#### Soldiers Throng Audiences.

Managers attributed this to the influx of soldiers and sailors to the musical training they were receiv-ing. Salesmen of libretti stated that never in their experience had they seen so many men purchase the story of the operas. Concerts and orchestral entertianments had many uniformed strangers facing them. And it was not only officers in at-tendance-but enlisted and drafted

In Europe the American soldier heard much more music in camp than at home. The French and Italians find more recreation in musical affairs than in sports. They seem to take more pride in the class of music. By coming in contact with French and Italian soldiers, and thus being introduced to their music, the American soldier, before he knew it, had acquired such a taste for the better class of music, that the ordinary "stuff" did not satisfy his growing artistic taste.

Companini Is Overjoyed.

Mr. Campanini expects much bet-ter results from this new class of situation that, without a competent county attorney and grand jury we audience this season than ever bewould get no where. Mr. Shotwell<sup>\*</sup> and the grand jury are working to-gether splendidly and results are beginning to be shown. "It will be a long grind, howfore. He fully expects to find during the tour of the Chicago Opera asso-clation this fall, and especially in Omaha next week, a new audience. He feels convinced that the re-turned soldier and sailor is sure to feel that this trip abroad has taught him more than the art of handling a machine gun and rifle. He fully believes that he acquired some of the European music, and he feels that he knows enough about good music to really enjoy it.

"Disappointed" Police and Is Fined; Bottle Had Root Beer in It

Charges of "disappointing an officer" and vagrancy brought a fine of \$25 and costs to Theodore McCoy, negro, 2107 Clark street, in central police court yesterday. Police say he attempted to sel the extract as whisky. The arrest was made at Fourth and Davenport streets. Theodore paid his fine.
