SCHOOL AFFAIRS ARE PRESENTED TO CONVENTION

Long Wrangle Takes Place Over Proposal for Holiday Adjournment.

Lincoln, Dec. 18.—(Special.)—The constitutional convention got up a lively discussion Thursday morning over the matter of adjournment over the holidays and finally ended by adjourning to meet Friday morning at 10.

The discussion started over a motion to require all delegates to get in their proposals for changes in the constitution before the 20th day expired. There was some opposition to this, but it carried, 63 delegates voting for it.

Then the motion was made to adjourn until January 6. An amendment was made to make it January 13. After wrangling over these motions for some time a motion was made to adjourn until 10 Friday, which carried by one vote.

Church Question Again. A proposal by Selleck and Pugsley of Lancaster would do a lot of things. Among them are the following:

English is declared to be the basic language to be used in instruction in all schools, public, private, denominational or parochial, but makes some provision for the teaching of foreign languages under certain conditions. The use of public funds in aiding any sectarian or denominational school is prohibited.

The state board may suggest courses of study, but the adoption of courses and the selection of textbooks will remain with local boards. All textbooks and necessary supplies are to be furnished free in the public schools, as is now provided by law.

To Fix School Terms. The legislature is vested with authority to fix the minimum length of school terms, and districts not conforming thereto will be deprived of state aid. It is also to make provision for the care and education of dependent, defective and delinquent children.

A state school tax is authorized, the proceeds of which will go to supplement county and school district levies for the support of the elementary and secondary schools. At board and requiring decisions from the board within 90 days.

Senator Thomas, democrat, Colorado, supporting the Cummins labor proposal, declared railroad strikes to be intolerable in their effect upon the general public.

Opposing the anti-strike section, Senator Walsh, democrat, Massachusetts, said that criminal penalties for strikes would not accomplish their purposes. The Cummins plan, he characterized as "repressive, unfair and unjust."

"Strikes among certain classes of employes are unjustifiable and among these are railroad employes," declared Senator Walsh, "but we cannot chain them in their posts like galley slaves." Congress, the Massachusetts senator held, should remove the incentive and cause of strikes by enactment of arbitration legislation without banning what he declared to be the inherent right to strike.

Washington, Dec. 18.—On a tie vote of 31 to 31 the substitute of Senator McCormick, republican, Illinois, for the anti-strike provision was rejected and Mr. McCormick gave notice that he would ask for another vote later.

Washington, Dec. 18.—The senate held its fifth night session on the railroad bill tonight with grave doubt in the minds of the leaders that the measure could be passed in time to permit beginning of the holiday recess Saturday.

The labor clause, including the anti-strike provision of the Cummins measure, were under discussion during the day, culminating in the rejection by a vote of 25 to 46 of the proposal of Senator Stanley, democrat, Kentucky, to eliminate the whole section. Efforts towards a compromise ensued.

During the debate an agreement was reached by senate and house majority leaders not to permit a holiday recess until the measure is through the senate and sent to conference. At their conference Senator Lodge and Representative Mondell agreed to suspend house business Saturday to permit members of the lower body to go home for the holidays, even if the senate is held by delay on the railroad bill. Beginning Monday, house sessions will be perfunctory under a "gentlemen's agreement" to transact no business until January 5, but to adjourn from day to day until the senate recesses.

Anti-Strike Provisions. The anti-strike provisions were in turn attacked and defended today, while conferences were held looking to a compromise by modifying the clause imposing criminal penalties for strikes or lockouts.

After defeat of the Stanley motion to strike out the entire labor section, Senator McCormick, republican, Illinois, offered a substitute plan, similar to the Canadian system, to prohibit strikes for 60 days after decisions of the adjustment

Eldred Chosen by Governor as Judge in 14th District

Lincoln, Dec. 18.—(Special.)—C. E. Eldred of McCook is to be the new judge of the Fourteenth judicial district to fill the vacancy caused by the resignation of Judge E. B. Perry.

The matter has been hanging fire some time, the candidates being Mr. Eldred and Representative J. E. Schultz, chairman of the judicial committee of the last legislature and a member of the last two sessions. He was backed by a number of fellow members of the legislature and by others out in the judicial district. Mr. Eldred is a law partner of Senator J. E. Cordeil of McCook. In speaking of the appointment, the governor said:

"An informal ballot which I took among the lawyers in the Fourteenth judicial district, in which they were asked to give the names of two men whom they considered best fitted for appointment to this position, resulted in 42 replies, out of which Mr. Eldred was mentioned 33 times as the first choice. This certainly indicates the high esteem in which he is held by the legal fraternity in the territory in which he is best known."

present, the state levies no tax of this kind. By a majority of all courts to appoint their respective clerks, who will hold during the pleasure of the judge. No clerk action, however, will be taken in any case before the court where the action is pending.

