

WOMAN'S SECTION OF THE BEE

How God laughs in heaven, when any man says "Here I'm learned; this I understand; in that, I am never caught at fault or doubt." —Elizabeth Barrett Browning.

Except I be by Sylvia in the night, There is no music in the nightingale. —Shakespeare.

CLUBDOM

Minima for Women. "Have we a minimum wage law in Nebraska?" was recently asked the woman's department of The Bee. There is a minimum law on the statute books of this state, but it does not call for a specific minimum to be paid women workers. Rather, it provides for a commission which fixes the minimum wage upon the recommendation of advisory wage boards made up of employers, employees and the public. The only power of enforcement lies in the right of the commission to publish the names of those employers paying less than the minimum rate.

\$16.50 a week, will be established in the District of Columbia for women mercantile employes, following the recommendation of a conference committee on which women employed in Washington stores were represented. In ordering this rate the minimum wage board will break its own record, made recently when it set \$15.50 as the minimum for women in printing and publishing industry. California recently established a minimum of \$13.50 a week for women in fruit and vegetable canneries and in the laundries, and Washington fixed \$13.20 as the minimum for women in all occupations during the period of the war. In Oregon \$48 is the minimum for office workers, while the rate for stores is \$11.10, and that for factories laundries, telephone and telegraph work and "personal service" is \$11.61. The District of Columbia wage board in the budget on which its award for the printing industry was based, calculated that \$9 a week was necessary for board and room alone, for they woman worker. The other states which have been active in making minimum wage awards expect that \$9, and frequently a smaller amount, will cover a woman's entire living expenses. In Kansas the legal minimum wage for stores, laundries is \$8.50, and for factories \$11. Minnesota sets different minimum rates according to the size of the community. It has fixed \$9, \$8.50 and \$8 for first class cities and smaller places, respectively, for mercantile and office work, and 25 cents less for factories, hotels, etc. In Massachusetts the rates are \$9 weekly in the clothing industry, \$10 in millinery, \$8.50 in stores and \$8 in laundries. All these rates, except that in the state of Washington, apply only to experienced workers. "Learners" and inexperienced workers get a dollar or two less a week.

Then from his pocket forth he took A pair of scissors, small And severed from the printed page The helpful hints and all. He clipped "The Way to Scramble Eggs," And "How to Make Peach Butter," As well as half a dozen more. "That's all"—again he muttered. "A thoughtful man," at once I mused. "A man who cares for things; Who loves the calm, contented song 'The home teakettle sings.'" "Do you," I asked, "preserve those notes 'So that your wife may see them'?" "Not much," he growled, "I cut them out 'So she won't get to try them.'" Baltimore American.
