LEGISLATIVE H. C. L. PROBE TO HOLD TALKFEST

Solons Have Deep, Dark Secret on Profiteering, to Be Revealed Friday.

Lincoln, Oct. 26.—(Special.)—According to members of the special committee appointed from the legislature to look into the matter of the high cost of living and profiteering, it is probable that an entirely new line of procedure will be adopted which will be able to really fix the responsibility for the high prices in this state.

The committee just now does not care to outline its program, but it will be thorough and among other things will endeavor to discover why the people in a town where a sugar factory is turning out sugar by the thousands tons have to pay in addition to the regular price, freight charges to Omaha and return when the sugar is purchased direct from the factory.

Another item which may be looked into is why last summer a live chicken should bring the farmer only 35 cents a pound and then by the time it reached the consumer the price had increased to 55 or 60 cents a pound, when all that had disappeared from the bird was the feathers and what little blood had been spilled when the chicken met its untimely death.

It may not require a special session of the legislature to solve the problem. It will be simply up to the fellows who have adopted the "make all you can and the public be damned" policy to sit up and take notice and govern themselves accordingly.

Waterworks Employee Gets More Pay Than His Boss

Lawrence, Mass.—John C. Hickey, the highest paid city employe, an engineer at the local pumping station, receives more money than his boss. Old John J. Finnegan, whose annual salary of \$2,500 is outdone by Hickey by \$5. Hickey receives \$37 for a 48-hour week, but gets Sunday overtime, which makes the difference.

Hickey has the better of Finnegan in another regard. He gets his house rent free and a week's vacation in the summer with pay. Another fact about Mr. Hickey's pay is that it is the lowest paid by any municipality in the state for a water department resident engineer.

BERNARD SHAW ATTACKS GREY AS ENVOY HERE

Noted Writer Fears Former Foreign Minister of Britain Will Consider Us Outsiders and Fall Into Jap Hands.

By GEORGE BERNARD SHAW. London, Oct. 26.—Now that Lord Grey has been sent to the United States to represent us there, I am moved by Robert Dell's allusion to me to declare that though I have called the policy of our foreign office during Lord Grey's secretaryship a Machiavellian policy, I do not regard Lord Grey as a Machiavelli. I heartily wish he were.

I think Mr. Dell has hit him off very accurately, except that when an English country gentleman is so "simple-minded" that he never knows what he is doing, and can, therefore, at any moment assure the country in all honor that he is not doing it, his simplicity is not of the kind called loyalty.

I should not myself have sent Lord Grey to America, or even, since our successes in the east, to Jericho. As an English country gentleman Lord Grey regards Americans as outsiders and czars as insiders. He made that clear in his designs upon Morgan Shuster. He may have been right.

But it is not the point, which is that as our relations with America are extremely delicate just at present, and likely to become more so, and as the Americans do not regard themselves as outsiders (possibly again quite wrongly), the appointment of Lord Grey is hardly the masterpiece of tact it has been hailed as by the British press.

Well Received in Society. As to what Lord Grey will do in America, which is, after all, the important thing, he will be well received in American society. The conscious part of him will respond very agreeably to these attentions, and his speeches will be reassuring and quite intelligent and pleasant. And the unconscious part of him will fall into the hands of whoever the Japanese equivalent of Ivolovsky may be, and will maneuver for a strange hold on our most formidable rival, now that Germany is disposed of. What else is there for Lord Grey to do, with his official traditions and his instincts as "a simple-minded country gentleman"?

Now, if there is one point more than another at which the Americans mistrust and dread our old diplomacy, it is the Japanese point. The einkreisung is too obvious. You will never persuade the American diplomatists that Lord Grey has not a secret treaty with Japan in his

is now in this country to purchase and secure agencies in all lines of general merchandise. 154. A man in La Paz, Bolivia, desires to purchase plumbing material and supplies, bath room fixtures, hardware, tools, paints, zinc, tinware, tin, iron and steel goods, electrical goods and supplies, glass, hardwood flooring, medical and surgical instruments and appliances, tractors, agricultural machinery and implements, paper and machinery for the manufacture of tile flooring. 155. Spanish Employers To Lock Out Every Workman in Land

Madrid, Oct. 26.—The congress of Spanish employers, sitting at Barcelona, declared a general lockout of workmen throughout Spain. The lockout order will be effective Tuesday, November 4.

The minister of the interior, in announcing the decision of the congress, said it was an act of provocation against the workers and expressed the hope that the employers would not carry out the measure. "At a moment when the workers are asking nothing," he added, "the action of the employers is foolish."

The congress also decided to make its organization permanent, as a protest against the alleged crimes of the syndicalists and take steps looking to the protection of the employers, a Barcelona dispatch says. The employers declare that their action has been taken as a protest against the government's failure to protect the employers' interests. The employers are dissatisfied with the new social laws granting workers shorter hours and providing pensions.

The government is taking all necessary measures to deal with the situation. The governor of Barcelona has begun negotiations with the employers and workmen, with a view to preventing the lockout.

And that is why I would not have sent Lord Grey to America. I shall be asked, I suppose, whom I would send instead of Lord Grey, the implication being that he is the only diplomatist in the empire. I reply, precisely and without a moment's hesitation, that I should have sent H. L. Mackinder.

Not so much because he is a man of ability so distinguished that he may be classed as one of our few geniuses, because that fact is indubitable in the House of Commons, which is as unconscious of his being anyone in particular as it was for 30 years of Lord Rhonda. I would send him because he knows that North and South America are only a couple of perilously situated islands, and that it is dangerous for us to tomfool with island security.
