At Fontenelle Oct. 30th

A social event unique in the annals of Omaha's society affairs is scheduled for the immediate future. t is no lesser affair than a real New York Winter Garden ball-the very first that has ever been held in this

ity, or for that matter, in any city in this part of the country.

The ball will be given at the Fontenelle hotel on Thursday night, October 30, under the auspices of the "Fatherless Children of France," and the entertainment will be furnished by the 150 members of "The Passing Show," the big New York Winter Garden revue playing the Boyd theater that week.

In New York City the New York Winter Garden annual ball is one of the big events of the season, vie-ing in importance with the Old Guard ball and kindred affairs. Omaha was fortunate in getting this big company through the following circumstances.

Mrs. Barton Millard, the president of the organization, learning of the coming visit of the Winter Garden show, conceived the idea of the ball, and through Manager Burgess of the Boyd learned that the company was playing this week in St. Louis. To the manager of the company she sent the following night letter: "Manager 'The Passing Show,' Shubert Jefferson Theater, St.

Louis, Mo.—Will you contribute the services of 'The Passing Show' company during the week of October 26th, when that attraction plays the Boyd theater? What may we count "MRS. BARTON MILLARD."

To this appeal came this ready response from St. Louis:
"Mrs Barton Millard, president 'Fatherless Children of France.'
123 North Thirty-ninth street,

"Replying to your request for the services of 'The Passing Show,' el will be glad to give the services of the entire company of 150 people for the ball. Prefer night of October 30. Not only will our chorus appear, but all of the big all-star cast. We will give a vaudeville bill that if given in the local theater would cost many thousands of dollars. Count on us for every assistance in this on us for every assistance in this

on us for every assistance in this worthy charity.

"ED L. BLOOM, Manager."

So it is definitely arranged that Omaha's charitably inclined are due to have one of the maddest, merriest nights in its social history, and at the same time they will have the satisfaction of helping one of the worthiest charities on record and bring sunshine into the hearts of a lot of fatherless kiddies. lot of fatherless kiddies.

Hupp-Hopkins. A very pretty home wedding took place Saturday afternoon at the home of Mr. and Mrs. Irvin Hupp of Chicago, when their daughter, Louise, became the bride of Mr. Karl Hopkins of Omaha. Rev. Harold Leonard Bowman of the Woodlawn Park Presbyterian church read the marriage lines.

Miss Dorothy Deckman, brides-maid, wore an afternoon gown of embroidered peach color georgette. The bride was gowned in ivory white satin, made with a draped skirt. It was elaborately embroidered in silk and silver threads. A shower bouquet of bride's roses

Few Omaha girls have the opportunity to stand within arm's length of world-famous singers and watch the golden notes fall from their lips. It has been given to eight young Omaha singers, pupils of Miss Mary Munchhoff, to enjoy this privilege. On Monday night at the Auditorium, they will take part in the triumphal scene of the opera, "Aida." It is one of the most beautiful and gorgeous productions of the Chicago Grand Opera company. The girls are to be in costume.

Why Do French Women Always Look Young?

In France mothers and daughter look like sisters. How are the women there able to retain their youthful looks until long past middle age? Is it because they are much given to the use of mercolized wax? This wax possesses a remarkable absorbent property which quickly removes the fine particles of cuticle which are constantly dying and which are the immediate cause of an old-looking complexion. Thus the livelier, healthier, younger skin beneath is given a chance to breathe and to show itself. Try this treatment yourself. Most likely it will not require two weeks to make your complexion as clear, soft and beautiful as a young girl's. Just one ounce of mercolized wax (all American druggists have it), usually does the work. The wax is put on nights like cold cream and washed off mornings.

If you have not yet tried the new way, the silmerine way, by all means do so You'll never again use the ruinous heated iron. The curliness will appear so perfectly natural and the hair will be so beautifully lustrous, instead of dried and parched. Thus liquid silmerine serves also as a beneficial dressing for the hair. It is neither er sticky nor greasy, but quite pleasant to use. It should be applied at night with a clean tooth brush, drawing the latter through the hair from root to tip.

Reliable Method of Hair Care

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of water. This makes a full cup of shampoo liquid, enough so it is easy and rendering it possible to classify to apply it to all the hair instead spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After canthrox shampoo, arranging the hair is a pleasure.

THE wish which is nearest to every woman's heart is to bring her complexion to a supreme and unblemished loveliness. It is possible to do this more quickly than you perhaps ever thought it possible. But to do it, you must make up the formula yourself at home. You cannot get the same richness, the same ingredients if you do not. Now; just get a one-ounce package of zintone for about fifty cents from your druggist, and mix the contents from your druggist, and mix the contents with two tablespoonfuls of glycerine in a pint of water. The cream will then be ready, and this will make much more cream than you can get already prepared in the stores, and you will be assured, moreover, that the results will be achieved quickly. Your skin will be as spotless as the petals of a rose.

ANSWERS TO QUESTIONS.

MISS C. J. H.—On the scalp is constantly forming a film of grease and scale which it is almost impossible for soap to remove thoroughly. You need something to dissolve away these accumulations, and if you will dissolve a teaspoonful of eggol in a half cup of water and use as a head-wash you will find your scalp and hair will be cleaner than ever before, and your hair will take on a very marked sheen of vigor and health. You can get enough eggol for twenty-five cents to give a dosen or more luxurious head-washes.

combrul.—The length of the hair can be increased very perceptibly within a month, by the use of the following formula. The ingredients given here are very readily absorbed by the hair roots, and a quick result is obtained. Bald spots will fill in rapidly and the hair will stop falling. Mix one ounce of betaquinol, which you can obtain from the drug store for about fifty cents, with a half pint of water and a half pint of bay rum, or if preferred, with a full pint of witch hazel instead of the bay rum and water. The hair grower is then ready.

HUMILIATED—You should not use materials and pastes and powders that irritate the skin. This is not at all necessary. There is one way to remove superfluous

hair which is really wonderful, and that is by dissolving it. A little sulfo solution applied to the hairs to be removed makes them dissolve away, and they can then he rubbed off completely, leaving the skin just as though it had never been afflicted with superfluous hair. The sulfo solution will cost about a dollar at drug stores. You will surely never use anything else after trying this.

MISS M. A. M.—As the texture of the skin is made finer, the tissue "braces up" of course, and the result is that flabbiness of the skin is corrected. In this way wrinkles and crow's-feet entirely disappear. The difference which this can make in your appearance is obvious. With the contents of a two-cunce package of eptol, mix one tablespoonful of glycerine in a half pint of water. You do not need to use anything else at all for wrinkles, and if you will use this liberally you will quickly see a wonderful improvement in your appearance of age. Get the eptol from your druggist for fifty cents.

MRS. G. K.—Just sprinkle a little neroxin on a wet cloth and rub the blackheads with this. In a few minutes you will
see that the blackheads will be entirely
gone. You can prove in a few minutes that
this positively does the work. The neroxin
costs about fifty cents at the drug stere.

MISS K. M. D.—An exquisite face pow-der, excelling in quality many of the im-ported products, is "Freesa Beauty Pow-der" which is wonderfully fine and ad-heres beautifully. It is sold at drug stores for fifty cents in any tint. Just try it.
