

BRIEF BRIGHT BREEZY BITS OF NEWS

SERVE HOT COFFEE TO SNOW SHOVELERS.

City Commissioner Butler, in charge of the city street cleaning department, yesterday directed Dick Grotte, superintendent, to serve hot coffee twice a day to the men who are clearing the streets of snow. This will continue as long as this work lasts.

HORSE TRADE DISPUTE RESULTS IN MURDER.

Denver, Colo., Nov. 29.—While two young daughters of his victim begged him not to shoot, a man identified by the police as William Lawson, 40 years old, shot and killed Joseph Zuckerman, 42 years old, a horse trader, and wounded Jacob, his brother. The man then climbed into a wagon with a woman and disappeared.

NOTED SOCIETY WOMAN IS SEEKING DIVORCE.

New York, Nov. 29.—Mrs. Willie Stephen Jan Van Rensselaer, who was Miss Roxana Bowen, a leader in the younger set and descendant of the Wentworths of colonial days, is in Reno seeking a divorce on the ground of cruelty and desertion. Mr. Van Rensselaer formerly was third secretary of the American embassy at Rome.

FRANCIS JOSEPH'S ART TREASURES WORTH \$50,000,000.

Liverpool, Nov. 29.—An expert just returned from Vienna values the pictures and art treasures that belonged to the late Emperor Francis Joseph at \$50,000,000. An Anglo-French-American syndicate is reported to have offered to purchase the collection.

WITNESS SAYS HE CAME BACK FROM GRAVE.

Budapest, Nov. 29.—Intense interest is displayed in the trial here of the terrorists charged with conducting a rule of "murder and torture" under Bela Kun's soviet regime. One witness caused a sensation by announcing that he had literally come back from his grave. He testified he was made to dig his grave, and while doing so Cserny, one of the accused, shot him. Wounded, he fell into the hole and was buried, though the grave was not covered. Later he gained consciousness and crawled out and away.

STAD PAPER UPSET BY LADY ASTOR'S VICTORY.

London, Nov. 29.—Premier Lloyd George has telegraphed Lady Astor hailing her as the first woman to take her seat in the House of Commons. The staid old Globe upset all its traditions by printing a first page cartoon which shows John Bull, presiding over the Commons with a bunch of asters.

BRITISH NOBLE ENTERS MOVING PICTURE FIELD.

London, Nov. 29.—Lord Beaverbrook, former chancellor of the duchy of Lancaster and minister of the propaganda during the war, has entered the British moving picture field. He has purchased a \$4,000,000 concern owning a string of 35 theaters.

MOTHER FAITHFUL EVEN UNTO DEATH.

Elgin, Ill., Nov. 29.—Mrs. Mary Ann Park was always the pal of her son, Frank. She was 88, her son 56. Eight years ago Frank had a stroke of paralysis. He had never spoken, save in the unintelligible mutterings of a paralytic. For eight long years she sat on a cot in a Sherman hospital. For eight long years the mother has never left the bedside of her stricken son, save for an hour or two at a time. Then one day as the aged mother kept her lone but tireless vigil attendants found her lying face down across the son's bed, her mother's arms thrown out in a last embrace. Death found her where a pal is always to be found—by the side of a pal in need.

MINERS ENTOMBED 15 DAYS RELEASED.

Wallace, Idaho, Nov. 29.—After being in the Gold Hunter mine at Mullin since Saturday morning, November 15, when they were entombed by a slide of earth, P. F. Grant and Emil Sayko, miners, were taken out alive at 3:15 p. m. Saturday.

HITCHCOCK PREDICTS TREATY RESUBMISSION.

Washington, Nov. 29.—Preliminary plans to renew the struggle for ratification of the German peace treaty were made by Senator Hitchcock of Nebraska, administration leader, in the senate fight. He did not see President Wilson, however, and as few senators had returned for the opening of congress Monday, the treaty situation seemed to stand just as it did when the senate adjourned 10 days ago.

COUPLE MARRIED IN DENVER MORTUARY.

Denver, Nov. 29.—That even the ghastly environs of a morgue is no deterrent to Dan Cupid was evidenced when William Sumpter Reeves just returned from many months with Uncle Sam's overseas forces, and Eva Pearl Adams were married by the Rev. G. A. Barth in the Olinger mortuary here.

