Know.

Washington, Sept. 27.-(Special Telegram.)-"My brain simply reels with all this talk about Japan and China and the league of nations," pouts dainty Miss America, as she presses her hands to her head, where her rebellious tresses would be falling down were it not for a net of human hair-from Shantung.

"Came down here to get away from this talk about the peace treaty; China's a long way off any-way," growls Mr. Business Man as he strolls along the beach, in a pon-gee suit—from Shantung. With this introduction the Na-

ional Geographic society issues ulletin concerning the industries of Shantung, which range from making hair nets to building railways, quoting from a communication to the Society by Maynard Owen Williams as follows:

Roadsters and Nets.

"When the speedy roadster made hair nets a necessity the hunger pressure in a remote province of 30, 000,000 relented a little.

The almost invisible net serves fashion to preserve for another hour the loveliness of a moment. But the making of hair nets enables whole villages of wrinkled old women of Shantung to put a little more food into ever-hungry stomachs.

"When the American male emerg-ed from the woolen of former con-vention and donned the dapper suit of cool pongee all the silkworms in ot cool pongee all the slikworms in Shantung had to work overtime, and their masters added a strip of pork to the family dish. A pongee-clad crowd at Bar Harbor means a bet-ter-fed population in Weihaiwei. All From Shantung.

An American woman wears some Chefoo lace, and, thanks to her and the purchases of her friends, al-mond-eyed girls are being trained in mission schools 8,000 miles away.

"The doughboy back from the war is also a booster for Shantung, hough perhaps he doesn't know it. As he tells of the ever-smiling Chinese whom he saw making roads in France, he testifies to the fine qualities of some of the world's est laborers.

"The Shantung coolie did his fair share of war work. A hundred and fifty thousand of him went out to better living conditions and a wider outlook when the British troopships steamed away from his peninsular home. Hundreds of him dropped shovel and seized gun or fought with clubs and axes when the breach at Chateau-Thierry yawned. Back With Wonder Teles.

Japanese Expect to Use 1,000,000 Bales of Cotton This Year

Galveston, Sept. 27.—(Special.)— Japan will use 1,000,000 bales of American cotton this year and oriental shippers will route as much of this as possible through the port of Galveston, according to K. Fujita, resident of the Texas Gosho company, who was here recently in company with H. Kita, a director of the parent company in Japan. Difficulty in making financial ar-

rangements for Indian and Chinese cotton increases the amount of the staple which Japan must secure from America, Mr. Fujita said, Japs Make Complaint.

Japanese shippers are dissatisfied with the manner in which cotton is handled through the Pacific coast ports, according to Mr. Fujita, espe-cially chrough delays in booking and lack of facilities. Last year, he said, the Gosho company routed 4,000 bales through Galveston and was well satisfied with the promptness and facility with which the ship-ments were dispatched.

"The United States shipping board," said Mr. Fujita, "is willing to furnish bottoms for cotton to the orient, and probably will do so, but chippers are unable to do business with the board while it asks a rate of \$2 on high density cotton from Gal-veston. I believe some of the ship-ping to Japan during this season will be carried in British bottoms. In addition, Japanese shipping companies are planning to put three c four steamers into the Galveston service. "In the past years, Japan normally used about 500,000 bales of Amer-"When China wants railways ican cotton annually. Last year the quantity was increased to 750,000 bales and this year, I believe, will teach 1,000,000. The Chinese and Indian cotton is inferior to the American staple and Japanese mills are demanding not only a better, but a longer, grade of cotton." The Gosho company has just installed a compress and concentration plant at Galveston.

Shantung Coolies Everywhere. "In summer the Shantung coolie is north along the Amur mining

gold or harvesting soy beans in Manchuria. I have seen him carrying Harbin flour aboard the Sungari steamers, and he laid hundreds of miles of ties on the Trans-Siberian. I have seen him juggling gaily-painted sticks at the Nijni Novgorod fair, and companies of Shantung coolies fought for the bolsheviks beside the Kremlin and against them near Tchita. In ruined Van a Shantung coolie, heavily dressed against the bitter cold of the Armenian plateau, rolled into town ahead of 20 of his compatriots who

brought flour to that starving city. "Soon the Japanese will be laying the rails for their new railway con-cession from Kaomi, near Tsing-tau, to Hauchowfu, whence a Trans-Asiatic trunk line, which will be to the Trans-Siberian what the Union Pacific is to the Canadian Pacific, is some day to link Lanchow and Kashgar with Peking and Russian Turkestan. Another Japanese line vill run from Tsinan to cut the will run from Isman to cut the Pcking-Canton line at Shuntehfu. "In building these railways the Shantung coolie will have his right-ful place, and skill gained in France will stand him in good stead in link-ing his home province to the cap-itals of Eurasia from Madrid to Tsinan"

Pocket Razor Strop Saves a Soldier's Life

Casper, Wyo., Sept. 27 .- A small pocket razor strop is the cherished souvenir of the great war on dis-play here. Its owner, J. A. Sheffner, local business man, received it recently from his son, Camden Sheffner, who is now on his way here from France. Young Sheffner claims the strop

saved his life in the battle of the Aisne, near Prismes. Carrying it in his breast pocket, the strop de-flected a Hun bullet sufficiently to cause only a slight wound instead of a fatal one.

Representative People Are Buying Lots in Geo. C. Eselin Tract. Why?

BECAUSE it is not Oil Stock or Blue Sky, it is land, you get a Warranty Deed. Every lot participates in all the profits de-rived from the oil, gas or coal, produced on any part of the tract. No assessments and no high salaries to anyone. Because this land is located in the second largest oil producing county in Kansas and is surrounded by producing oil wells.

Mr. A. C. Irvine, our driller, was here this week completing arrangements to start drilling. He has the first well spuded in. Hon. C. O. Lobeck and Hon.

Jas. C. Dahlman are members of the Lot Owners Advisory Board. Mr. E. W. Kerr, of Omaha, who has been locating oil wells since the time oxen power was used for drilling, is our locator.

These facts explain why these lots are going fast at \$15.00 each. Why not get your share before the wells are brought in and the price goes up. We so-licit your investigation.
