

MINER DEMANDS IMPOSSIBILITIES, ASSERTS WILSON

Sixty Per Cent Increase in Wages Cannot Be Granted, Secretary Says at Conference.

(Continued From Page One.) scope of the agreement to be negotiated involving the question of recognition of nonunion workers developed at the outset of the conference and became more apparent in the two group meetings which followed.

Discussions in Caucus. Discussions in the miners' caucus which followed the conference session hinged on the question whether operators representing both union and nonunion fields would be included in the conference and the effect any agreement reached by the conference might have in those fields where the miners do not have contracts with the operators. Although officers of the United Mine Workers refused to make any statement following their meeting, it was learned that the plan for a nation-wide conference was favored, but before any proposal is agreed to Secretary Wilson will be asked to make clear to the conference that the rights of organized labor are to be protected in those districts where the mining unions are not recognized by the coal companies.

The operators, however, did not look with favor on an agreement covering all fields. The Washington wage agreement for the first time, the operators asserted, fixed the same date for the expiration of contracts between miners and operators in all parts of the country. Fear of the power this arrangement gives the workers to bring about a nation-wide strike was expressed by the operators, who indicated a de-

sire to return to the old plan of basing all wage scale contracts on the agreement reached in the central competitive fields.

Both miners and operators asserted tonight that Secretary Wilson's address would have a powerful effect in bringing closer together the extremes on both sides. The secretary's address, which was heard by approximately 250 members of the conference in absolute silence, was delivered slowly and apparently with deep feeling and conviction. The only applause of the session greeted Mr. Lewis, when he entered the hall about 15 minutes late. Secretary Wilson had delayed calling the meeting to order until the miner's chief arrived.

The operators continued in session late hour tonight and their conference broke up without announcing a conclusion as to the proposals made by Secretary Wilson. T. T. Brewster, chairman of the scale committee for the central competitive field, said, however, that before the Saturday session opens he would be ready with some plan for the joint session to pass upon.

Grand Jury Ends Work by Giving Haze a Clean Bill

(Continued From Page One.) conspire with him against the reporter.

Information which came into the possession of The Bee last night indicated that Captain Haze's case would be reopened. It was also suggested that there would be other serious charges against persons, who are alleged to have been involved in the conspiracy against the accused reporter.

Contempt Case Postponed. Judge Redick yesterday postponed until next Monday morning the hearing on the information filed last Tuesday by County Attorney Shotwell citing the Bee Publishing company, Victor Rosewater, editor, and J. Harry Moore, a reporter for The Bee, to appear in court Friday morning to show cause why they should not be punished for contempt of court.

The case went over until Monday because Mr. Rosewater, one of those mentioned in the information, was not served with notice of the charge until yesterday. The information filed by the county attorney was based on an article published in The Bee last Sunday in which affidavits of Morris and Thorp were reproduced stating that they had entered into an agreement with Capt. Haze to "frame" on Mr. Moore in connection with the court house riots.

Mr. Moore was indicted for conspiracy in connection with the riot on Thursday of last week, upon the testimony given by Thorp and Morris who have themselves been indicted and pleaded guilty to unlawful assemblage and rioting and are now serving 90-day sentences in the county jail.

The information filed by County Attorney Shotwell last Tuesday based the contempt charges on the article in the Sunday Bee, alleging that the article was "wilful and contemptuous matter" in that it was calculated to impede the administration of justice.

Larkin, Irish Labor Leader, Is Held for Grand Jury

New York, Nov. 14.—James Larkin, Irish labor leader, and Benjamin Gitlow, former assemblyman, charged with advocating criminal anarchy, were held for the grand jury by Chief Magistrate McAdoo.

Before announcing his decision Mr. McAdoo scathingly denounced the activities of radicals in this country.

Canadian Railroadmen Are Granted Salary Increases

Montreal, Nov. 14.—After negotiating since May 1 the Canadian railway war board and the representatives of 35,000 members of the shopmen's union have agreed upon wage increases and changes in working conditions. The agreement follows largely the lines of a recent award to railway shopmen in the United States.

Rights of the Public Must Take First Place, Says Rep. Andrews

Washington, Nov. 14.—(Special Telegram.)—Speaking upon the labor provisions of the railroad bill Representative W. E. Andrews urged that in any settlement proposed by congress, the rights of the public should be kept in mind. He spoke of the development of labor organizations and the fact that now they have arrived at the zenith of their power, which seems to be well nigh, if not altogether, paramount to the power of capital.

