Chicago Grain and Provisions.

Chicago, Oct. 15.—Announcement that the longshoremen's strike had been called off led to a moderate advance today in the corn market. Prices, however, reacted somewhat and the close was unsettled, %c to %c net higher, with December \$1.22% @1.22% and May \$1.21% @1.21%. Oats gained %c to %c and provisions oc to 70c. Corn was buillishly affected from the outset by the ending of the longshoremen's strike, as grain had begun to pile up at interior terminals, and lake loadings from here had been brought to a virtual standstill. Unsettled weather tended likewise to strengthen the corn market today and so, too, did an advance in quotations on hogs. At one time talk of a revival in export demand for oats counted as a further buillish factor. On the whole, however, buyers of corn were not aggressive, and considerable realizing on the part of holders was noted toward the last. New corn arriving was said to show exceptionally good quality for this season of the year.
