MAY SUE FOR \$500 FOR DAMAGE FROM PROHIBITION COWS Presents Claim for \$50 for Care of "Dry" Cattle.

Presenting a claim against the Cudahy Packing Co. on the South Side for \$50 for care and maintenance of two fat cows which had wandered from the pens of the company Sunday and ended up grazing in his garden, Mike Zroki, 4024 South Thirtieth street, received \$10 from Chief Peter Jolly of the Cudahy secret service, after he had told police that he was positive the cows were rank prohibitionists, as ascertained by absolutely "dry" when he attempted to milk them.

Zroki produced an itemized statement which he enumerated 16 bales of hay, 200 pounds of bran, 50 cents per day for yardage charges and the cost of extra help to care for the cows, and other incidental expenses, which totalled the \$50 claim he made.

Zroki told police one of the cows objected strenuously when he attempted to milk her, and kicked him into a neighbor's yard, destroying a new tin bucket and injuring his arm.

He said he was contemplating suing the Cudahy company for \$500 damages for the injuries sustained in the attempted milking of the cows, claiming the Cudahy company to be negligent and careless in allowing prohibition cows to stray away from the company yards.

The controversy was in progress last night, with the Cudahy company in possession of the cows. Chief Jolly of the secret service said that he was led to finding the lost cows by a story in The Bee to the effect that Mike Zroki had reported his find to the police.

Market and Industrial News of the Day

FINANCIAL

New York, Dec. 1.—Trading on the stock exchange today continued to show a marked tendency to the bearish side. The market was generally active, with the volume of business being unusually large for this time of year.

The status of the coal strike, cattle labor disturbances and the Mexican situation and uncertainty respecting the outcome of important litigation now before the supreme court was included among the other issues which contributed to the market's irregular trend.

Occasionally rallies occurred in speculative shares, but these were attributed to technical conditions, however, rather than to actual demand, while the sluggishness of representative rails and industrials attested to the public interest.

General Motors, Pierce-Arrow, Crucible Steel and some of the high priced oils, in all of which an extensive short interest is believed to be well within a margin of 5 to 10 points.

Interest rates were shown by shipping stocks, railroads and kindred specialties, but only in a few instances did they show a marked tendency to the bearish side.

Omaha Grain Market. Grain arrivals today were light and generally about half those last Monday. Carlot receipts were: Wheat, 47; corn, 47; oats, 14; rye, 11; and barley, 6.

Trading in wheat and corn was slow, buyers and sellers failing to meet on prices. Up to a late hour not enough wheat had been sold to make a market. Corn was generally unchanged to 7 cents higher.

Oats were up 1 cent to 1 cent higher, the bulk being up 1 cent. Rice advanced 2 cents and barley was unchanged.

Chicago Grain and Provisions. Chicago, Dec. 1.—Increased anxiety regarding coal shortage did a good deal to give an upward swing to the market. The close was unsettled, 1 1/2 to 3/4 cent higher, with December \$1.34, \$1.31, and \$1.33.

Corn traders showed an evident disposition to anticipate that as a result of coal strike developments the movement of corn to primary centers will be more restricted than has heretofore been deemed probable. The fact that there is no corn delivery under the December member contracts tended to focus attention on the smallness of the stock of corn in the city, and on the fact that the weather conditions were unfavorable.
