

..A YEAR OF PEACE

The '75' LAMP

THE LAMP, made from the shell that made History.

THE "Seventy-Five" shell French Lamp is a beautiful and efficient portable lamp, an invaluable souvenir and handy "friendly smoking set" all in one. It is made from a genuine "75" M. M. shell—these lamps are also made with a beautifully designed shade.

The design is symbolic of Peace, with a submotive of victory, this shade is regarded as one of the most remarkable accomplishments in decorative art of recent years. Each lamp bears the inscription, Nov. 11, 1918, is also equipped with adjustable shade. The smoking set feature is a very clever, valuable novelty. We were only able to buy a limited quantity of these lamps. They are going fast, when they are gone—(there will be no more). Now is the time to act, take advantage of this remarkable opportunity.

How Spinal Defects Occur

Many persons have asked how the vertebra can press the nerves and shut off the life-giving energy and cause weakness and disease in certain parts of the body. The spine protects the spinal cord through which energy passes from the brain to the network of nerves that supply every part of the body. The spine is made up of separate movable parts that are easily displaced and are sensitive to every strain and jar.