TRUST COMPANY CLOSES ITS DOORS, THOUGH SOLVENT

Boston Financial Institution Takes Radical Step to Save Assets to Depositors.

Boston, Dec. 18.—The doors of the Old South Trust Co., a banking and savings institution with about \$4,000,000 in deposits, were closed Thursday by State Banking Commissioner Augustus L. Thorndike, at the request of its president, John P. McVey.

The bank's troubles, according to a statement by the bank commissioner, were due to its inability to continue its arrangements for clearances. These had been made, not through the Boston clearing house association, but through the Webster and Atlas National bank, officers of which said today that the bank had declined to clear the checks after the South's balance fell below the figure previously stipulated.

President McVey said that negotiations were under way with local bankers to have them take over the trust company and make possible a resumption of business in a few days.

Commissioner Thorndike said everything possible would be done to make Christmas savings available to owners. It was estimated that there were about 8,000 members of the Christmas Savings club, with aggregate savings of approximately \$400,000.

American "Foreigners" May Clothe and Feed Europe's Needy Kiddies

New York, Dec. 18.—Herbert Hoover announces a plan whereby the aid of Americans of foreign descent would be enlisted in supplying to the needy children of central Europe, food and clothing at cost prices.

To accomplish this end co-operation has been established between European children's funds, of which Mr. Hoover is chairman, and the inter-racial council headed by Coleman Dupont, which includes in its membership hundreds of thousands of Americans of different national descent. This co-operation will extend to the project recently announced by the children's fund for establishment of relief warehouses in Europe.

Mr. Hoover explained the new arrangement had been made to emphasize the necessity for persons of foreign extraction in America assuming financial responsibility for relief of people in central Europe. At present children's relief is being supplied in the form of one supplementary meal a day to 3,000,000 children in Finland, Latvia, Poland, Jugoslavina, Hungary, Estonia, Lithuania, Czechoslovakia, Austria and Armenia. For about 1,200,000 of these children clothing outfits are also being supplied. Through the inter-racial council it is expected that a satisfactory response will be stimulated so that this program can be continued and extended in many of the most needy countries. Donations of supplies will not be accepted.

Funds contributed by the various race groups will be used for purchase of clothing and food for children of the respective countries.

SEND OUT CALL FOR MEETING TO SELECT A LEADER

Hitchcock Calls Democratic Conference to Decide Issue Between Underwood and Himself.

Washington, D. C., Dec. 18.—A call for a conference of democratic senators Saturday to select a leader to succeed the late Senator Martin of Virginia was issued today by Senator Hitchcock of Nebraska, who is contesting with Senator Underwood of Alabama for the place.

Settlement of the contest between Senators Hitchcock, the acting democratic leader, and chief spokesman for the administration in the treaty fight, and Senator Underwood, formerly democratic leader in the house, is the only business to come before the conference. The outcome of the contest was said to be in doubt.

Friends of Senator Underwood intimated today that they might endeavor to postpone a vote until after the holidays, when the full democratic membership is expected to be present. The Alabama senator's supporters also were said to desire disposition of the treaty before the leadership election so that the question of endorsing Senator Hitchcock's management of the treaty might not be an issue.

The action of Senator Hitchcock, who is vice chairman of the democratic conference, in issuing the call indicated to his friends that he felt confident of winning.

Some senators said the leadership contest might have considerable bearing on the immediate outcome of the treaty controversy. Senators Hitchcock and Underwood have differed regarding future procedure, the former opposing and the latter agreeing to accept as an alternative the plan of Senator Knox, republican, Pennsylvania, to ratify the treaty except the league of nations covenant, which would be left for future consideration.

It has been said at the White House that, irrespective of the outcome of the leadership contest, Senator Hitchcock will continue as the administration leader in the treaty fight.

Underwood's Friends Complain. Some of Senator Underwood's friends were outspoken in criticizing Senator Hitchcock's call. "It's an outrage," said Senator Harrison of Mississippi. "Up to now Hitchcock forces have been urging that the conference be postponed until after the treaty is settled. Now he is calling for a conference of democratic senators are in town. There are half a dozen of Mr. Underwood's friends absent now who cannot get back in time."

A compromise was suggested in some quarters today, proposing that Senator Hitchcock be made chairman and Mr. Underwood vice chairman of the democratic conference, a position which would give Mr. Underwood management of many important measures.

POISON LIKE UNTO Venom of Snakes

Professor H. Strauss, M. D., of the Royal Charity Hospital, says, "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there."

When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; when you suffer with sick headache, or dizzy, nervous spells, acid stomach; or you have rheumatic pains or lumbago, gout, sciatica when the weather is bad, do not neglect the warning, but try simple means. Take six or eight glasses of water during the day, then obtain at your nearest drug store "An-uric" (anti-uric acid).