THE WEATHER: Fair Sunday; Monday unsettled and somewhat warmer. Hourly temperature: 3 a. m. 15, 6 a. m. 18, 9 a. m. 21, 12 noon 24, 3 p. m. 27, 6 p. m. 24, 9 p. m. 21, 11 p. m. 18, 12 noon 16.

ORDER AMUSEMENTS CLOSED

NEWBERRY IS INDICTED BY GRAND JURY

Corruption, Fraud and Conspiracy Charged in Connection With Election by Which He Obtained Senate Seat.

133 OTHER PERSONS ARE NAMED ON LIKE CHARGE

Names of All But 12 Most Prominent Withheld From Publication Until Warrants Can Be Served on Them.

Grand Rapids, Nov. 29.—Truman H. Newberry, United States senator from Michigan, was indicted by a United States grand jury today for corruption, fraud and conspiracy in connection with the election by which he obtained his seat in the senate, defeating Henry Ford, his democratic opponent.

The others named were: Allen A. Templeton of Detroit, president of the Newberry committee; Frederick Smith, Detroit, manager of the Newberry estate; Charles A. Floyd, Detroit; M. F. McKee, Detroit; Judd Yelland, Escanaba, Mich.; Milton Oakman, Detroit, formerly county clerk of Wayne county; Harry O. Turner of Detroit; Frank McKay of Grand Rapids; J. B. Bradley Eaton Rapids, Mich.; and Gladstone Beattie Paw Paw, Mich.

Judge Sessions indicated that the evidence before the grand jury disclosed the fraudulent expenditure of between \$500,000 and \$1,000,000 in connection with the election.

Two blanket warrants were returned against the primary and election campaigns of 1918 in which Henry Ford was Senator Newberry's chief opponent.

The first indictment charged that both federal and state laws were violated in that sums far in excess of legitimate expenses were used in the campaigns. The second indictment cited the affidavits which Senator Newberry made while serving at the Brooklyn navy yard, in which he swore that no campaign money had been spent by him or with his knowledge.

There were six counts in the first indictment. The first four were devoted to charges of excess campaign expenditures. The fifth alleged conspiracy to violate the federal corrupt practices act of October, 1918, which penalizes payment of money to voters. The sixth count in which Frank C. Dailey, special assistant to the attorney general, attaches special significance, alleged that the mails were used "to defraud all the people of the state of Michigan."

Contributors' Victims. This sixth count charged that not only were all voters of the state defrauded, but that honest campaign contributors were also victims in that they were misled into believing that the legal limits of expenditures had not been exceeded.

This sixth count also contained a clause charging that James Hein, former state dairy and food commissioner, had been defrauded.

Lincoln Club Asks Government to Call For Miner Volunteers

Lincoln, Nov. 29.—(Special.)—The board of directors of the Lincoln Chamber of Commerce today called upon the government to recruit volunteers, the resolution being telegraphed to Senators Hitchcock and Norris, President Wilson, Dr. Garfield, Secretary Baker and Representatives Jeffries and Evans in part as follows: Whereas, for four weeks a few hundred thousand miners and their operators have jeopardized the lives, the health and the property of an entire nation, and

Whereas, the action of this small body of men that have been the cause of this disaster has, in our opinion, been selfish and at least morally criminal, therefore, Be it resolved, that we believe it the duty of the government, and urge upon the administration to use the army and volunteer labor immediately and without a day's delay, to remove from our people this dread specter that hovers in the near future and that is a menace and a disgrace to our nation.

Personal Guilt of Kaiser for History's Most Awful War Conclusively Proved

Astounding Revelations of German Diplomacy and Duplicity Before and During World Struggle Made Public in First Official Inside Story Through Two Statesmen Who Are Trying to Build a New Germany.

By JAMES GERARD. United States Ambassador to Germany During the War. Written Exclusively for Universal Service.

New York, Nov. 29.—These documents show conclusively the personal responsibility of the kaiser for the most awful war of history.

Ten million men died because of his insane conceit. Any human mind that could fully grasp what that means would become unbalanced.

And is the man who caused this war to go free? Shall he be allowed to potter about the gardens of Dorn, boring his attendants with tales of his deeds, or should he not be made to face at least justice?

All the dreams of conquest by Germany are shown in these documents—all the lies, all the duplicity.

A most important offer of the czar was concealed from the German people, and fool reliance placed upon the "German colony in America."

