

Great Oaks From Little Acorns Grow

In May, 1918, there was organized the American Tire Rebuilder's Company for the purpose of rebuilding automobile tires with an authorized capital of \$100,000.00. The success of this organization was so phenomenal that it earned and paid to the stockholder in this short period a dividend of 13% on July 1st, 1918, at which time it was deemed advisable to increase the capital and erect a large plant for the manufacture exclusively of automobile tires. So out of that small beginning comes the

Birth of a New Tire Industry

The Crow Tire & Rubber Co.

incorporated under the laws of Nebraska with an authorized capital of \$1,000,000.00. It is the purpose of this company to erect in Omaha one of the largest automobile tire manufacturing plants west of Akron, Ohio, and in order to accomplish this end in the quickest possible time we are offering a small block of our

8% Preferred, Fully Participating, Stock At \$125.00 Per Share

As stated above this stock is preferred as to dividends and fully participates with the Common stock; in other words, after the 8% is paid on both the Preferred and Common stock the excess dividends are divided equally between the Preferred and Common Stockholders. A large block of this stock has already been subscribed. Only a limited number of shares are being offered at this time. Act now, get in on the ground floor. The time to buy stock in any institution is when it is being organized.

Omaha the Logical Tire Center of the West

There are registered in the 12 states for which Omaha is the distributing point nearly 2,000,000 automobiles. This means that there is in actual use over 10,000,000 tires in the Omaha territory. Do you think that this enormous amount of money paid for these 10,000,000 tires should go to Ohio and the east? Why not keep it here in the west?

Did You Ever Investigate the History of the Rubber Tire Industry?

If you have the results would stagger you. It has made more millionaires than any other line of endeavor. The profits paid to stockholders from the five big tire companies are enormous. They read like the story of the Arabian Nights. For instance:

PUT YOUR MONEY TO WORK WHERE IT WILL EARN THE GREATEST RETURNS. SIGN EITHER ONE OF THE COUPONS BELOW AND FULL INFORMATION WILL BE GIVEN.

In fact, there is yet to be recorded in history a single failure of an automobile tire company that has made a good product. These figures have been obtained from a reliable source and we believe them to be correct.

An invitation is now extended to both the small and large investors to get into this splendid organization and help us build this plant in growing Omaha.
