MEN in the field, in the trenches, in water soaked billets, at the gun breeches and in all the phases of battle where nerves were strained to the point of snapping and where human endurance was taxed beyond imagination, could not be relieved by ordinary inside varnishes. It was after the long strain of fighting was over that the long taxed nerves needed re-alignment—ADJUSTMENT.

Causes of Fatal Pressure

In fact there are many contributory causes that led to defective spines and they are present every day of life. Before, during and after birth the weak and tender spine is easily affected. The manner in which a child sits at the school desk, or the position of the man or woman while at work is likely to cause defect and curvature. Strenuous work, blows, sudden twists or strains from carrying heavy weights are likely to throw the spine out of plumb. This brings about the pressure upon the nerves and throbbles or obstructs the life-giving nerve currents, thus leading to DIS-ease.

The Intelligent Way to Wash

9:00 A. M.—Drop the soiled clothes into the steaming water of your Laundry Queen Electric Washer. Start the little motor and leave the machine to do the work.

9:15 A. M.—Run the clothes through the motor-driven wringer into the rinsing tub, then through the wringer again into the blueing water. Wring once more and hang up to dry.

9:20 A. M.—Repeat the above with the second batch of clothes.

9:40 A. M.—Repeat with a third batch of clothes if a large wash makes it necessary.

10:00—FINISHED. Total cost 5 cents.

PLUCK PATRIOTISM PROGRESS

We rejoice! Out of the gloom of five years of war when the leading nations of the world strove in mortal combat to stem the rising tide of barbarism, came peace and with peace came a time of unlimited prosperity.

By fire and sword the world has been awakened to a new and finer way.

We rejoice that when the call came, men of this institution leaped forward to place their shoulders to the wheel. Within the year everyone has returned to us in his old or in a better capacity.

This new day calls for new methods, new and better standards of service and helpfulness. And we, the conveyors of the printed word, the necessary forerunners of modern business, education and progress must be ready to do our share.

Unable in our present home to meet the demands of today, we are already erecting a new and larger office and plant. Within a few weeks we will be in this new home at 12th and Harney Streets
