Cattle—Supply of western beef was rather limited and the trade was about steady, though the undertone was slow. Butcher stock opened anywhere from steady to 25c lower and bulk of the offerings promised to sell 25c or more below last week's close. Last night's labor trouble has made packers fear the loss of their negro workmen and have accepted a go-slow policy on everything this morn-Butcher stock opened anywhere from steady to 25c lower and bulk of the offerings promised to sell 25c or more below last week's close. Last night's labor trouble has made packers fear the loss of their negro workmen and have accepted a go-slow policy on everything this morning. Stockers and feeders were in fairly broad demand, opening steady to strong, with old sales right on the start a little higher. Yearlings sold up to \$11.25, with best heavy feeders above \$12.00. Receipts were estimated at 19.300, or 714 cars, slightly larger than last Monday's run.

Quotations on Cattle—Choice to prime beeves, \$16.00@12.00; choice to prime yearlings, \$11.00@12.00; choice to prime yearlings, \$11.00@12.00; choice to prime yearlings, \$11.00@12.00; choice to prime helfers, \$5.00@ 15.00; good to choice yearlings, \$10.00 (10.00; choice to prime helfers, \$5.00@ 10.00; choice to prime heavy feeders, \$10.00@11.75; medium to good feeders, \$10.00@12.50; choice to prime heavy feeders, \$10.00@12.50; fair to good graph feeders, \$10.00@12.50; fair to good graph feeders, \$10.00@12.50; fair to good graph f

\$5.50@9.00.

Hogs—Receipts were rather light this morning, 52 loads estimated at 3,500 head. Trade was slow and dragy and decidedly uneven prices. Quality was only fair, there being a scarcity of well finished hogs. Occasional sales looked 25c lower than Saturday but on the other hand there were sales that were fully steady, the market being quotably steady to 15c lower. Most of the hogs sold at \$15.80@15.95 bulk stretching at \$15.75@16.00. A few loads sold under the bulk and choice loads were scattered on up with a full load top at \$16.60 and \$17.00 being paid for a small plece.

statered on up with a fun load top at \$15.60 and \$17.00 being paid for a small plece.

Sheep and Lambs—A run of 3,800 sheep and lambs arrived for today's market and character of the offerings was much the same as usual, bulk of the run consisting of thin, light lambs. Fackers were relustant buyers from the start and some little effort was made to cheaper cost, although trade as a whole ruled generally steady. Best fat lambs are still quotable around \$14.25@14.50, with fair to good kinds of killers moving around \$14.00. Toppy ewes are bringing \$5.00@6.25 with best wethers quotable up to \$8.59.

Plenty of feeder buyers were in attendance and inquiry from this quarter was vigorous from the start, priogs ruled unevenly higher, the advance in most cases averaging 35x50c. One string of fieshy lambs went to the country at \$13.00, but \$12.50 is a quotable limit for straight close-weoled lambs. Strictly good iambs sold up to \$12.00@12.35, with common light grades on down the line according to weight and quality.

Quotations on Sheep—Lambs, good to choice, \$14.00@14.50; lambs, fair to good \$12.50; medium to good feeders, \$11.50@ 12.50; common light feeders, \$9.50@11.25; culls and throwouts, \$6.00@8.30; year-lings, \$8.75@.30; ween, \$6.25; ewes, fair to good, \$5.25@5.75; good feeding owes, \$5.25@5.00; ewe culls and canners, \$2.00@3.50; breeding ewes, \$7.50@12.50.

A Message to You From the President: I fully feel that the OKEH-RANGER OIL COMPANY has holdings that merit its capitalization, and we intend to develop all of these holdings as soon as good judgment warrants. Of course, our No. 1 well will be pushed toward completion, as the derrick is now completed, tools are being pushed to the leave and drilling will start very shortly. The Trustees will draw no salaries, and the only way for them to make money is out of dividends the same as you as a stockholder in this company. To date about \$80,000 worth of the stock has been subscribed, which leaves a remaining \$70,000 worth to sell at par, \$10 per share.

All one has to do to feel that our No. 1 well will be a big producer is to go to the lease, have a talk with the driller or any oil man who knows the field and see the many large producers and drilling wells all around our lease. The small stockholders will receive their dividends just as soon as the larger ones, and will be regularly advised as to the progress of the company. I, as a former army man, deem it improper to trade in Liberty Bonds, so will refuse to accept them in payment for stock. We have a fair, square, legitimate proposition, and positively refuse to misrepresent this company in any respect, so do not advise you or anyone else to invest in any oil company unless you are able to take a chance.

I fully feel that quick action is necessary, as our own townspeople are buying this stock very quickly, but do not urge anyone to invest without in-vestigation unless they know the field. You know what a 2,000-barrel gusher will mean to our stockholders.
