

Partly cloudy and somewhat unsettled Monday and Tuesday; cooler by Monday night.

Hourly temperatures: 5 a. m. 36, 6 a. m. 36, 7 a. m. 36, 8 a. m. 36, 9 a. m. 36, 10 a. m. 36, 11 a. m. 36, 12 noon 36, 1 p. m. 36, 2 p. m. 36, 3 p. m. 36, 4 p. m. 36, 5 p. m. 36, 6 p. m. 36, 7 p. m. 36, 8 p. m. 36, 9 p. m. 36, 10 p. m. 36, 11 p. m. 36, 12 noon 36.

DEAD, 6 HURT IN AUTO SMASH

STOCKMAN KILLED IN COLLISION

Speeding Machine Collides With Another Car, Killing Phil Kellogg, South Side Commissioner Man.

DRIVER OF DEATH CAR IS NOW IN HOSPITAL

Six Members of Johnson Family Injured in Crash—Aged Parents of Albert Johnson in Hospital and May Die.

Phil Kellogg, prominent live stock commission man, was killed and eight others were injured, two seriously, in a collision of two automobiles at Thirteenth street and Deer Park boulevard at 3:30 Saturday afternoon.

Mr. and Mrs. Gus Johnson, 3020 Webster street, both aged, the most seriously injured, were taken to St. Joseph hospital in the police patrol. Mr. Johnson is expected to die. Two unidentified young men, both said to have been injured, who were riding with Kellogg in a large touring car, escaped immediately after the accident. They were seen to run south on Thirteenth street and dart between two houses. One's face was covered with blood and the other man limped slightly, witnesses say.

John McKenna, 4609 South Twenty-fourth street, said by the police to be one of the two men who escaped injury from the car in which Kellogg was riding, was found at 8 o'clock last night at Forty-fourth and S streets, in the home of a friend.

McKenna was taken to St. Joseph hospital. Dr. Johnson, who took care of him, said nothing could be said just yet about his condition as internal injuries will probably develop.

A police officer was stationed at his bedside all night. As yet he has not disclosed the identity of the man who is said to have been driving the wreck with him. Nothing is known, the police say, of McKenna's whereabouts following the accident until he was found at 8 o'clock.

The police believe the car was Kellogg's and that either McKenna or the third man was driving.

Others Were Injured. The others injured were: Mr. and Mrs. Albert Johnson, 3483 Larimore avenue, and their two children, Charles and Leslie, 5 and 9 years old, respectively. They were taken to their homes in an automobile by E. W. Gedoth, 2461 South Sixteenth street.

The Johnson family was driving west on Deer Park boulevard. Their car was struck broadside by a touring car speeding south on Thirteenth street, witnesses say. The car was driven by one of the unidentified men who later escaped. Kellogg was riding in the rear seat of the speeding car. The touring car hurled Johnson's car completely around, causing both cars to crash into a telephone pole on the southwest corner of the intersection.

Kellogg's body was found pinned beneath the wreckage. He died 30 minutes later. His skull was crushed and his body badly mangled.

Car Was Speeding. Albert Johnson was driving the car at the time of the accident and attempted to swerve to the left, witnesses say, when he apparently saw the accident was imminent. His aged father and mother, were in the rear seat with the two children.

"As I neared the intersection, I caught sight of a touring car speeding upon me," Johnson said. "I attempted to turn out of the way. The next thing I knew we were hit."

Policemen Ryan and Lickert were at the patrol box at Thirteenth and Vinton streets when Kellogg's car sped south.

"The car was going about 30 miles an hour, I should judge," Ryan said. "A few seconds later I heard a crash."

Albert Johnson suffered severe bruises about the body. His wrist was cut about the face and arms. Their two children, received cuts about the hands and legs.

The county attorney ordered the body of Kellogg removed to the Johnson & Duffy undertaking parlors, Sixteenth and Leavenworth streets.

