OMAHA WATER BOARD APPEALS IN WORM AWARD

District Court Asked to Set Aside Compensation for Damages Granted by Secretary Kennedy.

Lincoln, Oct. 23.—(Special.)—The Metropolitan Water District of Omaha is appealing to the district court of Douglas county for an award made by Secretary Frank Kennedy of the department of labor in the case of Ernest Worm, who was permanently injured while in the employ of the water district board. Worm had been an employee of the water department for 25 years and on October 14, 1918, while he was working in a ditch, a meter fell upon his head, injuring him severely. He gradually began to lose his sight and about a month later became totally blind.

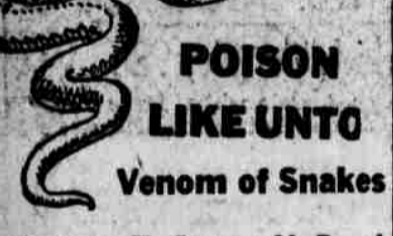

He made application for compensation under the state compensation act and was awarded \$12 a week for 300 weeks and \$9 a week for the remainder of his life.

From the testimony on record in the office of the secretary of the department of labor it appears that a man of the name of Miller was working with Worm and has since disappeared. It is alleged that at the time of the accident Miller had said that the meter slid off the bank upon Worm.

It appears that during the session of the 1917 legislature some influential member of the water board came to the legislature and had the compensation law amended so that in cases of accident to employees of the Omaha water board (Sec. 142) claim for compensation must be filed within 20 days, when in all other cases six months is allowed. It is on the plea that Worm did not get in his claim until after the 20 days had expired that the water board is asking exemption from paying the award.

POISON LIKE UNTO
Venom of Snakes

Professor H. Strauss, M. D., of the Royal Charity Hospital, says, "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there."

"When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; when you suffer with sick headache, or dizzy, nervous spells, acid stomach; or you have rheumatic pains or lumbago, gout, sciatica when the weather is bad, do not neglect the warning, but try simple means. Take six or eight glasses of water during the day, then obtain at your nearest drug store 'An-uric' (anti-uric acid)."

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "An-uric" is an antidote for this uric acid poisoning and dissolves uric acid in the body much as hot coffee dissolves sugar.

"An-uric" will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins.

Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.
