Mr. A. M. Borglum EMINENT MUSICIAN

AND MUSICAL CRITIC Writing for The Omaha World-Herald on September 28, wrote in part:

"The possibilities of the Ampico were demonstrated by the playing of the Chopin Waltz, immediately after Mr. Copeland's performance, with such truth of reproduction that I am sure it would have been impossible to distinguish the difference if it had been behind a screen. In the "Afternoon of a Faun," a part of the piece was played by the Ampico and taken up by Mr. Copeland absolutely without any noticeable difference in the tone; while the Seguidilla was repeated with the same brilliancy and volume of dynamic effort shown by the player himself. It was really a marvelous demonstration and gratifying to Mr. Stoddard, the inventor of the instrument, who was present and made a few remarks to the audience.

"The concert was presented under the direction of Hayden Brothers."
