BONDING FIRMS REFUSE TO BACK POLICE OFFICERS

Various Actions Brought Against Policemen In Courts Cause Bondsmen to Become Wary.

Surety bonding companies are refusing to write bonds for policemen, on account of being required to defend them in suits brought by citizens.

Various actions brought against policemen recently have caused the bonding companies to be wary. They are finding that this business is not profitable.

"A policeman appointed within the last few weeks told me Friday that a surety company refused to write a bond for him," stated City Attorney Weaver. "The annual premium is only \$5 and the city council has refused to defend policemen against whom charges are brought. During the summer two policemen asked the council to direct the city legal department to defend them, and the council refused. Evidently the surety companies are finding that the bonding of policemen is not a desirable business."

Practice for Years. It has been the practice for years for surety companies to write bonds for policemen, and there has been competition for the business. The policemen have paid \$5 a year each for their bonds.

A few weeks ago B. S. Baker, for the policemen, filed a claim with the council for more than \$8,000 on the grounds that the city should have paid for these bonds. The council rejected the claim. The city attorney has examined the statutes and holds that personal bonds offered by policemen may be accepted by the city.

Special Provision Made. One section of the statutes reads that all officers shall furnish surety bonds and that the city shall pay the premiums. The city attorney finds a special statutory provision which he contends authorizes personal bonds for policemen.

The new policeman who was refused a surety bond by a local company this week has offered Mr. Weaver a personal bond for approval.

Practical Joker Fills Man's Clothes With Straw and Shoots It 100 Feet Into the Air by Big Yellowstone Park Geyser.

Yellowstone, Mont., Sept. 13.—Someone placed a dummy in the mouth of Old Faithful geyser in Yellowstone park and gave tourists the thrill of their fashionable lives when the lifelike figure was shot 100 feet in the air a few nights ago.

Here is the picture of Miss Ruth Spence of Madison, Neb., well known in Omaha. It was snapped as she was investigating the crater of the giant geyser.

Not that there is the slightest connection between the two paragraphs—However—When Old Faithful plays at night, it is illuminated by the rays of a big searchlight mounted on the Inn and makes a most wonderful sight drawing hundreds of tourists to watch it.

On the fateful night, when the huge column of boiling water spouted a human figure could be seen in the searchlight's glare, shot heavenward on its crest. Then the light went out.

The tourists stood rooted to the spot fascinated with horror. When Old Faithful subsided they rushed forward with searchlights to rescue the unfortunate victim, only to find a drenched pile of straw-filled clothes.

Who did it? That's the mystery of Yellowstone. And Miss Spence, who explored the National park with several college girl pals can shed no light on it.

Two Men Charge Each Other With Assault Upon 15-Year-Old Girl

Following efforts of the father of 15-year-old Carmelo Narcissi, 1937 South Twelfth street, and her possessed lover, Frank Centimore, 1306 South Sixth street, to have each other arrested for assault upon the girl, warrants for their arrest are being held up pending a thorough investigation by Deputy County Attorney Beal.

Yesterday police arrested the girl for incorrigibility, and her father, Alfio Narcissi, for investigation, in connection with the affair.

According to a report made to Chief of Detectives Dunn about the case, the father and relatives of the girl sought to have Centimore arrested for assault. Centimore heard of the action of the girl's relatives Friday night, the report states, and came to the police station himself to swear out a warrant against the father charging a similar offense.

Municipal "Jitney" Ice Stations Closed Because of Shortage

None of the municipal "jitney" ice stations were opened yesterday on account of the shortage of ice at the plant, Twentieth street and Poppleton avenue, having been exhausted. The usual Saturday morning crowd of boys with their wagons went to the stations early today and were told that the stations would not open.

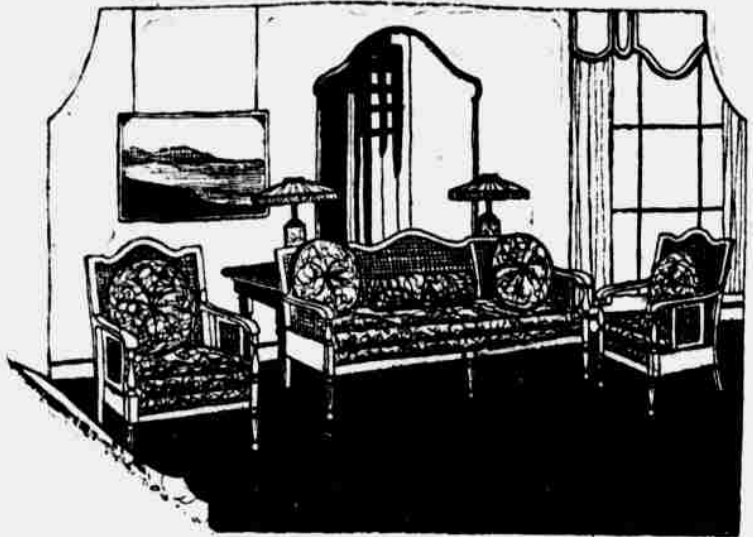

"Our storage of 8,500 tons with which we started the summer season has been entirely sold," explained W. J. Barber, superintendent of the municipal ice plant. "We are manufacturing about 85 tons per day now at the plant, and it is our plan to reopen the ice stations if we can get enough ice ahead to warrant it. We are still selling ice at the plant. The unusually hot weather this week caused a big demand for ice."

The Metropolitan Water board will erect an ice storage house this fall at Florence, for the storing of 8,500 tons of natural ice from the water basins of Minne Lusa water station.

50,000 Dealers Sell Goodrich Tires

The Army of Goodrich Dealers, ready to furnish the User with Goodrich Tires wherever he is, or wherever he goes, means many significant things to him—above other things, a wide-spread, popular approval of Goodrich Tires.

But first it means that 50,000 dealers, more than half in the country, have confidence in Goodrich and Goodrich Tires; that 50,000 men whose business it is to know tires, believe in the skill and sincerity of Goodrich tire making, and the certainty of Goodrich tires making good in actual road performance.

A dealer knows he can sell any tire once. But he also knows he must—to succeed—have tires, like Goodrich, which resell themselves on service delivered to the user.

Furthermore, the Dealer like the User, is safeguarded by the frank open-handed certification of Goodrich's More-Mileage Adjustment—6,000 Miles for Fabric Tires—8,000 miles for Silvertown Cords.

The Goodrich Certification measures out—as everything else you buy is measured out—the minimum you, with proper usage, get from Goodrich Tires

Finally, 50,000 Dealers enlisted to furnish America with Goodrich Tires because they were first to know what the whole motoring world now knows and says, "Goodrich has THE TIRE."
