# JAPAN AGITATED Omahan, First Yank AT STAND OF THE U.S.ON SHANTUNG

See Connection Between Pasific Fleet and Shantung Discussion—People Confident of Future Greatness.

By the Associated Press.

Tokio, Sept. 11 .- Developments in relation to the Shantung question form the supreme subject of discussion here. The general attitude of the Japanese is to calmly await the final action by the United

Some of the members of the Diet are reported to be addressing anxious inquiries to the government regarding the situation. They ask whether the United States is likely to enforce by arms a possible new treaty, with Germany returning Shantung directly to China.

Those who have addressed the inquiries to the government are said to be profoundly impressed by the assignment of half the United States navy to the Pacific and to be inclined to establish a connection between the coming of the fleet and the Shantung decision.

Interests Expand in Asia. The end of the war finds the Japanese striving with traditional unity to expand the nation's interests in Asia. Premier Hara, speaking yesterday at a luncheon in

of former Premier Saionji.

head of the Japanese peace delegation at Paris, said: "Japan's prestige has been greatly enhanced by the peace conference. The nation should realize and be thankful for the fact that all Japan's proposals were favorably received with the exception of the one re-

lating to racial equality." A wave of elation and confidence Japan's future greatness seems to be sweeping the empire. In a re-cent address Ikuso Ooka, president of the house of representatives,

"World leadership is now in America, but it is bound later to be transferred to Japan." Urges Country to Slow Up.

Replying to M. Ooka's speech, Takeshi Inukai, leader of the Kokuminto party, addressing his followers, demanded a slowing up of Japan's advance on the ground that it is "not strong enough at present to successfully combat western powers in any sense.

far as Shantung is concerned officials take the view that they have "gone the limit in magnanimand whatever happens will "steadfastly adhere to the program of restoration of the province to China." Pressed for an estimate as to the time that will be required for this restoration, officials have said to the correspondent:

May Return Shantung.

"If China will take the discussion in a fair spirit restoration can probably be accomplished in a few months. Japan would want arrangements for an international settlement providing for joint operation of the Shantung railway with Japanese instructors for the Chinese railroad and agreement concerning Shantung enterprises in which the Japanese have already-invested capi-

They have added that no demands will be submitted to China as a condition to restoration. "How can we fix the exact date

for restoration?" said one official, when we do not know whether China will talk with us nor how long they will require to reach an accord on matters relative to which we have made so many concessions?"

### United Mine Workers Against One Big Union trade mark of Bayer Manufacture

Cleveland, O., Sept. 11 .- The convention of the United Mine Workers of America went on record Thursday against "the one big union," I. W. W. and kindred movements, indorsing President Lewis sharp condemnation of these radical tendencies. The question came up during the consideration of the report of President Lewis. A committee recommendation approving the action of the international executive in revoking the charter of the West Canadian miners for joining the "one big union" organized at Winnipeg this summer, was adopted made by mixing some water with a with only one dissenting vote. It was stated that 95 per cent of the seceders were now back in the and after about 2 minutes rubbed miners' organization.
