**NATIONAL AMERICAN
FIRE INSURANCE CO.**

AUTHORIZED CAPITAL STOCK,
THREE MILLION DOLLARS—
CAPITAL AND SURPLUS.

On September 25th, We Started to WRITE Insurance—With Assets of NEARLY TWO MILLION Dollars!

On the 25th day of September, just one week ago last Thursday, Nebraska's New, Home Insurance Company started writing fire, tornado, hail, and automobile insurance. And this start of actual business was made with assets which total nearly \$2,000,000.

This huge amount was invested in the company in the trifle over four months since our organization. Already we have established over 300 agencies throughout Nebraska and Iowa. The business is pouring in. Remarkable success is ahead.

A Limited Amount of Our Stock Will be Offered at \$125 a Share; and the Remaining Issue Will be Sold at \$150 a Share.

A limited amount of stock is offered, today, at \$125 a share. The balance will be sold at \$150! There is not a dollar's worth of "promotion stock" in the company. Every share is "voting stock" and participates in all profits. Over 200 bankers and insurance agents are TODAY stockholders in the company. The amount to be sold at \$125 a share is LIMITED, remember!

Investigate and see what the fire insurance companies have done and you will see why, within a reasonable length of time, the stock of this company should be worth \$500.00 per share, and still increase in value, as the business of the company increases.

The Tremendously Increased Demand

The NATIONAL AMERICAN FIRE INSURANCE COMPANY is organized to meet the tremendously increasing demand for insurance. Some idea of the increase may be had from the figures following; reports show that \$520,000,000 was paid to FOREIGN companies during the past five years. Nearly one-half of this huge sum went to Austrian, German and Bulgarian companies. And these outlets are no longer open. American companies MUST handle the business. Yet this demand is but a part of the increase in insurance. Millions of dollars in fire insurance premiums went out of this state in 1918. A good strong home company WILL keep most of that business in the State.

Vast Profits in the Insurance Business

Some idea of the profits to be won in legitimate, straight-forward insurance business may be had from the figures quoted below (taken from leading Insurance-Journals). We do not give them to INFLUENCE YOU; merely that you may see and judge for yourself. The men heading THIS company are men who have made remarkable success with these old, established companies.

Globe & Rutgers Fire.	Glen Falls Insurance Co.
Recapitulation of invested assets at five per cent.	Recapitulation of invested assets at five per cent.
Capital \$ 400,000.00	Capital \$ 500,000.00
Reserve 8,832,024.00	Reserve 2,629,482.00
Surplus 4,769,656.00	Surplus 2,250,666.00
Total \$8,901,700.00	Total \$5,380,048.00
Annual Interest at 5% 435,085.00	Annual Interest at 5% 269,002.00
To stockholders this would pay a perpetual dividend of 100 per cent.	To stockholders this would pay a perpetual dividend of 83.8 per cent.

A Sound, Safe Investment

The premium income of every successful fire insurance company is large enough to pay losses, all expenses and ample profits to stockholders besides. The law secures the investment and with strong hands shields the interest of all concerned. No business paying similar profits is safeguarded with equal certainty. Thus, as a stockholder, you pay no fire losses, and no company expenses; these, together with the dividends on your stock, come out of the premiums of the policyholders. The state sees that the company's capital which you helped to furnish, is kept intact. The law of the state compels the company to invest every dollar of its assets in first mortgages, municipal, county, state or United States bonds, and the capital stock as invested must be held intact forever. And every requirement of state and national laws has been met by this company.

A Final Chance to Accept this Remarkable Investment Opportunity

This is a final offering of one of the most remarkable investment opportunities of a lifetime. In a little more than four months since our organization, shrewd investors have subscribed to and paid for nearly TWO MILLION DOLLARS of stock. This company will operate in all parts of the United States. Its capital will be invested wholly in non-speculative securities, such as government bonds, municipal bonds or mortgages on real estate; only up to 50%—one-half—of the entire resources. The capital stock—and no other will be sold—is fully paid, non-assessable and non-taxable.

This company has been doing business since the 25th day of September. It is headed by Insurance and Business men of the highest standing. Remember, too, that the great fortunes made through investments are nearly all made by the FIRST INVESTORS. Right now you are face to face with a wonderful, safe, substantial investment opportunity. We earnestly urge that you make investigations, and decide one way or the other, AT ONCE! A coupon is attached for your convenience. Tear it off and send it in right now—while you hold this paper in your hands.
