

NOW DEBATING ON PRESIDENTIAL POSSIBILITIES

Most of Potential Candidates Mentioned by Official Washington Are to Be Found in Senate.

By DAVID M. CHURCH, International News Service Staff

Washington, Nov. 2.—"Picking the presidential candidates" is the great indoor sport of congress these days.

Between intervals of debate on the peace treaty and discussion of strikes members of congress spend their time in the cloakrooms discussing potential presidential candidates.

Most of the potential candidates who are waiting for the lightning to strike are in the senate. The democrats have a few possible candidates who are in private life and some who are in the cabinet, but republicans are at present popularly supposed to be resting their hopes on certain senators.

Senator Never President. Official Washington generally picks its pre-convention candidates from the senate.

Progressive republicans now are laying their bets on Senator Hiram Johnson of California as the next republican candidate.

In the democratic camp the gossip runs considerably outside of the halls of congress. There are three candidates most frequently mentioned.

Counting Wilson Out. President Wilson's illness has given greater confidence to the potential candidates in the democratic party.

Among those who are now also mentioned are Senator Foraker of Ohio, Senator Myers of Montana, Bernard M. Baruch, Colonel Howe, Senator Underwood and Vice President Marshall.

Of course, there are some very likely candidates in the states, including a few governors and some military men and also a few business men.

AT THE THEATERS

FRANCIS X. BUSHMAN himself and Beverly Bayne herself were at home to a considerable concourse of the neighbors at the first theater last night, when they played "The Master Thief."

Long experience before the camera has given this popular pair certainty of movement and posture, a definite poise that is one of the actor's most valuable assets and which is seldom acquired through ordinary methods.

And Mr. Bushman is kept as busy as a star ought to be through the prologue, three acts and four scenes required for unfolding the really interesting mystery yarn that almost explodes in the tremendous climax right at the end.

Mr. Bushman is humanly effective, even when he might easily be stilted, and through all his scenes moves quietly and easily to the result aimed at.

Mike Sacks is pretty nearly a whole show in himself, but he takes breathing spells and allows the chorus, the singers, dancers and other comedians to add their mite to the progress of "Oh, Baby," which began its stay at the Brandeis yesterday afternoon.

Mr. Sacks is droll, unctuous, steady working and never goes beyond the easy limits of good taste to get his laughs. The songs are new, the ensemble numbers well arranged, the music worthy and the music carefully selected, while costumes and scenery are lavish and in perfect harmony with the many spectacles presented.

Gus Edwards, in his "Welcome Home Song Revue," at the Orpheum this week, may be said to be welcome to Omaha, judging by the reception which was accorded him yesterday at the opening.

Lydia Barry is back again with her original manner of saying and singing just what is on her mind. Her personality and style of attire carry her a long way into the good graces of her audiences.

At the Empress "Going Some," a miniature musical comedy, delighted patrons of the show opening Sunday afternoon. The headline attraction is supported by Bill Pruitt, the cowboy minstrel; Lee and Lawrence, who have an interesting act, and the Levine trio, a most entertaining combination.

New Building Proposed for Police Station and City Jail

Designed to Be Four Stories and Basement High—Absolutely Fireproof—Offices Conveniently Arranged to Care For All Divisions of the Department of Public Safety.

The proposed new police station and city jail has been designed in the Italian renaissance style. It is to replace the old city jail, now located on the southeast corner of Dodge and Eleventh streets, and will face on Eleventh street, with the main entrance at the center of the front.

The building is to be four stories and basement high with the floor of the first story on the level of the Dodge street entrance. Provision is made in the rear of the Dodge street portion of the building for a fire company with accommodations for three pieces of apparatus.

The first story will contain an assembly room for police, quarters for captains, sergeants and desk sergeants. A large vault, search room and store room, are provided in connection with the desk sergeant, and the fire department will be housed on this floor.

There will be a passenger elevator for the public, and a jail elevator, both of which will pass through and connect all stories. A public staircase will be in the front lobby and a jail staircase in the prisoners' corridor.

The second story will be given over to offices for the chief of police, detectives, an assembly room, telephone room, toilets, sleeping quarters for the firemen.

The third story will contain the police court room, with offices for the judge, attorney, and clerk of the court; also the Bertillon and telegraphic departments.

The fourth story will contain a large cell room for men prisoners, with accommodations for 100, also women's and juvenile cells, properly segregated; quarters for the matron, surgeon, operating room and infirmary.

The building will be constructed according to the very latest requirements of fire proof construction, of reinforced concrete throughout, with all standing finish of metal as far as possible. The floors will be hardened concrete, partitions of hollow tile, and windows framed in metal with wire glass.

The first story will be of Bedford stone, and the body of the building above this of dark red brick laid in white mortar. Plans for the new building, drawn by George L. Fisher, Omaha architect, were designed to produce results devoid of the severe character usually adopted for buildings of this class.

Two new and important measures to be launched tomorrow in the senate are the sugar control bill of Senator McNary, republican of Oregon, and shipping policy bills by Chairman Jones of the senate commerce committee.

Although senators and representatives are greatly disturbed by the coal and steel strikes and other industrial disturbances, the general feeling at the capitol seems to be that at present there is little congress can do.

Of extraordinary interest, not only to lovers of the motion picture, but likewise to all who appreciate the highest art in its various manifestations, is David Wark Griffith's screen creation, "Broken Blossoms," which began a full week's run at the Riato Sunday.

There are many significant "bits" of character in "Broken Blossoms," that have a great deal to do with creating that "atmosphere" through which the true poetic beauty of the picture is felt.

SPECTER OF GIRL HAUNTS VILLAGE OF COAL MINERS

Raps on Doors in Carbon, Pa. Said to Be Ghost of Indian's Victim.

Greensburg, Pa., Nov. 2.—Residents of Carbon, a mining village southwest of here, are on edge over the weird nightly roamings of what is declared to be a ghost, clad in a snow white gown.

This ghost, it is said, has on three different occasions, between midnight and 1 o'clock, aroused Peter Olsson, a Norwegian miner who lives alone in a small house, with its strange rappings on his door, more vigorous than those of Poe's raven.

Oleson arose promptly on each occasion, and when he opened his front door the figure of what he believed was a young woman in a white robe stood on the step.

William Maiers, a grocer and local "ghost authority," says the nocturnal visitor is the ghost of a pretty young woman captured by the Indians in their flight from eastern Pennsylvania a century and three-quarters ago, with the intention of making her the bride of one of the Indian chief's sons.

Fixing Date for Final Vote on Peace Treaty Will Be Decided Today. Washington, Nov. 2.—The question for fixing a date for a final vote on the German peace treaty—a question which involves incidentally an approximate time for adjournment of the present session of congress—will come up for action Monday in the senate.

Possibility of agreement on the order of the dominant question is not viewed with optimism either by republican or democrat leaders. Predictions were general tonight that no agreement of any kind would be reached and that the treaty's consideration would proceed as usual.

Jury Trying O'Neill Man for Murder Fails to Agree on Verdict

West Plains, Mo., Nov. 2.—(Special Telegram.)—A jury in the Carter county circuit court at Van Buren Saturday failed, after several hours deliberation, to agree on a verdict in the case of Frank Welton, who is charged with the murder of his 25-year-old wife, Pearl Welton, last January.

Mrs. Hofland was brought to Van Buren from Jefferson City where she is serving a 10-year sentence in the penitentiary for the murder of Mrs. Welton. What influence or circumstance caused her to change her story in which, until Saturday, she steadfastly shielded Welton, is a mystery.
