Nebraska Lands.

IWENTY YEARS—How would you like to have somebody give you a warranty deed to a half section of Nebraska farm land, and give you 20 years in which to pay most of the purchase price, you paying down only a part of the agreed price? The Howard family owns some fine land in western Nebraska, and will sell it in 320-acre tracts to any person who desires to use it as a home, and will sell on terms above stated. The 20-year deferred payments will bear 7 per cent interest. We will make the interests only 6 per cent on a 10-year basis. will sell on terms above stated. The 20year deferred payments will bear 7 per
cent interest. We will make the interests only 6 per cent on a 10-year basis.
In this advertisement we call attention
to only two of our farms, but we have
others. One is a half section in Kimball county. Half of it is now in winter
wheat, and it looks as preity as a green
carpet. Perhaps the wheat crop may
nearly pay for the land. Such things
have happened in western Nebraska.
The wheat goes with the land. We will
sell this half section, wheat and all, at
only \$50 per acre. We call attention to
another half section in Banner county.
About 120 acres are broken. This land
yielded 25 bushels of wheat per acre in
1918. This half section is rented to a
good man, who will put all the cultivated land in corn next year. The man
who buys now must wait a year to get
possession, unless he can make a deal
with the tenant, but in any event he will
get the landlord's share of the crop. If
any good man in Nebraska really wants
to secure a farm home on payments as
easy as he could ask, better come to
Columbus and see me. Do not write
to me. I am not in the real estate
business. I am selling no land other
than that which is owned by the Howard farmity. I have no time to devote to
correspondence, but I do have both the
time and the desire to help a fewgood men to secure homes on Nebraska
soil, on terms so easy that they will
be able to meet them without running the risk of being closed out of
house and home should a bad year
come along. Come and talk with me,
and if the talk shall seem good, then
go and look at the land. When you
shall see it, you will buy it.
EDGAR HOWARD, Columbus, Neb.

P. S. I forgot to say that our price
for the Banner county half section is
\$40 per acre, and on the same terms as
the half section offered in Kimball
county.

FLORIDA MUCK LANDS

Our next excursion to Moore Haven, Florida, leaves Kansas City Monday night 5:30, on the 27th of October. Better join us. Jacksonville Times Union tells about a \$10,000,000 Sugar Company being organzed. This is to locate about three counties south of our holdings. Also a Sugar Mill is talked of for Fort Myers. The same paper tells that a one hundred thousand dollar

Peanut Oil Mill and a twenty thousand dollar Syrup Mill is to be built at Moore Haven. This farming community is less than 3 years old. We are selling good Sugar Cane and Corn lands at \$100.00 per acre, the rainfall being 50 inches. As good a soil as can be found anywhere, which will raise from two to four crops each year. The Commissioner of Agriculture of the State of Florida has this to say re-

garding our district: "This Great Section will produce nearly everything known to us, such as Forage, Cane, Corn, and practically everything in the vegetable line in ar almost fabulous way. I look upon this wonderful section as being that part of the United States which will produce Sugar Cane, Corn, Cattle and Hoge at less coat per pound than any other like acreage known to us. The natural grasses, as well as some of the more popular grasses, like Para, Rhodes and Sudan, will carry three or four head f grown cattle per acre the year round."
