Plane No. 30 came to a landing with Private Maucher riding the tail, he having climbed out of his seat and moved back to the end of the tail of the machine, while it was yet about 1,000 feet in the air. This was done to prevent a nose dive in landing and thus wrecking it and probably putting it out of the race.

### Hot Argument on Omaha Riot Bill

(Continued From Page One.) when the bill comes up in committee of the whole Thursday there may be a very interesting debate. Repre-sntative Foster of Douglas county told the committee that there were some things in the bill that he would oppose and so the house is due for one of the doctor's flights of ora-

gives the county commissioners of all counties of the state the author-ity to issue bonds for the repair of court houses partially destroyed by fire or other means and for the purchase and preparation of new records destroyed. The questions was raised by Senator Peterson, Senator Johnson, Senator Taylor and one or two others as to the desirability of making the bill apply to all counties, some contending that in some of the small counties where there was an out-of-date court house and a possible feeling against the voting of bonds for a new one that somebody might burn the building down and the commissioners would

have authority to erect a new one without a vote of the people.

Mr. Breen, appearing before the committee, pointed out the main features of the bill, but contended that there was a question involved as to the constitutionality of any bill for a similar purpose which would give Douglas county and no other county the authority, believing it to be class legislation.

The committee discussed the bill for nearly two bourself fault.

New Brand of Strike.

Berlin, Oct. 15.—Berlin has experienced a new brand of strike when 15,000 clerical workers in the municipal offices walked out, demanding higher pay. Among the departments directly affected is the bread card distributing bureau, also the coal, milk, butter, fat and meat control departments, as well as the municipal savings banks. The movement is said to have originated in the ranks of the auxiliary workers who are dominated by the radical element. cal element

## To Uphold the Law Allies Make Demand eland. Oct. 15.—Secretary of For Ships Turned Over To Dutch Companies

Paris, Oct. 15 .- The supreme council has approved the text of a notification to be addressed to the neutral powers which will be asked to join the league of nations, setting forth the conditions under which they may adhere to the covenant of the league.

The council also approved the draft of a note to be sent to Germany demanding the surrender to the allied and associated powers of German ships which were turned over during be war to companies in The Netherlands and which are at present in German ports. The note declares that the sales are void because of their arregularity.

Another draft note to Germany regarding German representations on the subject of the territory of Memel, on the eastern Baltic frontier of Germany, declares that the allies decline to discuss the destiny of Memel with Germany, which renounced its rights over this territory by the treaty of Versailles. The solution of this question, it is said, concerns only the allied and associated powers.

### **Britain Instructs Germany** to Help Coerce Soviet Russ

London. Oct. 15 .- In connection with the report from Germany that England had instructed Germany to co-operate in the coercion of soviet Russia, the correspondent of The Associated Press learns that a communication of this nature was made to Germany by the peace confer-

Word of the request to Germany to participate in a blockade of soviet Russia came first from Berlin and was later followed by reports from neutral states, intimating that they, too, had been requested to join in a blockade. No definite announcement of such contemplated measures had, however, been made from Paris or London, causing some adverse news-

paper comment. It was stated in Paris that the United States did not join with the entente powers in asking Germany to co-operate in such a blockade and the American delegation there did not admit any American participa-tion in an actual blockade against
