## Heart Beats

There's magic In the softly-spoken word-Destruction In the harshly Uttered sound. Unlovely voices Have been the rift Through which Many a good cause Has been lost.
The rasping inharmony—
The gutteral notes—
The squeaking reverberation O' those vitally important Organs of the throat Have sent the honest soul Into a pauper's hell-And temporarily lifted By tone-smoothness The scoundrel to prosperity. Softly-spoken words Have helped the actress Put across her charm-The lack of them -Has wrung death knells To many a great career. They win the preachers' Flocks from wealthy fields-

To tender spots In governors' hearts From which paroles Are given— Or bring the cruel Hand of Law Sometimes upon An inoffensive head. There is a subtle charm-An art in words Well and timely spoken— Words of wisdom Or foolish fun-

As that may be-But always must one's thoughts Be deftly handled—
Words ride a tone Each breath a fine caress An humble slave Has won the rabid master-Lured him to his death

On soft sweet strains-The spirituelle Lifted from muddy byways-And sinners to the realm Or heavenly light. Guard carefully Therefore The harsh blasphemous Vocal vagaries-

Dethroning impulses To cherished heights-And remember there is magic In the softly-spoken word.

### Lesson in Scientific Complexion Renewing

Everyone has a beautiful skin underneath the one exposed to view. Bear that
in mind and it will be easier to understand
the correct principle in acquiring a lovely
complexion. Nature is constantly shedding the top skin in flaky particles like
dandruff, only much smaller in size. In abnormal conditions, or in advancing age,
these particles are not shed as rapidly as
in robust youth. The longer they remain
the more soiled or faded they become—
that's the immediate cause of a "bad complexion."

Halloween evening in honor of their daughter, Bonnie Bernice. The members of a "bad complexion."

It has been discovered that ordinary mercolized wax, to be had at any drug store, will absorb these worn-out particles. The absorption, while hastening Nature's work, goes on gradually enough to cause no meconemec. In a week or two the transformation is complete. The fresh, healthy-houd, youthful underskin is then wholly in evidence. You who are not satisfied with your complexion should get an ounce of mercolized wax and try this treatment. Use the wax nightly, like cold cream, washing it off mornings.
