I have observed your sex, once roused to wrath... Are timidly vindictive to a pitch of perseverance, which I would not copy.

After-the-War Speakers Are Coming

The course of lectures which will be given during the coming months under the auspices of the Omaha Society of Fine Arts is now practically completed. It covers a wide range of subjects, and famous lecturers, who have gained distinction in the fields of literature and art will be presented. The list of speakers and the dates are as follows: November 8, Jack M. Beck, "The Crisis." November 21, Coningsby Dawson, "Reawakened Europe." December 12, Vincente Blasco Ibanez, (subject not yet announced.) January 15, M. J. Olgin, "Russian Problems." January 26 and 27, Charles T. Carruth, "Two lectures on art." February 2, S. K. Ratcliffe, (subject to be announced later.) February 26, Prof. George B. Zug, Art lectures. Two additional unannounced lectures. The greatest interest is attached to the lecture by the Honorable James M. Beck, which opens the series. Mr. Beck is a man of letters and a man of law. He has attained distinction in both fields, and he is also widely known as a brilliant lecturer. Mr. Beck supported the cause of the allies in many notable addresses in England, France, and the United States. France recognized his services to the cause by awarding him the distinction of officer of the Legion of Honor and King Albert of Belgium conferred upon him that of commander of the Order of the Crown. Coningsby Dawson has become widely known in both England and America for his remarkable stories of the war. Before entering the service at the very beginning in 1914, he was a New York publisher and art critic. He is an Englishman by birth, by residence and marriage an American. During the spring of 1918 he was temporarily withdrawn from the line and selected to write the triumphant record of America's efforts in France, which was published under the title, "Out to Win," the greatest and most friendly tribute that fighting America has been paid. Although the subject of the lecture by Vincente Blasco Ibanez has not been announced, the very coming of the author of the "Four Horsemen of the Apocollypse" is of the greatest interest. This noted Spanish writer has spent a great deal of his time in jail for his fearless manner of expressing his ideas. Whatever his subject may be it will undoubtedly be worth while. M. J. Olgin is connected with the Kiev and Columbia universities. He speaks on both literary subjects and upon Russian conditions, and will probably talk upon the latter in his address before the Society of Fine Arts. Charles T. Carruth is widely known in art circles. He is from Cambridge, and his lectures will probably deal with the Florentine Renaissance. S. K. Ratcliffe is from the University of London, and his numerous lectures in this country attest to his popularity and the value of his ideas upon whatever subject he chooses. Prof. George B. Zug is from Dartmouth and has achieved prominence in the world of art. His lecture will deal entirely with the subject of art. The speakers for the two additional lectures have not yet been chosen by the program committee of which Mrs. L. C. Nash is chairman and they may not be selected until much later in the season. The course of lectures will be held in the ball room of the Hotel Fontenelle. They will be free to members of the society upon presentation of their membership card, but tickets may be purchased at the door for the separate lectures. The first exhibit given by the society will take place between November 11 to November 22, also at the Hotel Fontenelle. Mrs. E. L. Burke 3646 Burt street, Harney 6285, is membership chairman and is giving information to those interested in becoming a member.

ruin complexion will disappear. It's easy, more economical, too, than using anything else I know. To one ounce of santonine, costing about fifty cents at any drug store, add two tablespoonfuls of glycerine and mix in a pint of water. You will see a tremendous difference in your complexion in a very few days.

SWEET.—Filmy secretions which form on the scalp, and dandruff scales, are all "dissolved" away in remarkable fashion by eggol. Dissolve a teaspoonful of this in half a cup of water. This gives a glorious latherly shampoo and leaves the hair silky. For twenty-five cents you can get enough eggol for over a dozen head-washes. Soaps contain oil-consuming alkali which should be avoided.

MRS. N. O. R.—You will never get rid of blackheads by pinching them, or by face-washing. Here is a remarkable method, instantly successful. Sprinkle some norexin on a wet cloth. Then rub the blackheads with this for a few moments. You will find that they will all vanish very quickly. Norexin is the only thing that will do this. Any drugstore can supply you with the norexin for fifty cents.

S. O. S.—After using this simple and remarkable application for a short time you will find a tremendous difference in the length of your hair. It will be glossy, full of life, and it will stop falling. The thin spots will fill out. To a half pint of water and a half pint of bay rum add one ounce of beta-quinol, obtained from the drug store for about half a dollar. This makes over a pint of this remarkable hair force. You may use a full pint of witch hazel if you prefer it instead of the water and bay rum.

ANSWERS TO QUESTIONS. MISS MANNY—You'll see how wonderfully easy it is to get rid of any superfluous hairs by simply moistening them with aulfo solution, which costs about one dollar at the drug store. It is almost magic. The hairs just dissolve away, and the skin is left smooth and white—no red or irritated spot to tell that you used anything to remove the hairs. It is as glorious and easy to use as a face lotion. MISS S. R. M.—You can positively assure yourself in advance that with the formula given below you are going to have a complexion of surpassing beauty. Every blemish, all unkindness and sallowness that
