RAISING YOUNG WILD DUCKS AND PHEASANTS IN ENGLAND FOR FALL SHOOTING

(Photographs Copyrighted by Boston Photo News Co. from Newspaper Illustrations, Ltd.)

Taking home the morning's find of pheasant eggs. The basket contains about two hundred.

A shooting estate in the off season is oftentimes quite as interesting as when the guns are at work. A walk around this estate with the camera disclosed one or two incidents, common enough in themselves, showing what is done towards the provision of sport for the gunners in the Autumn.

Feeding a brood of young wild ducks

In the pheasants' aviary.
