

SAY LEADERS OF N. Y. THIEVES IN OMAHA 30 DAYS

Believe Part of \$175,000 Stolen Bonds Still in This City—Messenger Murdered.

Two alleged leaders of a gang of yeggmen said to have robbed a New York bank messenger of \$175,000 worth of liberty bonds August 30, spent 30 days in Omaha.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps you fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria, which infect the bowels.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headaches, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Skinner's the Best Macaroni and Spaghetti Recipe Book Free—Omaha

A HUSBAND FOR A DOLLAR

WATCH AND SEE MORE TOMORROW

one of the high-class downtown hotels, according to advices received from New York police yesterday.

In Delmar's possession was found \$50,000 worth of the stolen bonds, the report to Omaha police reads. Part of the remainder of the other \$125,000 worth of bonds may be hidden or may have been disposed of about Omaha, police say.

Omaha police have been working on the case in conjunction with police of New York and Chicago during the past 30 days. Detectives Paznowski and Murphy were assigned to the case in Omaha.

The bank messenger, from whom the money was stolen, disappeared at the time of the robbery. Later his headless body was found in a field near Hartford, Conn. Identification was made by remnants of his clothes.

There was a reward of \$10,000 for the arrest of the robbers. Other arrests are expected concerning the case, the report from New York police states.

Oleo Is Fast Taking Place of Butter, Says Pretty Demonstrator

"Isn't that a pretty golden color?" asked the pretty demonstrator as she slipped a pat of margarine on a crispy brown Billies Best pancake at the pure food show.

One reason the commercial margarine is so rapidly forging to the front is the improved methods of manufacture. This industry has made prodigious strides in the past few years, until now over \$100,000,000 is invested. The production of oleomargarine is now three times greater than four years ago, with new manufacturing plants being erected almost daily.

Even with 377,000,000 pounds made in 1918, America is not consuming near her quota, as the cheese and butter countries use five pounds to America's one of butter. The American housewife has been slow to adopt oleomargarine in place of butter, but the past two years of high prices have driven many housewives to its use, only to find out that the margarine was just as acceptable as the butter, selling 25 percent higher. It is noticeable at the food show that the margarine is being pushed by half a dozen firms, which, backed by newspaper campaigns, have made it almost a universal household necessity, rather than an occasional makeshift.

Many thousands of housewives have found after trying oleomargarine for the first time, that the results in the kitchen where they used it for shortening and seasoning have been as good or better than any that they have ever secured. They have also found that its use on the table has brought many expressions of approval from even the most critical.

Army Retail Store Will Be Closed to Take an Inventory

The army retail store at the Auditorium was closed yesterday to enable clerks to fill parcel post orders. It will be open this afternoon as usual, but will be closed Thursday and for the remainder of the week, when an inventory of the stock will be taken.

Capt. F. L. Fink, who has had charge of the store since it was opened, will be discharged from the service on November 1. Col. A. M. Shipp will succeed him as manager of the store. A large number of customers are still buying at the store, and the stock is nearly as complete as when it opened, according to Captain Fink.

My HEART and My HUSBAND Revelations of a Wife

The Way "Richard Second" Received Dicky's Gift.

My mother-in-law was the first one of the group in the dining room to give utterance to the astonishment which was consuming all of us at the ridiculous incongruity of the present which Dicky had bought for his year-old son. Her voice held the imperative note which marks extreme exasperation with her, and I saw Dicky shrug his shoulders in resignation to the "gift-giving" which he knew was inevitable.

"Have you taken leave of your senses?" she demanded acidly. "Buying a thing like that for a year-old baby?"

"Across the dining room, framed in the door leading to the kitchen, Katie and Jim were watching the opening of Junior's birthday fete. I saw Katie hastily avert her face, and dodge behind Jim's broad shoulder, knowing that the girl was struggling to keep down a burst of laughter, a happening which would have been fatal to the peace of the dinner.

"Nothing's too good for Richard Second," Dicky said, adroitly playing upon both his grandmotherly pride and that of the name she had chosen for her idolized grandson.

"I didn't need you to tell me that!" she snapped. "But there are any number of things which might be too bad for him, and this is decidedly one of them."

Although my sentiments coincided exactly with those of my mother-in-law, yet I found myself illogically championing Dicky's cause, resenting her criticism of him. Of course, with a wary eye to the success of my dinner, I knew better than to oppose her view openly, but I surreptitiously gave the arm nearest me a little reassuring squeeze as I stood beside him.

"What's the big idea, Dicky-bird?" drawled Alfred Durkee lazily. "Figuring on making the little chap a premier jockey? Now that's what I call playing it low down upon a yearling. How do you know but he'd prefer an art education?"

