George Kelly, who is appearing in his own satirical comedy, "The Flattering Word," at the Orpheum this week, is an actor who uses a legitimate method. His manner is that of quiet distinction. He has written a number of one-act plays, and of those in which he has appeared, none has been more successful than the one in which he is now portraying the chief role. The stellar place on the bill is shared by the distinguished tenor, Carl Jorn. In this country, while identified with the Metropolitan Opera company, he specialized in the singing of Wagnerian roles. In vaudeville he is singing arias from well known Italian operas and is also interpreting several ballads. The liveliest act on the bill is the Ja-Da trio. "Oh, Lady, Lady," pursues its merry musical way at the Boyd theater, to the intense and growing delight of large audiences. It is one of the most enjoyable of musical comedies, and is slendidly presented by a most capable company. It has no noise, no jigg, no smashing of things, but it does have harmony melody, bright lines, clever songs, beautiful dances, and all in a snappy, crisp and attractive manner.

His work and that of the beauty chorus is proving of great interest to the visiting grain dealers this week. Ladies' matinee at 2:15 daily all week.

When Richard Bennett comes to the Boyd theater for his engagement beginning next Sunday night in "For the Defense," Miss Adrienne Morrison will have an important role in the play. Miss Morrison is, in private life, Mrs. Bennett, and she is vate life, Mrs. Bennett, and she is the daughter of Louis Morrison. Any one who saw Morrison in "Faust" undoubtedly saw Miss Morrison, for she played almost every role in the piece except the name part. She has also appeared in "Miss Hobbs." "The Hypocrites," "The Squaw Man," "The Deep Purple," "The Unknown Purple," "Damaged Goods" and other important plays. During Mr. Bennett's engagement there will be a special matinee on Thursday, Thanksgiving day.

New York Coffee.

New York, Nov. 19.—The market for coffee futures opened unchanged to five points higher and sold about 10 points, above last night's closing figures during the morning. There was some scattered covering after the break of yesterday and possibly a little buying on the announcement that there would be no general freight embargo for the present at any rate. Sentiment was still nervous over the uncertainty of the peace treaty and money situation however, and prices eased off following reports of a decline in futures at Santos. After selling at 15.00c March closed at 15.81c with the geneial list closing next six points lower to nine points higher. December, 15.48c; January, 15.85c; September, 15.66c.

Chicago Nov. 19.—Weakness prevailed most of the time in the corn market today largely as a result of depression in stocks, cotton and foreign exchange. The close was unsettled at 1%c to 2%c net decline, with December \$1.32\fomega to \$1.52\fomega and May \$1.24\fomega to \$1.24\fomega to \$1.52\fomega and May \$1.24\fomega to \$1.24\fomega to \$1.52\fomega slightly in excess for the same three days a year age.

Short fed cattle were not very plentiful on today's market and prices were very uneven. 25,850c were taken off late yesterday and today's sales looked steady to 10 %15c lower than the worst time yesterday. In general the butcher stock market was very nearly steady, some of the inbetween grades selling 10 %15 or more lower.

The feeder market was similar to the market for she stock with the best kinds just about steady and others showing some weakness. Supply of western beef was just fair at prices very uneven and quoted all the way from steady to 25c lower.

The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments 'to overcome.
