BORAH CHARGES FINANCIERS WANT TREATY RATIFIED

Urges That Congress Investigate Co. to Ratify Peace.

Washington, Dec. 14.—Powerful financial interests are endeavoring for selfish interests to "put across the German peace treaty through a senate compromise, Senator Borah, republican, Idaho, charged in a statement issued today.

Urging that congress investigate alleged efforts of J. P. Morgan & Co, and other financial concerns to bring about the treaty's ratification, Senator Borah also asserted that these interests, through "the most and the league of nations in the presidential elections next November. The financial interests, Senator Borah further charged, are at work on a scheme which he outlined as

having the following objects: Scheme Laid to Financiers.

"First-Through some compromise or trade secure changes in the reservations so as to get enough votes to put it through regardless of whether American interests are pro-

"Second-Having put it through in this way, the same forces hope through their great influence with the leaders of both political parties and their control over campaign subscriptions to keep it entirely out of the campaign of 1920, so that the people will never have a chance to pass upon the question."
"In the language of one of the lead-

said Senator Borah's statement, "the thing to do is to fix up the compromise, agree upon the deal which will get the votes, then bring the treaty into the senate with the rule establishing cloture, cut off debating and put it through. Then, if they can further keep it out of the platform and out of the campaign by reason of their prominence in the party, they have accomplished their entire purpose.

Hopeful of Outlook. "Men have been in Washington during the week, working on this Ratification of Peace plan and they feel rather hopeful of the outlook

"I am in favor, when congress reurns after the holidays, of starting chase the above machinery. thorough investigation and laying bare the entire profits of these concerns which are now spending vast sums of money to put this thing across. Find out what sacrifice they have placed and where they are now. It will be recalled that long before the United States or the people of this country were permitted to have a copy of the treaty, the firms of Morgan & Co. had it and were studying it, as one of the firm said, for the purpose of finding out what effect it would have upon their financial schemes. At the present time vast sums of money are being ex-pended in propaganda. Every kind of lobbying known to Washington, s being exerted and utilized to accomplish, as I say, two things-first to put the treaty through as the re-sult of any kind of barter, any kind of trade that is necessary; secondly, exert every possible influence to keep it away from the people in 1920."