Another Youth Hurt. In another automobile accident at Twenty-fourth and Mason streets late Sunday afternoon, Kenneth Rubottom, 7-year-old son of Mr. and Mrs. C. T. Rubottom, 842 L-2 North Twenty-fourth street, received a broken nose and severe cuts about the face when he was struck by an automobile driven by H. C. Barton, 3023 Lafayette avenue. The boy was playing in the street and in attempting to run after a ball stepped directly in front of Barton's car, witnesses say. He was taken to the Methodist hospital. His injuries are not serious, hospital attendants say.

Barton was arrested, but later released upon request of the injured boy's father, who was satisfied that the case was purely accidental.

Paraphernalia Does Not Make the Mighty Hunter

Although Congress has given the Attorney-General hundreds of thousands of dollars, he does not seem to be bringing home much bacon.

WARNS COAL MERCHANTS TO BEWARE

Attorney General Palmer Says Same Action Will Be Taken Against Fuel Profiteers as Against Union Officials.

DEALERS HOPED FOR SPECIAL PRIVILEGES

In Letter to Palmer Proposed, in Affect, That They Be Permitted to Charge the Public Any Sum They Wished.

Washington, Nov. 2.—A suggestion from the Wholesale Coal Trade association of New York that the government should not fix a maximum price for coal or interfere with the normal course of supplies and demand during the strike brought from Attorney General Palmer today the vigorous assertion that he would take the same action against persons enhancing prices as he was taking against the union officials.

"The action of the government was taken solely in the general public interest," Mr. Palmer declared, "and I shall not permit it to be used directly or indirectly for the benefit of the employers' side of the controversy."

W. A. Marshall, president of the association, wrote Mr. Palmer recommending that miners who want to work be given protection and that coal consumers be allowed to obtain fuel through the usual, normal channels. He asserted with adequate protection enough coal would be produced to meet the emergency, that fixing a maximum price would curtail the operators' ability to meet abnormal production costs caused by the strike and encourage grand larceny and other crimes.

All alone in her room in the matron's ward at Central police station, Mrs. Ashley looked longingly out a window, brooding over her plight. She made a request to take the dogs out for an airing.

Late Saturday afternoon police took her Bertillon measurements, for she is charged with the offenses of grand larceny and receiving stolen property.

She came to Omaha on September 28 with a bevy of pedigreed dogs to escape the forceful attention of Dr. Grimes, she said, and to get away from his seven children. Mrs. Ashley had been the doctor's housekeeper for several months; she said. Her hobby is dogs. The three English bulls which were taken to the police station with her are valued at \$20,000, according to the state warrant against Mrs. Ashley.

While Bertillon officers were taking her measurements Mrs. Ashley said: "This is the old geezer's revenge. But I'll make him pay for it. He had plenty of children, all right, and I would have married him if I liked him. I left him because he had threatened my life. When I told him I was going away he said: 'There's another man in this and if I find it out it'll be a bullet for you and him.'"

"I thought it was about time to leave. But I'm going back to get square with him."

Mrs. Ashley appeared much worried about the welfare of her dogs and threatened police with lawsuits if any of them should die.

Humor Displayed by Police Officer "Booking" Autoist. Dan Lockman, negro, 2724 Burdette street, truck driver for M. P. McKinney & Co., Sixteenth and Pierce streets, was arrested yesterday at Twenty-fourth and Sprague streets when K. Maloj, 4313 Seward street, ran into the rear of Lockman's car. Lockman was charged with reckless driving. He drove away from the scene of the collision, he said, when he saw there was no one injured and for that offense he was also charged with resisting an officer.

Lockman was released on \$40 bonds. Maloj was also arrested and released on bond.

"I don't see why they arrested me," said Lockman, "the other fellow ran into me. I was obeying traffic rules. One cop said he called to me to stop after I had started away, but I didn't hear him."

Bandits Make No Attempt to Attack Another Town. San Antonio, Nov. 2.—Seventy Mexican rebels under General Andres Almazan, who early Saturday occupied and ransacked the town of Rio Bravo, 50 miles west of Matamoros, Mex., left there after two hours going southwest, according to informants here.

The bandit chief made no attempt to attack Reynosa, 10 miles west of Rio Bravo.

Maj. Gen. Joseph T. Dickman, commander of the southern department, stated that he had heard officially that cavalry troops sent to the border when Mexican rebels appeared at Reynosa had been returned to their station.