Then peeps out, too, the war lord's contempt for his own civilian chancellor and for those of his servants who seemed to hesitate about plunging the world in war.

Here, too, we see what full knowledge the emperor had of the ultimatum to Serbia—how he intrigued to bring about a situation which would make peace impossible.

These documents should make the German people thankful for their revolution and should so open the eyes of the world that there will be no hesitancy about bringing the yellow kaiser to face the jury of the world.

Data Jotted Down In War Lord's Own Handwriting

Memoranda Made in Exciting Days Immediately Preceding the War Are More Important and Startling Legal Evidence Than Any Official Testimony Hitherto Published.

Special Cable to Universal Service. Copyright 1919 by Universal Service. (Copyright in Great Britain and Holland—Rights of Republication Reserved.) Rotterdam, Holland, Nov. 26.—Universal Service herewith presents exclusively the first chapters of the German republic's own investigation into the causes of the war. It includes numerous documents heretofore concealed in the official publications of the various governments.

Soon after the armistice and revolution in Germany, the government turned over to Socialist Deputy Kautsky, Prof. Schucking and other document experts of the foreign office, all the official letters, memoranda, dispatches and confidential instructions found in the archives of the foreign office.

There were more than 900 documents, unpublished. Many of these official papers, including notes or dispatches from the German ambassadors in Vienna and Paris, contained penciled replies, comments or instructions in the kaiser's own handwriting.

It appears to have been the habit of the kaiser to scribble notes or comments on the margin of official dispatches or reports sent to him that called for any advice from him. Some of these hastily scribbled remarks contained instructions to the German chancellor as to the kind of reply that was to be made.

Stunning Historic Documents. None of these memoranda has ever been published in any of the white, yellow and red books, official documents of the belligerents. (Continued on Page Eight, Column One.)

WALLACE ALIVE AND NOT SLAIN MESSAGE SAYS

Vice President of Gulf Refining Company Safe in Tampico.

New York, Nov. 29.—William Wallace, vice president of the Gulf Refining Co., who was believed to have been murdered in Tampico, Mexico, is safe in that city, according to a message received by the company. Information is lacking as to the identity of the Wallace who was killed by soldiers.

Situation Marks Time. Washington, Nov. 29.—The Mexican situation marked time today, while the government continued to gather information on the Jenkins case and the murder of William T. Wallace at Tampico Wednesday. The identity of the murdered man had not been established tonight.

The Jenkins case and the Wallace case are being treated separately and in no way being connected at present.

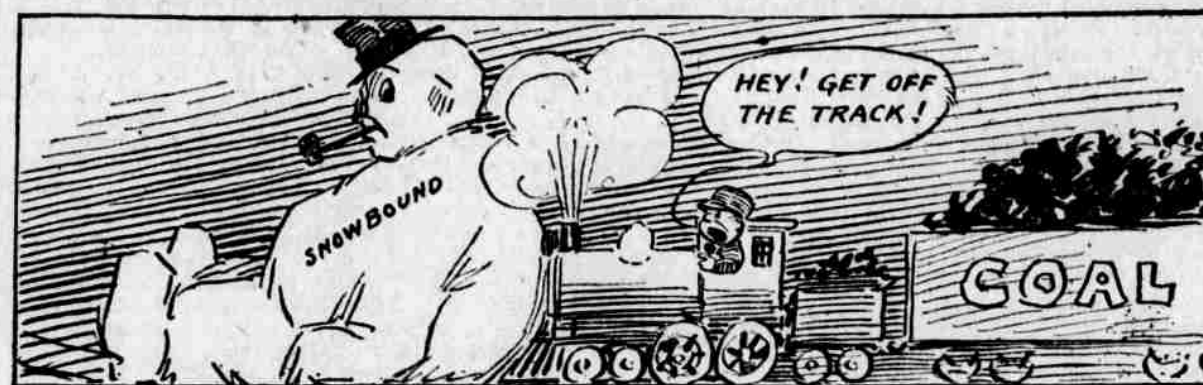

The State department already had directed the American embassy in Mexico to make inquiries of the Carranza government and forward further information on the new phases of the Jenkins case raised in a note declining to accede to the request for the release of the consular agent.

Arranging Details. In the Wallace murder case the government has about all the information considered necessary and the interval is being used in framing the details of a course of action.

