**Fifty-six Persons Arrested In  
Two Days—Many Held  
In Raids On  
Houses.**

Thirty-five arrests Sunday and 21 Saturday, caused a deluge of cases at the South Side police court Monday. Three alleged disorderly houses were raided and 31 inmates and owners arrested. Ten men charge with intoxication helped swell the total.

**Stock Yards Men  
Demand Raises From  
\$1 to \$1.50 an Hour**

Chicago, Sept. 8.—Representatives of 10 unions of stock yards employes today submitted to Federal Judge Samuel Aischuler, arbitrator, demands for wage increases ranging from 25 to 50 per cent over the scale awarded February 15, 1919.

A summary of the demands are: An increase of 20 cents an hour for employes who received 40 cents an hour or less prior to the award of February 15, 1919; 25 cents an hour for employes who received between 40 and 50 cents an hour prior to the award of February 15, 1919; 20 cents an hour for employes who received over 50 cents an hour prior to the award of February 15, 1919; an eight-hour day and a six-day week for special policemen and watchmen; double pay for overtime; and wage increases to be retroactive from July 14, 1919.

The wage increases demanded apply to every class of labor employed by the packers. Under the proposed scale hammersmiths would receive \$1.50 an hour, blacksmiths, \$1.15 an hour, electricians \$1 an hour. The scale demanded by butchers and some other classes of skilled labor amounts to \$1 an hour.

Judge Aischuler, who has heard a number of witnesses on the proposed increases, took the demands under advisement.

### FARMER PRAISED BY M'KELVIE IN CHICAGO SPEECH

**Calls Him Keystone to Arch in  
Solution of Economic and  
Industrial Troubles.**

Chicago, Sept. 8.—The farmer is the keystone to the arch in the solution of the economic and industrial troubles in which the nation is now involved, declared Samuel R. McKelvie, governor of Nebraska, Monday, before the "Our Country First" conference composed of representatives of business, manufacturing, financial and farm organizations for more than thirty states, which met to consider remedial legislation for present day troubles.

"He can and will furnish the basis for a proper readjustment of these troubles if he is given only half a chance to do so," said Governor McKelvie. "The farmer produces the essential commodities of life. If he can produce these economically then all the other industries and labor will feel the benefits of his work, but if he is obliged to carry on his operations under pressure of constantly increasing costs of labor and materials then it becomes impossible for him to produce at prices that will lay the foundation for satisfactory settlement."

Governor McKelvie, who said he came to the conference to represent the farmer, congratulated the delegates on taking the farmer into their meetings.

"The farmer," he said, "never engaged in strikes or lockouts; was a very substantial citizen, and usually thought clearly."