"He'll need quality," Dicky retorted hotly. "My son has the usual amount of brains and then some, and the inside of his cranium would have to be absolutely empty, to make a success of the career you mention and are supposed to grace."

"Please, children, I'm starving to death," Lillian interposed. Then her tone changed quickly. "Look! Look!" she cried. "What do you know about that?"

We followed her glance and pointing finger to where the baby, whose attention had been suddenly attracted by the big rocking-horse, was stretching his arms toward it, and wriggling in his father's embrace. "Of course!" Dicky said proudly. "Didn't I tell you so?" He swung his small son to the saddle of the horse, gathered the reins and put them in his baby hands. And then—just as if he really comprehended the use of the toy—"Richard Second" kicked his tiny white kid booties against the sides of the horse, jerked the reins his father held and uttered a loud, crowing gurgle of delight. "Guess it's the jockeyship after all," Alfred Durkee commented mournfully. "Too bad. I'd have taken great pleasure training the kid to walk in my footsteps."

Drive for Roosevelt Memorial Fund Goes On Until Saturday

The "Americanization" drive of the Roosevelt Memorial association will be continued until Saturday to enable solicitors to complete their work. It was to have closed Monday.

Practically every school child in Omaha joined the association, according to reports from the Omaha headquarters today. Contributions to the memorial fund have not been counted. The quota to be raised was \$75,000 in Nebraska, and \$25,000 in Douglas county.

Practically every county in the state is to continue the drive for the remainder of the week. It is hoped that every real American in the county will be enrolled as a member of the association before the drive closes.

New Commissioner of Omaha C. of C. to Arrive Thursday

J. David Larson, newly selected commissioner of the Chamber of Commerce, will arrive in Omaha Thursday. He has been attending the International Trade conference at Atlantic City, N. J., during the past 10 days.

Mr. Larson is expected to remain in Omaha two days before returning to his home in Salt Lake City, Utah. He will assume his duties as commissioner of the chamber by December 1.

"But let's have dinner. Go along, get seated anyway. I'll probably have a time separating my son from my gift, which I hope you are ready to acknowledge is a real hit."

"Don't puff him up by agreeing with him," Alfred Durkee urged impassioned. "I won't be able to do anything with him now for a month as it is—he'll insist on his own ideas in everything—you know how he is, Lella."

The girl at his side blushed in a distressed and becoming confusion which confirmed my opinion that there had been some sudden emotional crisis in their relations. That Alfred Durkee had thus appealed to her simply because he wished to seize every opportunity to talk to her, I was certain. I saw Lillian searching at them and knew that she shared my surmise. But little Mrs. Durkee kept her eyes averted from the girl whom her son delighted to honor.

"As we took our places at the table I saw Alfred Durkee bend his head to Lella's, asking her something. She shook her head, looked at him pleadingly, and I saw her lips from the words—"Not yet, please."

(Continued Tomorrow.)

RINGER PRESENTS NEW ORDINANCE TO CITY COUNCIL

Main Feature Is Granting More Authority to Chief of Police.

Police Commissioner Ringer yesterday presented to the city council a new ordinance, the chief feature of which is the proposed granting of authority to the chief of police to promote, demote or reclassify members of the police department without first referring these matters to the police commissioner.

On this subject the new ordinance reads: "Any member of the police department may at any time be promoted, demoted or reclassified on order of the chief of police."

The old ordinance, which Mr. Ringer seeks to repeal, reads: "Any member of the police department may at any time be promoted, demoted or reclassified on order of the chief of police by and with the consent of the superintendent of the department of police."

It is further proposed in the new ordinance to give to the chief of police unrestricted authority to temporarily assign members of the police department to other than their regular duties, such assignment not to affect their classification or pay.

The ordinance was referred to the committee of the whole for discussion next Monday morning.

The new ordinance also increases the pay of patrolmen to \$125 for the first year of service, \$135 for the third six months, and \$140 thereafter. The present schedule is: \$100 per month for first year, \$110 for third six months, \$120 for fourth six months and \$125 thereafter. The salaries of those ranking above patrolmen are not disturbed.

Inspector's Pay Fixed. The pay of inspector of police, a new position, has been fixed at \$175 per month. Commissioner Ringer stated that he expected to name an inspector this week.

A new law passed at the special session of the state legislature authorizes the appointment of members of the police department without the former requirement of residence in Omaha.

Masons Will Conduct Livingston Services. Funeral services for A. T. Livingston, 5019 Underwood avenue, captain at fire engine house No. 17, will be held this afternoon at 2 from the Scottish Rite cathedral. Burial will be in the Forest Lawn cemetery.