A note to Carranza, which some officials think will be about the last, was being drafted in the State department today and so far as could be learned it had not been forwarded to Mexico City tonight. It had been drafted preliminarily and (Continued on Page Two, Column Seven.)

Conference Opens Monday. London, Nov. 29.—The Estonian government has announced that peace negotiations with soviet Russia will be begun at Dorpat on Tuesday next, December 2, according to a wireless dispatch from Moscow today.

The Passing Show

SEVERE STORM TAKES TOLL OF EIGHT DEATHS

Scores Injured and Property Damage Severe From Sleet, Snow, Rain and Wind in Central Valleys.

Chicago, Nov. 29.—At least eight persons were killed today and scores injured and heavy property damage by a windstorm accompanied by sleet, snow and rain which originated in northwest Arkansas and swept across the central valleys and southern lake region.

Communication was nearly paralyzed in northern Arkansas and some parts of Missouri and Kansas as a result of sleet and wind, while the gale that reached a velocity of 80 miles an hour at Detroit tore down wires, uprooted trees, swept away outbuildings and unroofed houses in most of the central states.

Two men lost their lives in Indianapolis, when one was electrocuted by a broken wire and another blown from a ladder.

A woman was struck dead by a cornice from a building in Muncie, Ind.

Heavy Property Damage. Property damage probably ran into hundreds of thousands of dollars and reports from many localities, especially by the rural communities of Missouri, Illinois, Indiana and Michigan were missing.

The gale in the lower lake region was the severest in years. Shipping was generally held in the harbors. The wind's velocity in northern Indiana reached 55 miles an hour and in Chicago 50 miles.

The storm, which was moving northeast, centered over the lower Lake Superior region tonight.

Warmer temperatures following Rocky mountain states for two days and spread in less severe form to the central and northwestern states, preceded the windstorm, but lower temperatures were expected to follow the cold wave that gripped the low in the central and middlewestern states. The mercury dropped 33 degrees in Chicago today.

California Governor Firmly Convinced Of Guilt of Mooney

Sacramento, Cal., Nov. 29.—No further clemency in behalf of Thomas J. Mooney, convicted of murder in connection with the San Francisco Preparedness day bomb explosion, is warranted by anything within the knowledge of Gov. William D. Stephens, the governor stated in a letter made public at the governor's office here.

"Of Mooney's guilt there is, in my mind, no question," the letter stated.

Former Emperor III. Berlin, Nov. 29.—(via London.)—Former King Frederick August of Saxony is seriously ill at Szybort in Silesia, according to the Reichenberg Zeitung. With his family he has been residing in Silesia since he quit the throne after the revolution a year ago.

Final Chapter of the Most Baffling Murder Mystery of Middle West is Written

Unceasing Efforts of Authorities in Running Down Clues to Identity of Woman Found Foully Slain 10 Days Ago to No Avail—Story of Crime Locked in Vault With Dead Body.

With the burial in West Lawn cemetery Friday afternoon of the mystery girl, who was found dead with a bullet in her brain, November 20, in a ravine near the Kidge road, 14 miles north of Omaha, apparently the final chapter of the most baffling murder mystery in the history of the middle west has been written.

Ten days have elapsed since a Washington county farmer discovered the dead body at the bottom of a 20-foot embankment, where she had been hurled after the fatal shot crashed through her head.

Thousands of persons have viewed the remains at the John A. Gentleman undertaking parlors, 3411 Far-

nam street, and scores of persons have thought they recognized the features of the dead woman. Night and day, the authorities have been running down clues, and today detectives know no more concerning the identity of the woman than they did the day of the gruesome find.

But One Clue Remains. Unless some relative or friend should identify and claim the body in the future, the young woman's identity will have been locked with her body in her grave.

Of the numerous clues which have been run down by detectives, but one remains in regard to which there is any uncertainty. Two girl friends of Miss Alice Masette, (Continued on Page Four, Column Five.)

Two Weeks' Work on Message to Congress Fatigues President

Washington, Nov. 29.—Despite inclement weather President Wilson spent an hour on the south portico of the White House Saturday and after the regular weekly visit of Dr. Francis X. Dercum of Philadelphia, his physicians reported continued progress in his condition.

Mr. Wilson will send his message to congress next Tuesday it was said, but no information was available as to its contents. The president was ordered to express his views on the peace treaty situation and also to discuss a wide range of domestic problems, including the industrial situation.

