

VALUE OF CROPS IS ESTIMATED AT \$14,092,740,000 Total About One and One-Half Billion Over Aggregate Value of Previous Year's Production.

Washington, Dec. 12.—Record prices and bountiful production sent the value of farm crops harvested this year to the unprecedented total of \$14,092,740,000, exceeding the value of last year's crops by almost \$1,500,000,000.

Final estimates of production were issued today by the Department of Agriculture and values were based on prices paid to producers December 1. The area of harvested crops this year was more than 2,600,000 acres larger than last year, amounting to a total of 259,124,437 acres.

Corn King of Crops. Corn easily maintained its place as king of crops, with a value of \$3,934,234,000, while cotton, including cottonseed, was second with a total value of \$2,332,913,000. The hay crop was third with \$2,129,087,000.

Record crops of winter wheat, rice, sweet potatoes and hay, while the production of all wheat, rye and tobacco was next to the largest ever harvested.

Prices paid producers were higher this year for every crop than they were last year with the exception of beans, cranberries and oranges.
