

"DAIL EIREANN" SUPPRESSED BY GREAT BRITAIN

Raids in Principal Cities Disclose Explosives — Copies of Documents Are Confiscated.

Dublin, Sept. 12.—(By The Associated Press.)—Following closely upon a speech delivered by Viscount French, lord lieutenant and governor general of Ireland at Belfast Thursday, in which it was declared that the British government would not hesitate to resort to drastic steps to maintain law and order in Ireland, the authorities today proclaimed the suppression of the Sinn Fein organizations throughout Ireland.

A series of raids and searches for arms and documents were made in the local Sinn Fein headquarters in numerous towns in addition to Dublin, among them Cork, Belfast, Galway and Londonderry. Two prominent Sinn Fein members of the house of commons were arrested here and the residence of many persons of Sinn Fein leanings in Dublin and other places were searched.

There were slight disorders in a few places, but no reports of a serious resistance to the raiders have been received. A detective was shot and killed in Dublin.

In the raids some arms and explosives were found. Large quantities of documents and Sinn Fein literature were seized, notably in Dublin, where every copy of the report of Frank P. Walsh and Edward F. Dunne, who investigated conditions in Ireland on behalf of American Irish societies, and correspondence relating to arranging trade relations between Ireland, the United States and the other foreign countries fell into the hands of the authorities. The belief was expressed in Sinn Fein quarters here tonight that nothing of incriminating nature was found.

The two other papers had insisted the demands be arbitrated under the rules of the International Typographical union.

ALLIES DECIDE AGAINST TRIAL FOR EX-KAISER

Allied Powers Are Told There Is No Law for Proceeding—Wilhelm Gets a "Tip."

By KARL H. VON WIEGAND, Universal Service Staff Correspondent, Special Cable Dispatch.

Berlin, Sept. 12.—"The kaiser will not be tried."

Such is the conviction in well-informed circles here. It is based upon confidential reports from The Hague.

Count Hohenzollern, it is known, sent word recently to friends here to discontinue all agitation on his behalf at once, as it would only serve to embarrass him and keep the subject alive when there is a manifest tendency to let the matter die in view of the uncompromising attitude taken by Holland against giving up the former emperor.

Friends hitherto in close touch with Wilhelm and still informed about "inside doings" say the ex-kaiser has been privately informed by authentic allied sources in position to know the trend of the official mind in Paris and London, that he is not to be placed on trial—that the worst he need expect is a formal request to Holland to deliver him to the allies, which Holland would refuse. Indeed, it is doubtful if the allies will even go so far. The allied and associated powers are said to be now agreeing that there is no basis in international law for such proceedings. It was after that assurance that the ex-kaiser purchased the new home in Holland.

Coincident with the time this wish was expressed here, all agitation against the ex-kaiser's trial ceased abruptly in Germany. Ex-Crown Princess Cecile, together with her two oldest sons, is now with her husband at Wieringen. There being no room for the boys to sleep in the small house occupied by the former heir to the throne they are staying at the home of the burgomaster, Mr. Pierboom.

New and Colorful Blouses

- The Georgette blouses now on display have a charming originality of design and color scheme in addition to their perfection of workmanship. Variations in neck-lines and sleeves (kimono sleeves are evident in quite a few) and intricacies of embroidery, braid and beads give the distinction which the better blouse should possess.
- A very low U-shaped neck-line, outlined by a narrow roll collar is filled in with bisque Georgette and is the most striking feature of a Copenhagen blouse that arrived not long ago. This bisque colored vest effect has a small embroidery motif in the center in a rich combination of mahogany, green, rose, gray, gold and blue which is surrounded by fine traceries of gold threads. And to make it doubly attractive a loose boxed effect at the waistline has been achieved by extending the wide hem into short panels on either side which hang loosely. The sleeves are kimono and three-quarter length, completing a blouse which is unusual even to the smallest detail and is priced only \$25.
- There are others, variously priced, which may be more suited to your individual needs—but whether it be tailored or elaborately trimmed the blouse selected here will not be commonplace in any way.