The president has been working on the message for the last two weeks. The fatigue this has entailed was thought to have prevented him from seeing Senator Hitchcock, democratic leader in the treaty fight, on his return to the city. It is not known when a conference may be arranged.

Des Moines Police Close Theaters and Cigar Stores

Des Moines, Ia., Nov. 29.—(Special.)—The superintendent of public safety late today issued an order closing all theaters, schools, churches and cigar stores tonight, for lack of coal. There will be no church services in city churches Sunday.

The state is following every possible avenue in an effort to get a coal supply to prevent suffering.

INDUSTRIES OF CITY ALSO RESTRICTED

Rail Strike, Which Started in Kansas City Yesterday, Is Most Serious Complication From a Fuel Standpoint.

DRASTIC ACTION TAKEN IN COAL CRISIS HERE

Latest Order of Terminal Committee Is Sweeping in Its Scope and Takes in Practically All Public Places.

The yardmen's and trainmen's strike which started in Kansas City, Mo., at 4 p. m. yesterday, is the most serious complication from a fuel standpoint that has yet been experienced by Omaha, according to members of the terminal fuel committee.

If the strike continues it will result in cutting off 25 per cent of the meager amount of coal Omaha has been receiving since the miners struck, and will cut off the entire supply of oil fuel, H. L. Snyder, acting chairman of the terminal committee, said.

Order Effective Tomorrow. As a result of the strike and the existing shortage of coal every amusement in the city, including theaters, moving picture houses, dance halls, pool halls, bowling alleys and other public places, were ordered closed last night. The order will take effect tomorrow morning.

The Municipal Auditorium, lodge rooms, public library and branches and the club of the city were also placed on the long list of places ordered closed.

Packers Only Excepted. With the exception of the packers, every industry in the city was restricted to shorter hours by the final order issued last night by the terminal committee. An attempt will be made to furnish packers with sufficient coal to run eight hours a day, Acting Chairman Snyder said.

The original order issued by the coal committee permitted packers only sufficient coal to run their cold storage plants.

The final order for conservation of coal, issued last night by W. M. Jeffers, chairman of the committee, is as follows:

Committee's Final Order. "The fuel supply in greater Omaha and Council Bluffs is being depleted daily and the necessity for taking care of homes, hospitals, hotels and public institutions is so pressing that the sub coal committee of the United States fuel administration hereby notifies all manufacturers, jobbers, wholesalers, retailers, brokers, commission merchants, and all others, that effective Monday, December 1, and continuing until further notice the following limitations on the use of fuel are necessary and shall be effective:

"1. All retail stores, including groceries and meat markets, open from 10 a. m. to 5 p. m.

"2. All manufacturers, jobbers, wholesalers, brokers and commission merchants open from 8 a. m. to 2 p. m.

"3. All laundries open from 9 a. m. to 4 p. m.

"4. All office buildings and offices open from 9:30 a. m. to 3:30 p. m.

"5. All theaters, moving picture shows, dance halls, pool halls, bowling alleys and all other public places of amusement shall be closed.

"6. All public schools, colleges, and other institutions of education, shall close, except that proper provision may be made for housing and boarding students and faculty.

"7. All churches shall be closed except for a three-hour period on Sunday morning only. All mid-week services shall be dispensed with.

"8. All other public meeting places shall be closed, including the Municipal Auditorium, lodge rooms, public libraries, clubs, except for furnishing regular meals and lodging accommodations, meeting places of all fraternal associations, and all other meeting places where people congregate in numbers.

"W. M. JEFFERS, "Chairman Sub Coal Committee" Coal Supply Very Low.

In commenting on the drastic nature of the order, Acting Chairman Snyder explained that the matter had been brought to a head by the yardmen's and trainmen's strike in Kansas City, the severe weather which prevails not only in Omaha, but throughout the entire state, and the fact that the coal supply is lower than at any previous time in the history of the city.

Theater managers were in session with the committee for more than an hour yesterday afternoon, presenting arguments to show that fuel was actually saved by allowing their houses to remain open. They called attention to the fact that many had installed kerosene heaters, and one even offered to provide his own lighting power.

Their chief argument was that Snyder explained that the matter had been brought to a head by the yardmen's and trainmen's strike in Kansas City, the severe weather which prevails not only in Omaha, but throughout the entire state, and the fact that the coal supply is lower than at any previous time in the history of the city.
