## Pi Beta Phi's to Give Benefit December 6

Way down south in Tennessee in the wooded almost impassable Appalachian mountains, near Gatlinburg, there are more than 100 boys and girls with their eyes gazing in the direction of Omaha.

They are all sturdy mountain children. Most of them have never seen a street car. The only strangers they ever meet are a few travelers and the school "bams" from the north who are braving the southern mountains to better school conditions there.

These school children, all pupils in the Pi Beta Phi settlement school near Gatlinburg, have been told about a benefit card party to be given at the Blackstone hotel by the Omaha chapter of the Pi Beta Phi sorority, on December 6 for the benefit of their school.

They realize that money is needed to carry on the work of the school and they also comprehend what the school means to them.

Before the teachers sent by the Pi Beta Phi sorority braved the trip on horseback to Gatlinburg the children were illiterate and the men and women, although pure Americans, could not read or write the language of their people.

The children of the Gatlinburg district are so concerned over the affair to be given in Omaha for their benefit that they prayed one day for the "people of Omaha," according to word received here.

The forty members of the Pi Beta Phi sorority who reside in Omaha, and many who reside in other parts of the state, are working hard to answer the prayer of the little mountaineers in Tennessee, said Mrs. Morris H. Dunham, who is chairman of the committee in charge of the benefit card party.

Other members of the committee are Mrs. Henry Cox, Mrs. Russell Burgess, Mrs. Edward Palmer, Mrs. Carroll Belden, Mrs. Riffe, Mrs. Zora Hamilton and Mrs. Bryce Crawford.

The teachers of the settlement school also do welfare work among the families of the pupils.

A movement is now on foot to get the county to do away with the old log school houses and substitute the consolidated school building.

The Pi Beta Phi school was started in 1912. Now the school property is valued at \$20,000 and is located on a site of 35 acres, donated by the people of the village.

The teaching force is largely composed of Phi Phis, who have accepted the work in the true missionary spirit.

Mrs. A. W. Richardson of Lincoln, visited the school recently and was very much impressed by the work there.

It is the plan of Pi Phi members to establish a night school in the village and get a visiting nurse to cater there. When this is done, natives of the village said, they will do their utmost to help establish a high school there.

Members of the Pi Phis who de-

due to the fact that it is too slow a method.

**TO DARKEN HAIR APPLY SAGE TEA**

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added will turn gray, streaked and faded hair beautiful, dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

**WHEN YOU WAKE UP DRINK GLASS OF HOT WATER**

Wash Poisons and toxins from system before putting food into stomach.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment.

A splendid health measure is to drink, before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the alimentary canal before eating more food.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing.
