

I. W. W. BACK OF RIOTS HERE, SAYS GENERAL WOOD

Declares in Speech at University Club Radicals Have No Place in United States.

General Wood scored the unprepared state of this country at the time it entered the world war, declared that the United States is in the most critical period of its history and advocated a standing army of 225,000 men, speaking yesterday before 250 people, mostly ex-service men, at the University club.

"We cannot handle the world by verbal message," said the general. "This country has been fortunate in having someone else to hold the line till we got prepared. Our ghastly record of getting prepared for the world war should start the public thinking."

Not Enough Guns.
"When American forces first occupied the trenches in France they were not equipped with an American made gun, although it is claimed that they had 11 American made field pieces. I believe they had five naval guns."

General Wood, commenting on local conditions, urged that the police force be strengthened, and warned members of the American Legion that they should stand ready to assist in maintaining law and order.

Blames the I. W. W.
"The I. W. W. was undoubtedly behind the recent trouble here," the general declared. "These disturbances are becoming too frequent in America. Good citizenship will counteract these foreign influences, and to teach good citizenship foreign language should be eliminated from the grade schools."

"The constitution should be drilled into the young American. Economics should be taught more extensively in the high schools, and the relation between capital and labor should be clearly understood. Public opinion should compel timid officials to act in stopping the spread of un-American influence in a community. There will be no red flag where there are brave public officials."

Up to the Women.
General Wood urged that the better class of citizens take more interest in politics and declared that now that women could vote none should neglect their duty.

In closing the general declared that "this country would never be forced into war under the mandate of any other country or group of countries."

"The United States must be a force for peace and right," he said, "but not a talking force."

Large and Most Beautiful Apartments With Special Comforts for the Children Will Be Built As Result of Bee's Rent Campaign

Front view of one of 17 proposed new apartment buildings.

A 17-Group Apartment Structure to Go Up in Vicinity of One of Parks—Will Have Playgrounds for Children Suitable for Use During Bad Weather, With a Director for Games—Rents Will Be Low and Based on Reasonable Interest on Investment—Other Apartments Certain to Follow—Owners Will Have No Connection With Alleged Combine.

Pursuant to The Bee's numerous disclosures concerning the policy of Omaha landlords to exclude children from apartment houses and charging profiteering rent rates, W. W. Goldnamer, representing the Realty Syndicate Co., yesterday announced his company had completed plans for a group of dwelling houses here to meet the demands of persons who are being imposed on by alleged rent combine headed by the Building Owners' & Manager's association of Omaha.

Mr. Goldnamer declared the apartments would be modern in every particular and some of them would be ready for occupancy next spring. Special provision has been made in the plans for the comfort and convenience of children, it was said. The structures are to cover two city blocks, and ample space is to be devoted to play grounds, which the children living in the apartments will be encouraged to use when the weather is suitable. Play rooms also will be provided for use when the weather will not permit outdoor games. Mr. Goldnamer declared a play ground director would be employed to superintend the children's sports.

There are to be about 300 apartments in the group of houses and the rent rate, it was said, would be fair and reasonable. Mr. Goldnamer asserted he would not identify himself with the so-called combine.

"Our rents will be based on floor space and service," he said. "It will be none of our affairs what other landlords do, and our affairs will be

of no concern to others. We will make our arrangements with our tenants regardless of combinations.

No Profiteering.
"There will be no profiteering in our business, and children always will be welcome."

"Our plans include the erection of a 17-group apartment. It is to be modern in every respect. We are negotiating now for the site, which is located in the vicinity of one of the city's most beautiful parks.

One of the buildings of the group, besides containing the office and central heating plant, will furnish a number of garages for use by the tenants," said Mr. Goldnamer. In this building, it was declared, would be located the community house addition with the special play rooms for the children.

Another feature which is believed will appeal to the public, is that there will be no rear doors visible, as the garden entrances are designed to be as attractive as the street entrances.

The first group of apartments will immediately be followed by others, Mr. Goldnamer said.

Some of the firms, members of the Real Estate board and the Rental combine, which two organizations are responsible for excessive and profiteering rents in Omaha, are the following:
George & Co.
D. V. Sholes Company.
Payne Investment Company.
Payne-Slater company.
Traver Bros.

Gears for two speeds, operated by separate handles, feature a West Virginia inventor's ice cream freezer to provide the increased power needed as its contents congeal.
