THE BEE: OMAHA, THURSDAY, SEPTEMBER 11, 1919.

Boston, Sept. 10 .- Women who have been boycotting stores because of alleged profiteering crowded Dorchester court at the trial of three of their number for blocking sidewalks while picketing. Mrs. Ida Patlock, 28; Mrs. Theresa Snyder, 24, and Mrs. Ida Dunkalls, 40, were arraigned. Mrs. Patlock and Mrs. Snyder were found not guilty and the case of Mrs. Dunkalls was dismissed without trial. The women and their friends testified that the pickets kept moving at all times.

Nothing Like Plain Bitro-Pho Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Ferce.

NERVOUS, TRY

PHOSPHATE

IF THIN AND

The communication also stated When one stops to consider the hos of thin people who are searching continually for some method by which may increase their flesh to normal portions by the filling out of usly hollows, the rounding off of protrucing angles with the attendant bloom of health and attractiveness, it is no wonder that many and varied suggestions along this line appear from time to time in public

print

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of sufficient phosphorous in the human system is very largely responsible for this condition. Experiments on humans and animals by many scientists have demonstrated beyond question of doubt that a body deficient in phosphorous becomes nervous, sickly and thin. A noted author and professor in his book, "Chemistry and Food Nutrition," published in 1918, says: ". . that the amount of phosphorous required for the normal nutrition of man is seriously underestimated in many of our standard text books."

Steel Workers to Call Strike September 22

girl, who was once is Bitro-Phosphate

It seems to be well established that this deficiency in phosphorous may now be met by the use of an organic phos-phate known throughout English speak-ing countries as Bitro-Phosphate. Through the assimilation of this phosphate by the nerve tissue the phosphore content when absorbed in the amount normally required by nature soon produces a wel-come change in our body and mind. Nerve tension disappears, vigor and strength re-place weakness and lack of energy, and the whole body soon loses its ugly hol-lows and abrupt angles, becoming en-veloped in a glow of perfect health and heauty and the will and strength to be up and doing.

Physicians are now recognising its merits by its use in ever increasing quantities. Frederick Kolle, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be pre-scribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood." Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensatory, says: "Let those who are weak, thin, nervous, anaemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

mind and power of endurance." Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensatory as being a preparation which has recently acquired considerable reputations in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in atrice accordance with the U.S. Pharma-coposis test requirements. Bitro-Phos-phate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION ---- While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should ma extra care in avoiding fat-producing foods.

MEXICAN PLANT MAY CONQUER **BRIGHT'S DISEASE**

New York.—Physicians who have tested the sap of the Mexican maguey plant in the treatment of diseases of the kidneys believe that an important discovery has been made. Writing in La Escuela de Medicina, the leading Mexican medicine journal, the editor says: "It is the only substance known up to the present time, in the whole world, having the power to radically and permanently overcome Bright's Disease."

Reports of définite results in a large number of chronic and long standing cases of kidney trouble created a persistent de-mand for this sap, which is popularly known under the name of AGMEL, and considerable quantities are being imported into the United States.

The Arrow Chemical Co., 2531 Union Square. New York City, will mail to those interested a free descriptive booklet; or upon receipt of \$3.00 -a full sized bottle of AGMEL, containing 336 cubic centi-meters of pure concentrated sap, will be sent to any address in the U. S. A. or Canada, all charges prepaid.