Jellicoe Quits Hilo. Hilo, T. H., Nov. 2.—Admiral Sir John Jellicoe of the British grand fleet has departed from Hilo for the northwest. While on the island of Hawaii he visited the volcano Mauna Loa.

STAGE STARS TO AID IN DRIVE FOR RED CROSS FUNDS

Francis X. Bushman, Beverly Bayne and Primrose Seamon Will Appear Today.

Francis X. Bushman, voted the "king" of movie actors in a contest staged by a national magazine a few years ago, will be the auctioneer in the first of the noonday auctions to be conducted on the court house lawn today by the fund raising committee of the Third Red Cross roll call.

While Bushman is auctioning off articles donated to the Red Cross, his co-star, Beverly Bayne, will write Red Cross memberships in the little hut on the court house grounds. This is Bushman's first visit to Omaha, and it will be the first time the famous movie star has appeared in public as an auctioneer.

Will Sign Cards. Miss Bayne, one of the most popular feminine stars of the celluloid world, was enthusiastic at the prospect of helping the Omaha chapter of the Red Cross in its campaign to sign 50,000 members for 1920.

"I am so glad that I will have a chance to help the Red Cross in this drive," said the diminutive star, "and I hope that I will get a chance to meet thousands of my moving picture acquaintances in person here. You know we folks who act for the movies like to get into personal touch with the people who see us only on the screen. It is an inspiration to talk with the people upon whose favor our success depends."

Every person who takes a membership from Miss Bayne at the court house hut today and Tuesday will have the card filled out in Miss Bayne's own handwriting.

Gayety Star Volunteers. Preceding the auction each day, there will be entertainment provided by the local theaters.

Miss Primrose Seamon, star of the burlesque wonder show at the Gayety this week, and a chorus of 18 girls will give a performance preceding the auction today. Their performance will start promptly at 12:15. Miss Seamon appeared in connection with the Victory loan drive in Boston last spring, and succeeded in selling a considerable number of government bonds.

Buglers Will Play. A squad of buglers from Fort Omaha will blow the various army calls, and the big gas cannon from Fort Omaha will be brought to the (Continued on Page Two, Column Five.)

Lightning Prints Tree on Body of Londoner Killed. Medical Man Explains How Etching Came on Skin of Dead Man.

London, Nov. 2.—A medical correspondent of the Mail writes: The death by lightning of a man in North London during the storm was the subject of interesting findings at the inquest. Medical evidence stated that the body was marked with the imprint of a tree, apparently the one under which the man was sheltering, and the coroner commented on the extraordinary nature of the case.

These tree-like arborizations are not so uncommon in cases of death by lightning, and their explanation is not so complicated as might be imagined.

Nevertheless, the extraordinary appearance produced is one of extreme interest not only to the medical profession but also to the general public, and when such cases occur there is always much speculation as to their causation.

The markings on the skin are reddish brown in color, and infrequently resemble photographic imprints of trees or shrubs. But these imprints are not photographs produced by the electric current, as once was thought.

The real explanation probably is that a very weak current is subdivided by the resistance of the tissues causing the rupture of many superficial capillaries, or small blood vessels, thus giving the "tree-like arborization."

Lightning plays other very strange tricks. A girl was once crossing a meadow during a thunderstorm and was struck by lightning and although every shred of clothing was torn from her, she herself merely experienced slight giddiness.

40,000 in Petrograd Die Within Month From Starvation. Helsingfors, Finland, Nov. 2.—Petrograd has been without bread for the last two weeks, thousands of persons dying daily, according to information brought to Helsingfors by a Finn, who escaped from a prison camp at Moscow. The population of Petrograd has fallen below 400,000, he said. Conditions in Moscow, the Finn reported, were much better.

Stockholm, Nov. 2.—A dispatch to the Tidenden from Helsingfors says the famine in Petrograd is assuming terrible proportions. The population of Petrograd has fallen below 400,000, he said. Conditions in Moscow, the Finn reported, were much better.

BACK TO THE MINES IDEA IS GROWING

Confidential Reports Sent to Palmer and Associates Show Tendency in Some Districts to Call Off the Strike.

