Louis Nash Chosen President of Athletic Council: Omaha Business Men In Organization.

Creightau athletics were Tuesday night out in the hands of an athletic board at a meeting in Creighton col-lege of Omaha business men. The prime mission of the board will be to promote athletics at Creighton. Louis C. Nash of the Burgess-Nash company was chosen presi-dent of the board, Harry V. Burkley vice president and Charles Garvey

treasurer. Gene Melady, Dr. L. A. Dermody, R. J. Madden, John Hopkins, Bett Murphy, Frank McCaffery, Thomas P. Redmond, William McCaffery, James A. Shanahan and Edward A. Creighton were chosen as other members of the board.

or slide backward. There is no al-ternative. The present position cannot be held permanently. Of course it is the object of Creighton university, the object of Omaha and the object of the whole middle west to see them progress. The duty of pushing Creighton athletics ahead rests chiefly with this association." Coach Thomas E. Mills told the gathering of the prospects for a great basket ball team this winter. "We have the same men back at school this year who brought

We have the same men back at school this year who brought Creighton through last season with-out a defeat and with several big victories to its credit," said Mills. "Other prospective players look good. Last year we had to turn people away from some of the games on account of lack of seats. It is our plan to erect seats for near-

ly 3,000 people this season." The athletic board will meet prob-ably next Monday night to further the work of organization.

We MUST have the co-operation of the public during the present coal shortage emergency if we are to avoid complete cessation of street car service.

Workers can help by starting home as soon as possible after being dismissed from work instead of staying downtown until 5 o'clock. Shoppers can help by starting home between 4 and 5 o'clock. Everybody can help by letting an already crowded car pass and waiting for one less crowded, and by moving up to the forward end of the car instead of blocking the aisles.

Unless we are enabled to reduce the number of cars, by fully utilizing those that are being operated, we will soon exhaust the supply of coal and come to a standstill.
