CATTLE RECORDS AGAIN BROKEN

Largest Run Ever Received South Side loaded During Last Week.

All records for the receipt of catthe history of the South Omaha stock yards were broken Saturday with a total for the six days of the last week of 76,146 head. There was an unusual run of cattle received at the yards Saturday, the number of cars totalling 72, or some 2,000 head, breaking last week's record of 64,444 head by

Up to this year the largest run ever received at the stock yards was during the week ending Sep-tember 21, 1918, when receipts were 61,910 head. This week a year ago total receipts were 52,092 head, 24,-054 lighter than the run of the pres-

Hog receipts Saturday were light, there being but 37 loads, estimated at 2,300 head. Only four cars of heep and lambs were received for Saturday's trade.

It is the consensus of opinion mong stock yards authorities that there will be a large falling off of receipts of live stock next spring. lack of feed and high prices is influx of cattle at the present time. Cattle raisers and farmers are thought to be rushing their stock to market to escape the high cost of feeding this winter.

Cattle—There was an unusual large run of cattle here for a Saturday, arrivals being earlimated at 2,000 head. Hardly enough of any one class was on offer to make a market however and prices were nominally steady. Today's liberal supply brings the week's total up to 73,145 head and breaks all former records by nearly 12,000 head.

In the face of the heavy supply desirable beef is selling strong to a little higher for the week, but plain kinds are as much as 25@50c lower. Good feeders also closed a quarter higher or more while the less desirable kinds regained all the early decline and closing about steady with a week ago. Following the 75c to 31.00 decline Monday and Tuesday butcher stock advanced 50c before the close of the week. The reaction failed to cover all with a week ago. Following the 75c to \$1.00 decline Monday and Tuesday butcher stock advanced 50c before the close of the week. The reaction failed to cover all of the week. The reaction failed to cover all of the week. The reaction failed to cover all of the early slump, however, and prices are still 50@50c lower than a week ago. Some choice Idaho lambs brought \$15.00 yesterday and good short feds lended at \$14.90 with fair kinds of killers moving around \$14.25.

There has been little change in fat sheep lately and good killer ewes are still selling up to \$7.50; culls and canners as low as \$3.00\$\cdot 4.00. Wethers claim a limit of about \$9.50, and good yearlings are selling around \$11.00\$\cdot 11.50.

Amount of business transacted in feeders this week has been small with tendency to values a little lower. The market on feeding lambs is closing at declines the same as killers. Choice feeding lambs up to \$12.25\$\cdot 2.50\$ taking the medium to good grades. Feeders going to the country under \$11.75 are mostly light weights and common quality and the open wooled grades. Corn Touches Lowest Mark

For Month During Week

Chicago, Oct. 18.—Fresh strength manifested itself in the corn market this week after prices had touched the lowest level in nearly a month. The principal upturn quickly followed a notice that railroads would classify wheat as preferential freight. With wheat everywhere put ahead, it was feared that shipments of corn to primary centers might have to be restricted on a big scale. Corn prices this merning varied from the same as a week ago to 1%0 higher. Oats were up %c 14%1%c for the week, and provisions showed a rise varying from 25c to \$2.

The first signs of new advances in the corn market came when word was received that the longshoremen strike had been cailed off. In this connection it was explained that the strike had been forcing grain to pile up at interior terminals and had brought lake loadings here to a virtual standatill. Buillish sentiment was later emphasized by reports that farmers were showing bias toward a holding policy, and giving increased attention to the relative high cost of other commodities than grain, Subsequently, however, some weakness developed owing to anxisty ggain about President Wilson's health.

Plenty of export bidding helped oats up grade.

McCULLOCH COUNTY LAND OF PROMISE in the TEXAS OIL Fields

Where oil is now being produced and a number of the most substantial and prosperous oil companies in the world are NOW DRILLING DEEP TESTS. They are down to depths ranging from 1,000 to 2,300 feet, and REASONABLY EXPECT TO BRING IN WELLS ANY DAY!

Leases on acres at Ranger. Burkburnett and several other fields in Texas that are bringing today from \$1,000 to \$25,000 an acre could have been bought for \$20.00 to \$25.00 when these fields were in the same stage of development that McCulloch County is in today and any bank in the State of Texas will verify YOU DON'T HAVE TO DRILL

Most of the many RANGER AND BURKBURNETT FORTUNES were not made through actual drilling by lease holders. WISE INVESTORS bought cheap leases IN NEW FIELDS and LET THE LARGE CONCERN DO THE DRILLING. When wells came in these leaseholders SHARED THE PROSPERITY OF THE BIG DRILLING CONCERNS BY SELLING THEIR LEASES AT ENORMOUS PROFITS.

WE OFFER YOU A FIVE-YEAR LEASE ON ONE ACRE FOR TWENTY-FIVE DOLLARS (\$25) OR A TWO AND A HALF ACRE TRACT FOR SIXTY DOLLARS (\$60). The last SIX DAYS at this price. TEX RICKARD, famous promoter of the WILLARD-DEMPSEY contest, owns leases adjoining our property, and MAY START DRILLING ANY DAY. When we receive your order with remittance your lease will be promptly returned to you with notary affidavit. The names of all lease holders are published by the Chambers of Commerce of McCulloch County, so that you can be located when buyers want to purchase your lease.
