Heart Beats

By A. K.

Age looks back
On a well-worn path—
Worn by struggle
And work
And will—
Discovers Youth
With impatient mien—
Tries to tell him
But all in vain.
Tries to show
Where the traps
Are set—
Where loose reins entangle
The immature—
Tries to point out
Sin's dangerous snare—
And what the attractions are
Waiting there.
But the path is alluring
To untaught feet—
They stumble along
Where Age once trod—
Bruises they bear—
And tears are shed—
But only the moment
They last.
Is Youth not strong
As he goes along
The road
To the school of Life!
So he sees not Age—
And hears not Age—
And needs not Age—
Or his wisdom.
For he scents no danger—
Fears no stranger—
Cares little or nothing
For the in-between
Of Youth and the mysterious
Mountain of Hope.
Romance beckons—
Love coquettes—
They are expert teachers
In Experience school.
Age sighs as he looks
Over vanished years—
His eyes are deep
And true.
He sends to Youth
A whimsical smile—
Memory renders him kind—
For the sins of the young
Are but reckless sins—
And their good we know
Is so perfect a thing—
That Time is more lenient
Than Nature itself—
And Age more gentle
Than Life.

Gamble of Modern Marriages

Changed conditions of living have affected the relations of men and women most vitally. In the "good old days," which anyone of middle years can recall, there was comparatively little travel from one section of the country to another, from one state to another and even from one country to another.

Boys and girls usually married in the community where they grew up. When John led Mary to the altar, he usually led a girl he had known from infancy. The couple had behind them a love affair of years that had become the talk of a community and an engagement that probably had run over a year, if not two. This, also, had become public property, and the proposed match had been discussed from all angles.

Under such conditions all differences between the two, all possible causes of "temperament" of this and that kind, had come out in the open. They were not left to be sprung after marriage, with possible disaster.

Now it is very different. Many persons of marriageable age who are thrown together under all sorts of circumstances regard an eventual acquaintance of six months as a bar to developments looking to union, a love affair of half that time a bore, and a long engagement "unthinkable," says the Kansas City Star. Occasionally the only party who knows of a marriage 24 hours in advance is the legal authority who must grant the license and who learns the most meager facts about the couple. Under such conditions the future is one big field of exploration.

Lovelorn

BY BEATRICE FAIRFAX

Mae and Mary—Are you angry or not at the young men? Do not try to pretend something you do not feel. It is proper for a young woman to ask a man to call and the man should take no offense at the invitation. The other young man is evidently trying to be "smart." Ear-rings are in style at the present time if they are becoming to the wearer. It is the place of the woman to suggest leaving a dance.

Young Girls of Thirty.

Dear Miss Fairfax, Omaha Bee: We are two young girls of 29 and 30 and we live 60 miles from a village of about 100 people. We are asking you some advice that we would like to have answered right away, because we can not go any place until we hear from you, because we don't want to miss any good times. Is it proper for us to go out with the boys after 9 o'clock at night? How is our writing?

BROWN EYES AND BLUE EYES.

Am so glad you place such implicit confidence in me. That seems to be the extent of your good judgment, however. But you are so young that there is no reason to give up hope. By the time you are 55 or 60, you will probably have picked up quite a bit of sense. No, don't go out with boys after 9 o'clock; start a little before that hour.

Chums—There is only one person who can tell you which of you she prefers and that is the girl herself. Ask her.

Coat Bargains

For Friday only we will offer about 100 women's and misses' coats. Most of them have fur collars, some are 1/2 lined, others full lined. There is positively not a coat in the lot worth less than \$25.00—most of them are \$35.00 and \$39.50 coats. Choice Friday at—

\$15.00

Chamberlain's Tablets

not only move the bowels but improve the appetite and strengthen the digestion.

No power on earth can halt the flight of time, but in spite of years you need not "grow old." It's all a matter of keeping the body fit—strong, vigorous and healthy—so that it will arrest the effects of time.

The approach of "old age" simply means the gradual decay of the body's organs and tissues. Keep the stomach, bowels, liver, kidneys, bladder, heart and lungs in good working order and Time's fingers will touch you lightly. At the first sign of breakdown, either physical or mental—if slight exertion makes you tired, weak, nervous or irritable—if your appetite lags, your digestion is poor, your sleep troubled and broken—in short, if you find that you're losing your "punch" and "pep" and physical energy—begin the building up process at once by taking

The Great General Tonic

Nothing will restore your strength, renew your health and revive your spirits like this master body builder. It reconstructs the decaying tissues by enriching the blood and tones up and invigorates the entire system by stimulating the sluggish organs into normal activity. Fine for over-wrought nerves, headache, loss of appetite and indigestion.

Get a bottle of this splendid tonic today. Don't put it off. It's mildly laxative and keeps the bowels in fine condition. Your druggist will supply you.

Break Your Chains Be Strong and Well

Why drag along through life—half-sick, weak and tired out all the time? You can be strong and well—full of energy and vitality—glowing with health, and thrilled with the joy of life. You can enjoy life.

Rich, healthy blood makes the whole body healthy.

Nature intended that everyone should be strong and well, and there is no mystery about Nature's laws.

Oxygen is the life giver—necessary to maintain life. REOLO absorbs the oxygen from the air in the lungs and carries it into the blood—rapidly oxidizing or revitalizing the red blood cells—and increasing the amount of hemoglobin in the blood, sending through the entire body a stream of rich, vitalized, health-giving blood that nourishes every cell of the nerves, tissues, brain and bones.

REOLO

Makes Rich Red Blood

If the supply of oxygen is not sufficient, the engine runs down, vital force wanes, the fire goes out and the whole machinery of the body stops. When the blood is vitalized with oxygen, the complicated structure of the cells of the body is broken down, and the energy liberated which serves to drive the human engine.

REOLO acts on the blood, and by constantly cleansing and revitalizing it converts the blood into a vigilant guard against the insidious attacks of disease. It assists every natural force in the body. It makes it possible for the blood to build up what the stress of daily activity, overwork, over-exertion and overtaxing of the

body tears down. Waste products are cast out—new cells grow—the hollow cheeks fill out and take on the ruddy glow of health. The spring comes back to the step, the whole body tingles with health and vitality—and the brain is cleared to meet the battle with the problems of life.

By special arrangement with the Dr. A. L. Reusing Laboratories, Akron, Ohio, we have been appointed Licensees for the distribution of REOLO—direct from the laboratories, certified by Dr. Reusing, positively guaranteed to give satisfactory results or we'll gladly refund your money. Large box of Reolo, 100 tablets, \$1.00.