ATTORNEY GENERAL IS CHEERED BY OUTLOOK

Industrial Commission to Deal Broadly With Present Turbulent Conditions Suggested by Railroad Brotherhood.

Washington, Nov. 2.—Immediate steps for assembling at Washington of an industrial commission to deal broadly with present turbulent conditions, was suggested today by the advisory board of the Brotherhood of Locomotive Engineers.

Deploring "attempt at government by injunction," as a means of settling the coal strike, the board, speaking for 85,000 members, declared injunction proceedings would make conditions worse "and defer, if not defeat, a peaceful settlement."

The board stood out for an industrial commission that would "recognize the rights of all citizens and not be pledged to oppose collectively bargaining."

Its statement, the only formal one bearing on the strike issued here during the day, was considered a direct outgrowth of the miners' walk-out and was prepared after full and careful consideration of all questions leading up to the break between operators and mine workers.

The government's next move in the effort to keep the country supplied with fuel will depend upon what happens in the coal fields tomorrow.

Cheered by Reports. Attorney General Palmer and his associates were cheered today by confidential reports, which were said to show a tendency in some districts to call off the strike. Some locals were asserted to be making efforts to this end. In other places, however, the miners were reported apparently determined to stay out until their demands were granted.

In a general way the confidential reports were along the same lines as press dispatches, showing that the union miners, almost to a man, had quit, while in the nonunion mines work went on without apparent interruption.

With the coal strike benefits cut off by the court, officials believe the miners, or a large number of them, will go back to work, provided they are not urged to stay out and are not swayed by agitators.

Profiteers to Suffer. The Department of Justice is just as determined to arrest and prosecute to the limit coal dealers who take advantage of critical times to profiteer as it is to deal with representatives of the radical element who try to stir up trouble among the miners.

This determination was reflected in correspondence made public today in which Attorney General Palmer administered sharp rebuke to W. A. Marshall, president of the Wholesale Coal Trade association of New York, who protested against any interference by the government with coal prices or supplies. Mr. Palmer declared the government was acting solely for the benefit of the public and that the coal dealers ought to be willing to co-operate in such a national emergency "even to the extent of sacrificing profits."

Some officials said tonight that it might be possible to size up the situation for several days, but the general belief was that the next 48 hours would disclose a "back-to-the-mines" tendency openly confirming the confidential reports.

Delegation Sees Palmer. Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, which suggested the assembling of an industrial commission, headed a delegation which saw (Continued on Page Two, Column Two.)

Profiteers Called "Meanest of Thieves" By Baptist Parson. New York, Nov. 2.—Baptist churches throughout the country were urged to spurn money offered by profiteers, "the meanest kind of thieves," in a statement issued by Rev. Dr. Samuel Zane Batten, secretary of social service education for the American Baptist Publication society.

"Every Baptist church should know whether any of its members are engaged in this nefarious business of profiteering," said Dr. Batten. "The church should refuse to touch the dirty money of these people. No self-respecting church would tolerate in its fellowship a person known to be guilty of highway robbery or horse stealing, and the sin of profiteering is meaner, blacker and more sinful than either of these. The church must make the will of God very plain on this subject."

When we came back to New York we were going to get an apartment just for ourselves, but mother-in-law says she wants to go with her daughter, so daughter goes with her, and now I can't talk with my wife by telephone.

RAT FAMILY NUMBERS

48,319,698,843,030,344,720. London, Nov. 2.—In ten years the descendants of a single pair of rats, if allowed to multiply undisturbed, would number 48,319,698,843,030,344,720, according to figures prepared by a well known scientist. This calculation is an incident of the country-wide campaign being waged against rats, which are said to do a yearly damage in the United Kingdom amounting to \$200,000,000.

RENEW YOUTH BY MILK OF WHALE

Long Beach, Cal., Nov. 2.—Two quarts of whale's milk will renew a man's youth, increase his weight, and give him new strength, declares Capt. John D. Loop, local whale hunter.

Captain Loop and his crew punctured the under of a whale while they were butchering the nerve, spurted about 10 feet, about 60 gallons was obtained and all but one of the men drank thereof.

Within a few days, Loop stated, all those who drank it were markedly more vigorous and healthier than the abstainer.

