WHY TAKE CHANCES?

Would you loan money to a total stranger? Then why accept the alluring statements of promoters selling oil stocks, before thoroughly investigating their claims? Holders of oil stock will make millions of dollars in profits. There will also be millions of dollars lost. But why not protect yourself from loss by keeping posted as to what is actually being done by scores of oil companies operating in the great midcontinent and Texas oil fields. Profit by this information. Read the OIL PRESS. Every issue brimful of valuable data and authentic information and analytical reports concerning hundreds of different companies selling stock to the public, their prospects, etc. The knowledge obtained by reading a single issue may make you con-

Are you able to judge an extra good proposition when you see it? If you are and have \$10,000 or over, a well established manufacturing company can show you where its "trade mark" alone will be worth \$1,000,000 with three years of hustle and push besides the annual income. The high cost of living has created a demand for our goods. Every man, woman, child and baby is a user. The human race is the only limit to the field to be worked. We have the manufacturing facilities and material on hand for \$400,000 retail business. This proposition will stand the most rigid investigation. Can be handled by a silent or active partner. This is our harvest time and requires action, so do not answer this unless you have the money and mean business. Address box M-99. Bee.