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "An-uric" is an antidote for this uric acid poisoning and dissolves uric acid in the body much as hot coffee dissolves sugar.

"An-uric" will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins.

Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

"FRIGHTFULNESS" IN INDIA SHOCKS BRITISH PRESS

Say Cruelties Recall Episodes of German Occupation of Belgium.

By L. R. MURDOCH, Universal Service Staff Correspondent. Special Cable Dispatch. London, Dec. 18.—"It was innocently assumed when the armistice was signed that the reign of 'frightfulness' was over," says the Daily News, commenting on the massacre of Indian civilians at Amritsar, the revelations of which has shocked all Britain to the core.

"The assumption was incorrect," continues the News. "The most familiar of our war experiences, efficient censorship, kept for eight months all references to these proceedings out of the press."

"The scene of this new 'frightfulness' is not Belgium, but India, the general responsible is not a German but a Briton. The government which has practiced this concealment—in a way one of the most shocking features—is the British government."

Were British Subjects. "The victims were not even technically enemies, but British subjects, who innocently or otherwise ventured to act in contravention of General Dyer's decrees. It will make a wide impression throughout the world which must be removed if our credit and honor are not to be fatally impaired."

"Those who hesitate how to judge the exploit may clear their minds by asking how they would have judged it had it been achieved by a German officer under German rule anywhere. A very extreme kind of evil may be wrought in public affairs by a mind which handles any disturbed situation with the methods of militarism."

Wounded Left Alone. "General Dyer decided he must effect wholesale slaughter and he kept his troops firing into a wholly unarmed multitude until the ammunition was exhausted. His state of mind may be gathered from the fact that no steps were taken to attend the wounded, who were left to shift for themselves."

"This amazing narrative will recall chiefly the early episodes of the early German occupation of Belgium. A few more episodes of this kind will suffice to bring our rule in India speedily to an end. If General Dyer is not condemned by this nation, the nation itself will be condemned by the civilized world."

High Winds and Waves Sweep Steamer Lanes

New York, Dec. 18.—Substantial evidence of the fierce winter storms which have prevailed for the last 10 days along the steamer lanes between this country and Europe was shown by eight big passenger liners which arrived Thursday with more than 17,000 belated passengers. Hulls encrusted with ice, rigging covered with sleet and snow from spray caked on funnels prefaced the stories told by ship officers of high winds and gigantic waves that swept their vessels from stem to stern.

Canada's Profit From Army Canteen Service 35 Million

Ottawa, Dec. 18.—Canada's share of the profits of the canteen system of the British expeditionary forces amounts to \$35,000,000, it was learned today. Omahans to Receive Pay for Any Coal That They Skipped

Washington, Dec. 18.—(Special Telegram.)—Nearly a score of the leading wholesale coal dealers of Omaha, through a joint telegram, called upon Congressmen Jeffers Wednesday to secure for the fuel administration a definite ruling that would safeguard their dealers and shippers as to coal which had been shipped by them prior to the president's proclamation, and later confiscated or diverted by the regional director under stress of circumstances, and which would permit their shippers as lawful owners to make collection for such coal from whoever finally received it, and at a price at which the coal was originally sold.

Mr. Jeffers, who has done nothing, seemingly, but attend to coal matters for the last month, having haunted the offices of the fuel administration in trying to get relief for coal consumers in Omaha, laid the whole matter before H. B. Spencer of the fuel administration, who stated in a memorandum to the congressman that the point raised by the dealers in Omaha was covered by a ruling of the fuel administration which provides that settlements are to be made with shippers of coal, and the Omaha people will receive payment for any coal of which they were the shippers.

PRIME MINISTER OF CANADA WILL RETAIN POSITION

Ottawa, Ont., Dec. 18.—Sir Robert Borden will remain prime minister of Canada. This decision has been reached after considerable pressure was brought to bear upon the premier by his colleagues and from various sources outside of the cabinet. However, while he will remain prime minister, Sir Robert's health is in such a condition that a prolonged rest from his duties is necessary. No decision has yet been reached as to who will be acting premier during Sir Robert's vacation.

The premier was advised by his physician that continuation of his duties at the present time would inevitably result in a serious and permanent impairment of his health, and eventually in complete incapacity for further work. The period of his absence from duty will necessarily depend upon his progress toward recovery, and in the end the condition of his health will determine his resumption of official duties or his definite retirement therefrom.

These facts were the substance of an official statement which was issued tonight. The statement added: "Sir Robert Borden desires that the situations here outlined shall be placed before his supporters in Parliament and he considers it essential that they should approve of the arrangement which his colleagues have urged and which he has accepted."