Continuing, he said: "Now the public comes to the congress of the United States to speak upon this question in relation to capital on the one hand and labor on the other. The public is now an active partner, it has assumed control and its duty is to exercise control over labor and capital alike on the grounds of justice and equity."

"From the fact that we come today to decide this important question with respect to the labor of the country in its relation to the capital of the country, I want to emphasize this central idea that labor and capital have no right to trespass upon the superior rights of the public. Each must answer to these superior rights."

"For years, however, the world has gone forward upon the assumption that labor disputes are executive question to be debated only with labor and capital, the employer and the employe. This bill and these amendments should recognize the rights of the public."

Union Plan in Esch Railroad Bill Adopted

(Continued From Page One.)

firemen, the conductors and the trainmen; another would include the machinists, the boiler makers, the blacksmiths, the carmen, the sheet metal workers and the electrical workers; and the third would include the telegraphers, the switchmen, the railway clerks and the way and shop laborers. Railway executives would name four, six and four representatives, respectively, as members of these boards.

Corresponding to each board there also would be set up a commission to consider appeals, which could be sent to them by half the members of a board. These commissions would be of the same size as the boards, with the select method of choosing members obtaining, but with duality of membership between boards and commissions prohibited. Headquarters of all six tribunals would be in Washington.

I. W. W. Send Death Note to Legionaries

(Continued From Page One.) Pitts is manager of the Spokane office of the state veterans welfare commission and Albi is president of the Fliers club, an organization of former service aviation men. All have been active in affairs of the American Legion in the northwest.

The letter said in part: "Decry Stand Taken. For the past two or three months the Spokane chapter of the I. W. W. has been watching the activities of several leaders of the American Legion. You have taken an open stand against the I. W. W. Allow me to state at this time that the American Legion in Spokane is doomed and will be curbed by the working classes."

"Our members have instructed me to write you at this time notifying you that unless the following men discontinue to create hatred against the I. W. W. of Spokane, that they will follow in the footsteps of the marked ones at Centralia." Then followed the names: Fifty-eight alleged members of the I. W. W. are held in jail at Spokane on charges of criminal syndicalism. Commissioner J. H. Tilsley, of the department of public safety has forbidden "workers' meetings" scheduled for Saturday and Sunday evenings.

Prosecuting Attorney Askren of Tacoma announced late today he intended proceeding immediately against 66 alleged members of the I. W. W. held there on charges of criminal syndicalism. Advances received at Aberdeen, Wash., said I. W. W. were respon-

sible for the riddling with bullets of a large community flag flying on a hill above Chehalis today. Governor Louis F. Hart today reiterated his announcement "that all members of the I. W. W. in Washington must go."

To File Murder Charge. Centralia, Wash., Nov. 14.—Arrangements were made today to file murder charges against 11 men, 10 of them already arrested, following the attack of alleged members of the I. W. W. on the armistice day parade that resulted in the deaths of four former service men. Public memorial services for the four victims of the shooting were held here under the auspices of the American Legion.

Search was continued in nearby towns for 16 alleged I. W. W. who were reported en route to Centralia bearing arms. The failure of the coroner's jury to fix responsibility for the deaths of the four former soldiers, C. D. Cunningham, assistant county attorney, declared, would not affect the cases of the I. W. W. held in jail. He said the prosecution had witnesses who were in the front ranks of the parade and who insist shots were fired from the I. W. W. hall before any of the marchers started toward the hall. Cunningham was of the opinion Dr. Frank J. Bickford, who testified at the coroner's inquest that one of the marchers had put his foot against the door of the I. W. W. hall before a shot had been fired, failed to hear the first shots and saw only the crowd of marchers moving towards the hall.

Bert Bland, an alleged member of the I. W. W., who, according to Cunningham, will be charged with the murder in connection with the

Striking Steel Workers Stand Firm, Head Says

Pittsburgh, Nov. 14.—At the close of the eighth week of the steel strike, John Fitzpatrick, chairman of the national steel strike committee, issued a statement in which he declared that the "steel industry is crippled because the laborers in the mills, the so-called foreigners, are striking and standing like a wall in a fight for American conditions of labor and American rights."

Representatives of the steel companies said they had no reason to alter the statements they have so often made recently, that the "mills are in operation and the men are returning to work."

In the Wheeling district employes of the Actna Standard plant of the American Sheet and Tinsplate company voted to return to work.

Makes Altitude Record

Rome, Nov. 14.—(Havas.)—A military pilot named Liert has broken the speed record for altitude, reaching a height of 5,000 meters in 11 minutes.

shooting is being sought in nearby towns. He is the only one of the eleven alleged I. W. W. who are to be charged with murder, not in jail.
