

ANNUNZIO IS GIVEN 24 HOURS TO LEAVE FIUME

Ultimatum to Be Sent by Allied Powers; Food Supply to Last Three Months.

Paris, Sept. 20.—Capt. Gabriele d'Annunzio may be given 24 hours to move his forces out of Fiume, upon which city a squadron of allied warships have turned their guns, according to advices received here by way of Berlin, Laiback and Vienna.

The ultimatum will come from the allied powers, representatives of which are reported to have conferred at Abazia, about two miles northwest of Fiume, to which place they retired when Captain d'Annunzio entered the latter city.

Situation Complicated. In peace conference circles it is intimated that the settlement of the question of the disposition of Fiume has been complicated by the d'Annunzio coup, but Italian delegates insist a decision is being delayed because of the fact that President Wilson has not answered definite proposals made by Italy's representatives here.

Advices from Rome says the duke of Aosta, a close friend of Captain d'Annunzio, has conferred with King Victor Emmanuel and Premier Nitti, and it is suggested he may act as mediator in an effort to bring about an abandonment of Fiume by the d'Annunzio forces.

Fiume Blockaded. Fiume is closely blockaded by land and sea, but there are stores in the city sufficient to maintain the people and troops for three months.

Local Business Man One of the Many Victims of Profiteering Landlords—Turned Down Everywhere.

H. S. Kamen, local business man identified with the Omaha Chamber of Commerce through the manufacturing industry of which he is the head, and one of a multitude of victims here of profiteering landlords, has offered to pay \$75 a month for an apartment, furnished or unfurnished, in any first-class apartment house in the city.

"No Children," They Say. "We will have no children in our apartments," is the reply which has met his application at nearly all of the first class apartment houses in the city.

CARSON CANNOT UNRAVEL IRISH PLAN OF WILSON

Reluctant to Criticize President, Says Ulster Leader in Statement.

London, Sept. 20.—President Wilson's attitude regarding the self-determination of Ireland has attracted the attention of Sir Edward Carson, the Ulster leader, who in a statement today declared: "As one anxious to see the league of nations founded to protect the world against the horrors of war, I do not desire to raise difficulties or anticipate decisions on questions which must arise in the gradual development of a sound system of jurisprudence under the covenant."

"Indeed, I find it difficult to understand from the answer given what state of facts with relation to Ireland the president contemplated, which entitles any of the contracting parties to raise this question under section 11 of the covenant dealing with peace safeguards. Persons anxious for its success are chosen at the start to administer and evolve its constitution."

In reply to the question as to his attitude toward self-determination for Ireland President Wilson said: "My position on the subject of self-determination for Ireland is expressed in article 11 of the covenant, which I may say I was particularly interested, because it seemed to me necessary for the peace and freedom of the world that a forum should be created to which all peoples could bring any matter which was likely to affect the peace and freedom of the world."

A Complete Electric Laundry Plant

It is the greatest development that has yet been made in the building of washing machines—a washer that not only washes and wrings the clothes, but also relieves you of all work of lifting water or tilting tubs.

The Voss Triple-Tub Washer Is Self-Draining

All three tubs drain through a common drain, carrying the water direct to the floor drain. The housewife who is fortunate enough to possess one of these most complete outfits is to be envied.

The Voss Double Wringer control allows the operator to control the speed and movement of the wringer by foot pressure, leaving both hands free to arrange clothes for the wringer—a guarantee against broken or torn off buttons.
