Thompson Secures First Fall, But Loses Next Two and Match

Fulton, Mo., Nov. 6.—(Special.) Walter Thompson, director of physical education at Y. M. C. A. at Omaha, threw a scare into the followers of Jake Reed, Fulton heavyweight wrestler, when he got the first fall here, Wednesday night, with a body scissors and double wristlock in 23 minutes. Thompson is first of the numerous wrestlers who have met Reed in the past two years, to secure a fall over him. Reed was handicapped with a broken rib but worked hard and secured the next two falls with his famous toe hold. Thompson outweighed Reed 25 pounds. GRAIN MARKET

Omaha Grain. November 6. Grain arrivals today were 65 cars of wheat; 37 cars of corn; 21 cars of oats; 1 car of rye and 2 cars of barley. Wheat prices were higher, 30¢ hard bringing \$2.61. Corn was 2 to 3 cents up, the top of \$1.43 obtained for No. 1. In the local market, call money opened at 12 per cent, rising later to 24 per cent, then breaking to 10 per cent, from which price another advance to 10 per cent was reported. After the close of the market 3 per cent was fixed as the low quotation, which was the watchword in peace as well as in war, and upon the willingness of the people to bear for a few years sacrifices which would be small, compared to those made by the soldiers who had fought for the nation.

FINANCIAL

New York, Nov. 6.—The stock market was extremely unsettled and reactionary today, the trend of prices was downward to a greater degree than at any previous period of the year but the monetary situation. Cumulative signs of higher credits, not only in this market, but all over the world, were furnished by the Bank of England. That institution advanced its rate of discount from 5 to 6 per cent, the lower rate having been effective since April, 1917. In the local market, call money opened at 12 per cent, a quotation only once before attained this year, rising later to 24 per cent, then breaking to 10 per cent, from which price another advance to 10 per cent was reported. After the close of the market 3 per cent was fixed as the low quotation, which was the watchword in peace as well as in war, and upon the willingness of the people to bear for a few years sacrifices which would be small, compared to those made by the soldiers who had fought for the nation.

ELIHU ROOT SAYS PROHIBITION NOT WITHIN THE LAW

Argues That Passage Was Consummated Under False Pretenses and Beyond Power of Congress.

New York, Nov. 6.—Elihu Root argued against the constitutionality of the prohibition enforcement act in the United States district court today, saying that its passage was under false pretenses and beyond the power of congress. He was associated with William D. Guthrie in the suit of Jacob Ruppert, who seeks an injunction against the local United States attorney in order that sale of 275 per cent beer may be resumed. Two other suits involving the constitutionality of the act were also argued and Judge Hand took all the day.

Financial Outlook For France Is Best, Says Treasury Head

Paris, Nov. 6.—Optimism over the financial future of France was expressed by Louis Klotz, the minister of finance, at a luncheon given today by the economic and financial press. The rehabilitation of the country, he said, depended upon confidence, which was the watchword in peace as well as in war, and upon the willingness of the people to bear for a few years sacrifices which would be small, compared to those made by the soldiers who had fought for the nation.

South Side HAS NO FEAR OF A HOG SHORTAGE, REPORTS EXPERT

Says Farmers' Cry of "No Hogs in Country" Is Clever Market Camouflage.

Reports of a hog shortage in the country have been largely over-drawn, says Harry Booth, representative of a large packing company, who visited the yards Thursday.

Mr. Booth is authority for the statement that in his opinion the forecast of the government of a 5 per cent decrease in hog market supplies is larger than warranted. He said the trade had long ago "got wise" that reports of farmers of "no more hogs in the country" is a sort of propaganda, as they make the same kind of talk when there is a surplus of hogs.

"The country has been remarkably free from swine plagues the past season," said Booth. "The quality and condition of the sows at all markets this summer and fall have been unusually good and this, together with the small percentage of pigs in the receipts, would seem to bear out a promise of plenty of pigs next spring.

"I think we will get all the hogs we need, and even seeing cheaper than a year ago, hogs ought to show more weight this winter. I am not looking for any serious reduction in the number of hogs marketed during this packing season, and will see the increase in weight will offset any decrease in receipts."