Brief City News

Weather Strip—Higgin Mfg. Co.—Adv. Have Root Print It—Beacon Press Electric Washers—Burgess-Nash Co. Dr. Max Block has opened up offices at 603 Brandeis Bldg. Tyler 520.

J. C. Bixby & Son company will install the heating in the new addition to the Eggers-O'Flynn factory. Another Savidge Marriage—Miss Martha Ball of Pasadena, Cal., and Jeremiah G. Edwards were married Monday by Rev. Charles W. Savidge.

Hold Revival Meetings—A series of revival meetings is being conducted at the North Side Christian church by Rev. C. O. Stuckenbruck, pastor of the First Christian church, Council Bluffs.

Won't Grant Injunction—District Judge Wakely refused to grant an injunction against the operation of George Shayshay's "road house" east of Carter lake. The injunction was asked by County Attorney Shotwell upon complaint of people living in that district, who declared it to be a nuisance.

Ten Indictments For Taking Part in Riot of September 28

The grand jury yesterday afternoon brought in 10 indictments in connection with the court house riot September 28.

Fred Rissie is charged with conspiracy to commit murder at the time of the lynching of Will Brown.

Fred Rissie and Morris Borsky are cited together in another indictment on a charge of unlawful assembling and rioting. The names of the others who were indicted are being withheld pending their arrests.

HOW SOOTHING POSLAM FEELS ON FIERY SKIN

Nothing that you can apply to itching, irritated skin can be more welcome than Poslam, for its relief is immediate. Angry surfaces are soothed, cooled, pacified. These quick indications of benefit, showing that Poslam is taking hold, have made many sufferers glad.

WE DIG OUR GRAVES WITH OUR TEETH

Let's, an Italian nobleman, fell sick about his fortieth birthday from excesses in eating and drinking, and was told by his doctors to make his will, that he could not possibly live another year. This was back in the Middle Ages. He, however, dismissed the doctors, and made a study of himself to discover just how little food he could eat and still feel well. He died painlessly at the age of 104 years.

As medical men now fear a recurrence of the Influenza epidemic it is well for every one to be on his guard. In view of the seriousness of Influenza as a result of toxemia (storage of poisons within the body), it is most essential that treatment be directed towards prompt casting out of the toxins, or poisons, from the body. This means that the excretory organs—the bowels, skin and kidneys—should be excited to their best efforts to throw out the poisons. Every one should clean house generally—any thus protect oneself from many germ diseases, by taking castor oil, or a pleasant laxative, such as Dr. Pierce's Pleasant Pellets, which are made of May-apple, aloes and jalap. Take these every other day. This will excite efficient bowel action.

If you suffer from backache, irritation of the bladder and the kidneys, shown by frequent calls to get out of bed at night, considerable sediment in the water, brick-dust deposit, perhaps headaches in the morning, you should obtain Dr. Y. Y. Strain's tablets, which expels the uric acid and the toxins (poisons) from the system. This is called "Anurio" (anti-uric-acid), and was first discovered by Doctor Pierce. By his action on the bladder and kidneys, it excites these poisons, and often causes bladder and kidney disease. After its use the skin becomes clear—no longer those black circles under the eyes, and no longer do you suffer from swollen feet or rheumatic pains here or there. Step into the drug store and ask for Anurio, or send 10c to Dr. Pierce's Invalids' Hotel, 255 Central Bldg., New York, N. Y., for trial tablet, which expels the uric acid and the toxins (poisons) from the system. This is called "Anurio" (anti-uric-acid), and was first discovered by Doctor Pierce. By his action on the bladder and kidneys, it excites these poisons, and often causes bladder and kidney disease. After its use the skin becomes clear—no longer those black circles under the eyes, and no longer do you suffer from swollen feet or rheumatic pains here or there. Step into the drug store and ask for Anurio, or send 10c to Dr. Pierce's Invalids' Hotel, 255 Central Bldg., New York, N. Y., for trial tablet, which expels the uric acid and the toxins (poisons) from the system. This is called "Anurio" (anti-uric-acid), and was first discovered by Doctor Pierce. After its use the skin becomes clear—no longer those black circles under the eyes, and no longer do you suffer from swollen feet or rheumatic pains here or there. Step into the drug store and ask for Anurio, or send 10c to Dr. Pierce's Invalids' Hotel, 255 Central Bldg., New York, N. Y., for trial tablet, which expels the uric acid and the toxins (poisons) from the system. This is called "Anurio" (anti-uric-acid), and was first discovered by Doctor Pierce. By his action on the bladder and kidneys, it excites these poisons, and often causes bladder and kidney disease. After its use the skin becomes clear—no longer those black circles under the eyes, and no longer do you suffer from swollen feet or rheumatic pains here or there.
