good which she had unjustly inflicted, not upon the governments-for the reparation is not to go to the governments-but upon the people whose rights she had trodden upon with

League Will Save World.

"The league of nations is the only thing that can prevent the recur rence of this dreadful catastrophe and redeem our promises. And the character of the league is based upon the experience of this very

war.
"I did not meet a single public man who did not admit these things, that Germany would not have gone into hind this war if it had thought Great Britain was going into it, and that it most certainly would never hav gone into this war if it had dreamed America was going into it, and they have all admitted that a notice be forehand that the greatest powers of the world would combine to pre-vent this sort of thing it would have prevented it absolutely.

"Now, look, what else is in the treaty. This treaty is unique in the history of mankind because the center of it is the redemption of weak nations. There never was a congress of nations before that would reach some other age-long considered the rights of those who could not enforce their rights.

"There never was a congress of nations before that did not seek to effect some balance of power rought about by means of serving the strength and interest of the strongest powers concerned, whereas this treaty builds up nations that never could have won their freedom in any other way. It builds them up by gift, by largess, not by obligation; builds them up because of the conviction of the men who wrote the treaty that the rights of people transcend the rights of governments, because of the conviction of the men who wrote that treaty that the fertile source of war is wrong; that the Austro-Hungarian empire, for example, was held together by military force and consisted of peoples who did not want to live together; who did not have the spirit of nationality as towards each other;

who were constantly chafing at the conds that held them. "Hungary, though a willing partner of Austria, was willing to be its partner because it could share Austria's strength for accomplishing its own ambitions, and its own ambitions were to hold under the Jugo-
