## Louise Dinning to Head Drive for Salvation Army

Miss Louise Dinning, one of Omaha's most beautiful and charming girls and a returned war nurse, has volunteered to head the Salvation Army home service fund in Omaha. Miss Dinning gave valiant service in the hospitals in France and also in Belgium, where she worked within range of the huge guns and where air raids were a nightly occurrence. Her work for war enterprises is not yet completed, for almost immediately upon her return from the east Miss Dinning called on the Salvation Army service fund headquarters and said: "I want to help you for in my past two years of overseas service I saw so much of the work of the Salvation Army that I feel I must do something to help you here. Why I've been in the hospitals day after day and always there ready to help to serve was a Salvation Army lassie. They came with note books in their hands and made memoranda of the wants of our boys, and they saw that every want was filled. The best of all was it was all free. Along with the giving was a smile, a look of home happiness and love in the face of the giver that reached the heart of the poor lad in the hospital. It can only be understood when seen." Miss Dinning's offer was accepted and she will act as organizer of the women's branch of the Salvation Army service fund. A number of prominent Omaha society and club women have volunteered to serve in this work. There will be splendid opportunities in church, club and booth work to assist. A luncheon will be given at one of Omaha's prominent clubs within a few days. All members of the committee and workers will be asked to attend. Plans will be made and all details of the work arranged.

She is a member of the Kappa Alpha Theta sorority. Mr. Loomis belongs to the Beta Theta Pi fraternity and was overseas nine months with Base Hospital 49. Mr. Loomis and his bride will make their home in Omaha.

## War Camp

By A WAR CAMPER.

The Friendly Visitor was thinking. She had just returned from a visit to her friends on South Sixth street. The "Little Tin God" who had attached himself to her early in her visiting career, was perched on the arm of her chair, and for some unknown reason he was just a wee bit more thoughtful than usual. The Friendly Visitor and her cynical companion reviewed the afternoon together.

The moment the Friendly Visitor stepped from the street car she was surrounded by an eagerly and excitedly talking group of children, every one of whom clamored for her attention at once.

"Come on to my house! Come on!"

"No, you ain't a teacher, are you? You are just a lady."

"How do you know I am not a teacher, kiddie?"

"Aw, teachers don't come here; they only teach in school. I know, 'cause I am in grade 2-A."

"Gee, we gotta go back Monday, too, and I don't want-a, neither."

"Oh, hullo"—followed by a volley of Italian, not one word of which was intelligible to the Friendly Visitor. However, the universal languages that use the eyes and signs as a medium for speech are readily understood—so by seeing the combination of the two, the Friendly Visitor and her friend conversed with ease.

Yes, yes, indeed, she would be glad to go to the school (here eyes said it in capitals). Please, have it in her house, so she would not have to leave the two babies.

So the five friends who wanted to increase their strength, power and endurance were called from their various occupations to learn that the school would really begin the very next week.

You may be sure that the chorus of children was by no means silent—far from it. Above the vigorous babble of Italian and English, came a child's voice:

"You nice, fina lady. You my lady, kiss you, please."

The astounded, Friendly Visitor knew not what to do! Why be kissed anyway? Such things are not permitted in her life. But the little chap persisted so the Friendly Visitor bent her head and received a sticky kiss.

"May I use your house for the school?" asked the Friendly Visitor of a shy little woman.

"You betcha," responded the woman with an unmistakable flash of pride in her eyes as she displayed her knowledge of English.

Yes, her knowledge of English! Funny? Not one little bit of it—it is far more pathetic to think that any city would allow her residence to live in ignorance of her language! It is not only pathetic—it is shameful!

As the Friendly Visitor was boarding the car with a little feeling of satisfaction because she found all the women so eager and so responsive (you know, people had told her that the women were not eager to learn), and because five classes were ready to begin actual work! Suddenly her peace of mind was disturbed by "Her Boy's" voice was heard in a pitiful wail.

"Kiss me again, lady—once more, please, kiss me again."

So with the conductor and car passengers looking on, the highly embarrassed and much disturbed Friendly Visitor bent for another more sticky kiss.

"Gee, the kissing bug!"

"Come tomorrow, my girl," was the last thing she heard as the car lurched on.

## Are Weak Nerves and Lack of Physical Strength Holding You Back In Life?

You Must Have Plenty of Iron in Your Blood if You Want the Power and Energy to Win, Says Physician.

When the crushing grip of worry, trials and care saps your vitality and keeps you from the full enjoyment of home, social and business life take Nuxated Iron and watch its strength giving, up building effect—it will increase the strength and endurance of weak, run-down folks in two weeks' time in many instances.

**T**HOUSANDS are held back in life for want of sufficient iron in the blood.

says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out-door Dept.), New York and the Westchester County Hospital, in commenting on the relation of strong nerves and physical endurance to the attainment of success and power.

"A weak body means a weakened brain; weak nerves mean weak endurance, and like the race horse beaten by a nose, many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood."

In regard to the value of Nuxated Iron, former Health Commissioner of Chicago, William R. Kerr, said: "From my own experience with Nuxated Iron I feel that it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country, and if my endorsement shall induce anaemic, nervous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it."

Dr. Schuyler C. Jacques, formerly Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most striking results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

No matter what other tonics or iron remedies you have used without success—if you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

Manufacturers' Note: Nuxated Iron, which is prescribed and recommended by physicians and which is now being used by over three million people annually, is not a secret remedy but one which is well known to druggists everywhere. Unlike other iron products it is easily assimilated and does not irritate the bowels, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. ## After Eating Play Safe

It is a Wise Precaution to Take a Stuart's Dyspepsia Tablet After Eating to Avoid Gas, Sour Rinsing, Heartburns, and the Lazy, Lopy Feeling So Apt to Follow.

The range of food is so great, its preparation varies so widely, that few stomachs are strong enough to grapple with all conditions of restaurants, hotels, clubs, depots and banquets. The safe plan is to be provided with Stuart's Dyspepsia Tablets, that you may eat rich and palatable food served or selected and not be troubled with gas, sour risings or such forms of indigestion. These tablets digest food, they assist the stomach secretions and for this reason people who travel away from home and must eat as it is served may play safe by taking one or two Stuart's Dyspepsia Tablets after each meal.

You can get these tablets in any drug store anywhere in the United States or Canada, which shows in what general favor they are among those who have learned how to enjoy their meals.—Adv.
