'Katcha-Koo' Will

Rehearsals to Begin Monday, When Professional Director Will Arrive.

Plans are being formed, commit-tees arranged and appointed and all preliminary arrangements for the presentation of "Katcha-Koo," an Oriental-American musical comedy, at the Brandeis theater October 24-25, and with the expected arrival of Mr. Arthur W. Falvey of Omaha the professional director rehearsals will start in earnest and everything will be in full swing. The director is expected to arrive Monday.

Rehearsals will be held in the First Central Congregational church in the afternoon for the younger people and a meeting of the older folks will be in the evening. The principals will then receive their respective parts, read over lines and "try out" the parts which have been assigned them. The choruses will sing over the songs and all get some

idea of the play itself.

Katcha-Koo is called an Oriental-American fantastique. It is said to be both brilliant and entertaining.

The story is as follows:

Transfixed before the Maharajah's private Temple of Buddha, in Rasputim, when the piece opens, is a notorious fakir of Hunga by the name of Katcha-Koo. He can do incredible stunts-like all East Indian fakirs-and Katcha Koo specialty is standing for weeks perfectly im-movable without taking food. He always selects some inappropriate and objectionable spot so as to annoy and irritate his victim and the people generally. Now he has chosen the Maharajah of Hunga as his present victim and has placed himself directly in front of the great

to make threats as they all dread the fakir's curses. Even the powerful Maharajah himself dare not lay hands on Katcha-Koo though he has offered an immense reward to anyone who can move the fakir. It remains

for two ingentous Americans to

negotiate the job. Among the well known people who will participate are Mrs. Howard Baldrige, Mr. Raymond Law, Mr. Walter Woodrow, Mrs. Mitchell, Mrs. Reasoner and Mrs. Robert Edwards Robert Edwards.

Realizing that such a condition merits attention, the local organization having in charge the sale of Red Cross seals is working hard to make the December campaign a great success. Nebraska has as her goal the sale of 5,000,000 seals in the state this year, which will represent \$50,000 in money. If the goal is reached, one-half the amount, \$25,-000, will go into an Omaha preventorium, where children who are tubercular, or disposed to tuberculosis, may be cared for. #### **New Hair Growth** After BALDNESS

HAIR GROWN ON MR. BRITTAIN'S BALD HEAD BY INDIANS' MYSTERIOUS HAIR GROWER

Indians' Secret of Hair Growth

At a time when I had become discouraged at trying various hair lotions, tonics, specialists freatments, etc., I came across, in my travels, a Cherokee Indian "medicine man" who had an elizir that he asseverated would grow my hair.

Although I had but little faith, I gave it a trial. From recent photo. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days.

That I was assonished and happy is expressing my state of mind mildly, Obvicesly, the hair roots had not been dead, but were dorman in the scalp, awaiting the fertilizing potency of the mysterious pomade. I negotiated for and came into possession of the principle for presparing this mysterious elizir, now called Kotalko, and later had the recipe put into practical form by a chemist.

That my own hair growth was permanent has been emply proved. The man also children, have reported satisfactory results from totalke.

How YOU May Grow YOUR Hair

the that hair roots rarely die even whose through dandruff, fever, excessive dryness or other disorders. I have been told by experts that often when hair falls out the roots become imbedded within the scalp, covered by hard akin, so that they remain for a time like bulbs or seeds in a bettle which will grow when fertilized. Shampoos (which contain altalis) and hair lotions which contain altalis) and hair lotions which contain altalis and hair lotions which contains altalis or nature which give new vitality to the scalp and hair.