SEND DOGS TO RAT KILLING SCHOOL

Paris, Nov. 2.—Much barking and some howling betrays the Parisian ratomane, says the Paris Daily Mail. Fox terriers take their turn in the high circular cage in which they learn to catch and kill the fearsome sewer rat.

Any afternoon you may see them at their work if you have the nerve to look on, for the dog by no means has it all his own way with his first rats.

It is quite a costly school for the dog owner. The show pupil, a tiny fox terrier, is said to kill the creatures as fast as they can be put into the cage. Thirty per minute is the record established by a bulldog with an imposing pedigree and lower lip.

TAKE GOOSE FEATHER FROM INFANT'S NECK

Long Beach, Cal., Nov. 2.—The nine-months-old daughter of Mr. and Mrs. C. D. March, 1230 West Ocean Blvd., is recovering after an illness which puzzled physicians until an abscess on the infant's neck developed sufficiently to warrant its being opened, and from it was taken an inch-long goose feather, which had worked its way, pointed end first, through one of the infant's tonsils and the tissues of the neck, is supposed to have come out of a pillow.

ARTIST'S MODEL HELD IN THEFT OF MAN'S RING

New York, Nov. 2.—Marion Brooks, 20, who says she is an artist's model, was held in \$2,500 bail on a charge of grand larceny. L. J. Lowe, an official of the United States Shipping Board, says she filched a diamond ring from him.

Lowe testified that while he was dining with Miss Brooks the young woman induced him to let her try on his diamond ring. Later she said she had lost the ring.

GRAFTING OF PRISONER'S GLANDS IS SUCCESSFUL

Los Angeles, Nov. 2.—Affirmed confirmation of the transference of the processes obtained by transplanting glands in prisoners at San Quentin penitentiary was made by Undersheriff Edward D. Zehner. Glands in one instance were removed from a man about to be hanged and their transplanting to the body of an older man resulted in youthful vigor being obtained in a once decrepit body, Zehner said.

DOESN'T WANT LAWYERS NIBBLING AT ESTATE

Ambler, Pa., Nov. 2.—By her will, admitted to probate, May Fryburg, late of Upper Dublin, objects to lawyers having anything to do with the settlement of her estate, on the ground that she worked hard for the money saved and did not want it dissipated in attorney's fees.

She gives \$10,000 to a sister, Mrs. Josephine Brady, and the remainder to her children. She directs that her sister, Mrs. Brady, take her bank book and building association book to the proper authorities, stating: "I know she will do what is right. I want no lawyers to have anything to do with it, as I have worked hard for my money and do not want any one to interfere with it in any way."

MAN CAPTURES DEER IN FIGHT WITH BARE HANDS

San Jose, Cal., Nov. 2.—W. V. Ramos of Mountain View cornered a three-point buck in a hay field near the town of Mountain View, by the antlers, holding him during a half-hour battle before help arrived.

Ramos was bruised and scratched, but otherwise uninjured. The deer was killed.

SEVEN HUNDRED WAR DOGS MARCH IN PARADE

Milan, Nov. 2.—A feature of the recent military review was the march past of 700 war dogs, including some wearing war stripes and decorations. They were heartily cheered.

HONEYMOON AT PLACID DOESN'T RUN SMOOTH

New York, Nov. 2.—Mother-in-law's place is in the home, as on the honeymoon, Frank R. Kent of Brooklyn believes, and Magistrate Sweetser, before whom Mr. Kent was arraigned in the west side police court, agreed with him. Mr. Kent was arrested on complaint of his mother-in-law, Mrs. Margaret Wiley of 2612 Broadway, on a charge of disorderly conduct. She said he had threatened her.

"Seven weeks ago," said Mr. Kent, "I married the complainant's daughter, Grace. This woman"—pointing to Mrs. Wiley—"said she wanted to go along on the honeymoon to Lake Placid. I said no, but she was not to be swayed any more. Why, I couldn't hold my wife's hand on the train, judge!"

"When we came back to New York we were going to get an apartment just for ourselves, but mother-in-law says she wants to go with her daughter, so daughter goes with her, and now I can't talk with my wife by telephone."
