NONPARTISANS EXPLAIN PLANS FOR GOVERNOR

State Socialism Opposed by League Manager — Replies to McKelvie Speech.

Lincoln, Neb., Nov. 18.—(Special.)—Jesse B. Johnson, state manager of the Nonpartisan league, sent the following letter to Gov. S. R. McKelvie in reply to statements made by him in a speech at St. Louis.

"According to the newspapers you recently before some manufacturers' association in St. Louis, made a speech in which you referred to the Nonpartisan league as standing for state socialism.

"You made that statement either because of ignorance of the principles of the Nonpartisan league, or else because you desired to prejudice the public against a farmers' organization whose support for reelection you know you will not have. It is because we assume the former to be true that we take the trouble to set you right.

"The Nonpartisan league is opposed to state socialism. It stands for the largest possible amount of individual freedom of action and for the restoration of competition. It is as much opposed to the autocracy of the state as to the autocracy of big business. The farmers who make up the Nonpartisan league and

Mental Work Needs a Stomach

Great Mistake to Imagine You Can Work Better and Faster on the Starvation Plan. Eat What You Like But Follow With Stuart's Dyspepsia Tablets.

Mental work uses up energy fast. And energy comes from food. To eat little or nothing in order to do more work is a fallacy that has created an army of dyspeptics. A better plan is to eat the regular portions of food such as make up the average meal and follow each meal with Stuart's Dyspepsia Tablets.

You will then get a double benefit—energy from food and sociability with meals, for as a rule, the light eater, or those who skip meals, get into a bad habit, a rut, or hermit-like isolation. Do not be afraid of gasiness, sour stomach, heartburn, heavy feeling or coated tongue after meals. Stuart's Dyspepsia Tablets arouse the stomach to secrete the juices necessary to relieve these troubles that so frequently distress the mental worker. They contain harmless ingredients which act with an alkali effect, so you may eat the rich things of the banquet or the savory sausage for breakfast with utmost freedom.

Get a 50-cent box of Stuart's Dyspepsia Tablets at any drug store, eat freely of what you like and you will do more and better work than on a skimpy diet. Try this plan.

frame its platform are opposed to socialism as such and are the last group in the world to favor government ownership of all land and industry. Those who say otherwise, do so, either because of lack of information, as in your case, or because of malice and ill-will.

Program of League.
"What is the principle underlying the public ownership plans of the league's program?"

"It is to break the grip of monopoly by government competition. We have in Nebraska many examples of government regulation years ago the cost of electricity in Lincoln was 12 cents per kilowatt. We established a small municipal plant and immediately the price dropped from 17 to 5 cents per kilowatt hour. The municipal electric light plant serves relatively few of the people in Lincoln, but because, potentially, it can serve all the people, it keeps the rates of the private companies at a low level.

Pass League Bill.
"The last legislature passed and you signed a typical Nonpartisan league bill, namely, the bill providing for a state hog serum plant. The private hog serum manufacturers demanded and secured whatever price their fancy dictated. But when the state hog serum plant was established, the monopoly of the private manufacturers was broken and because of this Nonpartisan league hog serum bill, the farmers are getting hog serum at a reasonable price.

"For years Omaha was in the clutches of an ice monopoly. The people demanded relief and the legislature passed a bill allowing the metropolitan water board to manufacture and sell ice. Mr. R. B. Howell, manager of the Metropolitan water works, established a municipal ice plant and reduced the price of ice 100 per cent. Mr. Howell has been breaking the grip of monopoly in Omaha by his public ownership scheme, the farmers simply want to break state-wide monopolies in the same way.

"The program of the Nonpartisan league does not call for public ownership of all the creameries, or of all the flour mills, or of all the best sugar factories, but it does call for state ownership of one or more flour mills, creameries, beet sugar factories, so that by government competition, the creamery trust, the beet sugar trust and the flour mill trust can be broken.

Farmers Balance Wheel.
"The Nonpartisan league program includes state ownership and development of water power. In the minds of some this is socialism, bolshevism, anarchism and pro-Germanism. This may be true, but are for it just the same and leave months ago State Engineer Johnson made a report to you with reference to the water power of the state, in which he declared that the state could develop its water power and sell electric power at the switchboard in Lincoln and Omaha for 1 cent per kilowatt hour and leave 50 per cent of the plant within 10 years. If we can have electric light on our farms at an expense of from 35 to 60 cents a month, we are willing to be called bolshevists and socialists.

"You understand, of course, that the public ownership program of the Nonpartisan league is only part of the platform. It stands for the exemption of farm improvements from taxation, state hail and fire insurance, workable initiative and referendum laws and a stopping of government extravagance and waste. The farmers of the Nonpartisan league will hold a state convention within the next 90 days and at that convention will frame and adopt a platform. Let me assure you again that there will be no state socialism

about it, but that it will be a sound, sane program to end profiteering, to create better marketing conditions for the farmer and to make straight and short the road between the producer and the consumer. The Nonpartisan league is the fighting arm of the farmers to secure needed legislation. The Nonpartisan league is opposed to class government and class legislation and it is for that very reason that the farmers are organizing to secure fair representation in the government of the state.

"The farmer is both a capitalist and a wage earner and is the same balance wheel in Nebraska politics. The program for the Farmers' Nonpartisan league is midway between the unthinking reaction on the one hand and impracticable radicalism on the other.

Omahans Isolated in Tent for Two Weeks of Big Nebraska Blizzard

Snowed in, far from human habitation for two weeks, with no protection from the blizzard but a tent, this was the thrilling experience of County Commissioner McDonald, who returned to Omaha yesterday from his annual hunting trip in Grant county, Nebraska, where he had his adventures.

"I never saw such a blizzard and I don't want to see another one," said Mr. McDonald. "The snow started on Friday night, November 7, and continued without stop or pause until the following Tuesday morning.

"We soon realized that we were caught in the blizzard and must stay there in a tent. We had a supply of fuel, but we soon ran out of sugar, bread, bacon, flour and other necessities. For a week we had duck or grouse for breakfast, dinner and supper. And this was practically all we had.

"I slept in all the clothes I could find, including two pairs of woolen socks, two suits of underwear, canvas suit and corduroy suit and cap. And we had four army blankets. And then we didn't keep warm. The temperature was 16 and 18 below zero."

With Mr. McDonald were John Halpen and Dr. L. B. Van Camp of Omaha and C. W. Bishop of Tulsa, Okl.

They killed about 200 prairie chickens, grouse and ducks, Mr. McDonald says.

How to Keep Baby Smiling and Well

See that the daily functions are regular and normal

YOU can't expect the little ones to be happy and playful when the head feels dull and the stomach bloated. The normal habit of children is to be happy and when you notice them cross and fretful, you will usually find constipation is responsible.

Perhaps they have missed that daily function so necessary to comfort and health. Look at the tongue, and see if the breath is bad. Watch for belching. These are the tell-tale symptoms of constipation. Tonight give a little of Dr. Caldwell's Syrup Pepsin, which you can buy at any drug store for 50c and \$1 a large bottle, and it will act in the morning and the troublesome symptoms promptly disappear.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin. Unlike the harsher physics it acts gently and without griping so that while groups can use it freely it can also be given to a tiny baby with perfect safety. Thousands of American families would

not think of being without a bottle in the house for the emergency arises almost daily when it is needed.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.
