AGGIES TAKE DAY OFF TO CELEBRATE ARMISTICE

Raleigh, N. C., Nov. 11 .- Denied a holiday for the celebration of armistice day, more than 500 stu-dents at the State Agricultural col-lege here voted to take the day off and arranged their own celebration program. In the heart of the city buglers sounded "taps," while the 500 khaki-clad students, headed by the school service flag bearing several hundred stars, paraded through the streets carrying an immense cof-fin on which the word "Germany" had been painted. Later the coffin was buried with elaborate ceremony.

AMERICAN IN GERMAN

ARMY LONGS FOR HOME. Berlin, Nov. 11 .- Otto von Buelow, native born American, 23 years old and hailing from New York, enjoys the distinction of being the only American today wearing the German uniform.

Young Buelow fought for the kaiser for 18 months, part of the time even against his own countrymen. He is now helping to steady the still shaky German republic as the only American member of the "reichswehr," better known as better known as "Noske's guard."

As an 18-year-old boy he was arrested on the charge of complicity in the blowing up of Bethlehem steel mill No. 4, and a powder plant in Virginia. He was imprisoned on a school ship, but after a daring escape went to Christiania as a sailor on a Norwegian ship.

Though not speaking a word of German, he enlisted in the German army at Stralsund, in 1915, fought months on the Macedonian front, later saw service on other theaters of operation to the end of

the war and was wounded once. Unable to find work after the army's collapse, he was forced to enlist in Noske's guard, getting five marks (\$1.25) a day. Since, with his enlistment in a foreign army, he automatically lost his American citizenship, it is argued Buelow could not be charged with treason, as Germany was not then an enemy

of his native country. Buelow bitterly regrets his enlistfrom his parents since his escape. . (Continued on Page Two, Column Two.) logne, is dead at his residence here.

Martial Law Declared in North Dakota and Governor Orders State Troops to Seize Lignite Mines.

Bismarck, N. D., Nov. 11.-Gov. L. J. Frazier announced that he had proclaimed martial law in North Dakota and that the state would take over the lignite coal mines at once, following failure of miners and operators to come to an agreement last night as requested by the governor.

Governor Frazier ordered the adjutant general to assume charge of the situation at once.

Washington. Nov. 11.—Having forced the miners to call off the coal strike the government set out today to help them negotiate a new

Mail Order Rescinding

Strike on Court Mandate

Indianapolis, Nov. 11 .- While the representatives of the United Mine agreed to comply with the man-date of United States District Judge Anderson and late today mailed an order rescinding the strike, were discussing the future policy of the organization, telegrams were re-ceived from Secretary of Labor Wilson, and Thomas T. Brewster, chairman of the operators' scale committee, by John L. Lewis, acting president of the miners, inviting the miners' representatives into a conterence.

Mr. Lewis on behalf of the min ers, accepted the invitation of Secretary Wilson to meet the operators of the country, in Washington next Friday morning at 11 o'clock and replied to Mr. Brewster, who requested a meeting of the central competitive scale committee with Washington Monday, November 17 "to negotiate a contract to be in force upon the termination of the contract now in effect," that the miners already had accepted the invitation of Mr. Wilson.

Although the strike has been called off, the court action in the strike case has not been completed by any means. The miners' attorneys are preparing their writ of error with a view to appealing the case to the United States circuit court of appeals and expect to file their petition for this step within the next two or three days.

opening advance of 2 to 6 points,

based on the calling off of the coal

miners' strike. That development exerted only temporary influence, prices falling back within the first hour. Even before call loans opened at 14 per cent, the year's highest initial rate, the market began to sag.

The remittances to London, Paris and Rome broke to discounts never before recorded in this market. Not until the final hour, however when call money rose to 20 and then 25 per cent, did the stock market become actually demoralized. Large blocks of speculative shares were of-"fered "at the market," or for any price that could be had.
